For Immediate Release: June 29, 2020

2019 Cook County Tax Rates Released

Second Installment Bills due August 3, 2020; Interest & Penalties for late payments waived until October

The 2019 property tax rates, calculated by the Cook County Clerk for more than 1,400 taxing agencies, were released today. **Tax bill payments are due August 3, 2020.**

Due to the ongoing effects of the COVID19 pandemic, the Cook County Board of Commissioners passed an ordinance which provides some relief for taxpayers by waiving the respective **penalties and interest for second installment tax bills paid after the August 3, 2020 deadline but before October 1, 2020.**

“The work of calculating and publishing these tax rates is a massive effort that Real Estate and Taxes staff, working together with municipal offices, undertake every year,” said Karen A. Yarbrough, Cook County Clerk. “It is a formidable task in ordinary times, but as we know, the past few months have been extraordinary, with enormous challenges. Yet, in spite of the challenges COVID-19 presented, our talented staff was able to complete our tax calculation requirements within our deadline. I commend the team for their diligence to see this through while working remotely, away from their usual workplaces.”

Once again, the total property taxes billed for taxing districts in Cook County has broken previous records. Last year the total tax billed was \$14.9 billion, this year the total tax billed is nearly \$15.6 billion. This is a 4.1% increase which is due to several factors which may have impacted each property.

Property changes can be analyzed in many ways such as, but not limited to, by region or large dollar changes by city/village, in order to assess the changes impacting Cook County properties as a whole. Thus, the examples below examine possible property tax changes for Average Single-Family Dwellings and Commercial properties utilizing an average estimated market value by regions.

Property Tax Changes for Average Single-Family Dwellings by Region

1. The North & Northwest suburbs were reassessed for tax year 2019 with an overall increase of Assessed Value for Commercial properties of 22.5%. Assessments in the City of Chicago and the South Suburbs are unchanged except in the case of new construction or appeals or other specific conditions.

2. Chicago Average Tax Rate incl. Cook County, Forest Preserve, City of Chicago (incl. Library & Bldg. Funds) Board of Education, City Colleges, Chicago Park District, & Metropolitan Water. Suburban Average Tax rates = Total Tax in Region divided by Total Equalized Assessed Value (EAV) in Region. Actual rates within Regions will vary.

3. Commercial Tax Bill calculated as: (Assessor-derived Market Value x 25% Assessment Level x Equalization Factor) x Tax Rate

Largest Tax Increases by Area

Individual properties will experience much larger increases or decreases than others due to numerous factors which may impact a property tax bill change year over year. Below is a snapshot of some of the properties experiencing the largest increases across the County this year.

Largest Commercial Tax Bill increases by Village/City

Area	Tax Increase	% Tax Increase	Municipality	Notes
Chicago	\$3,760,690.23	154%	City of Chicago	Part of the Old Chicago Post Office
North	\$2,864,334.21	167%	Elk Grove Village	Newer business park in Elk Grove Village
South	\$929,123.20	64%	Calumet City	Part of shopping center in Calumet City

Largest Residential Tax Bill increases by Village/City

Area	Tax Increase	% Tax Increase	Municipality	Notes
Chicago	\$402,774.89	849%	City of Chicago	New condominium unit near Mag Mile
North	\$417,579.35	133%	Glenview	Senior living center
South	\$55,848.14	648%	Oak Park	Updated apartment building in Oak Park

Factors that Impact Property Tax Increases or Decreases

The figures above give an example of average trends within Cook County. The average residential tax bill is likely to increase by less than 2% for tax year 2019 for some properties, while others may experience a larger increase.

With over 1,400 taxing districts servicing over 1.8 million properties of numerous classifications and values, there is a great deal of variability in individual tax bills and in the changes that individual taxpayers may experience compared to last year. This variability is based on a number of factors.

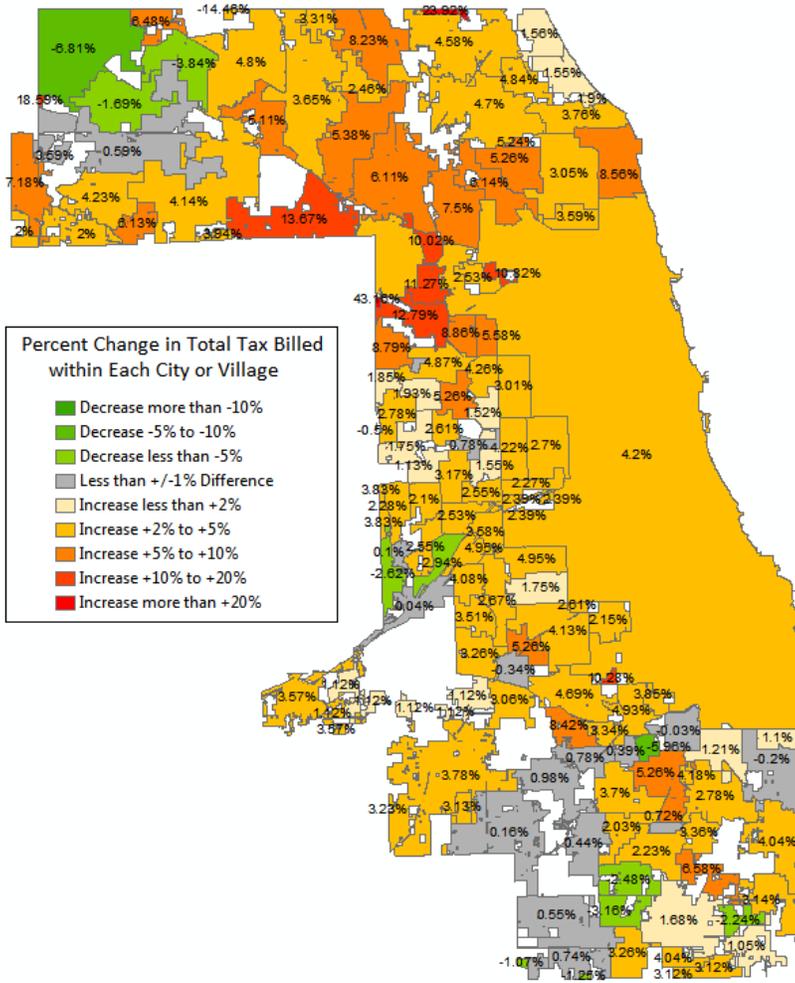

The four most impactful factors which affect whether or not individual property tax bills will increase or decrease are:

- The amount of property tax requested by the taxing districts (property tax levies)
- The change in the value of a property relative to other properties within the same districts (property assessment)
- The change in the state-issued equalization factor compared to the prior year (from 2.9109 for 2018 to 2.9160 for 2019)
- Property tax exemptions. For example, if a property received a Homeowner Exemption one year, but did not receive it the following year, the final taxable value of that property could be up to 10,000 higher without the exemption.

Municipalities with Largest Increases and Decreases in Total Tax Billed

Below is a map Cook County displaying the percent increase or decrease in total property tax billed within each City or Village for tax year 2019. The five municipalities with the highest total tax increases and the five municipalities with the largest decreases in total tax are listed in the table to the right.

Percent Change in Total Tax Billed by Municipality

MUNICIPALITY	% Change in Total Tax Billed in 2019
BENSENVILLE	43.16%
DEERFIELD	23.92%
EAST DUNDEE	18.59%
ELK GROVE VILLAGE	13.67%
FRANKLIN PARK	12.79%
OLYMPIA FIELDS	-3.16%
INVERNESS	-3.84%
DIXMOOR	-5.96%
BARRINGTON HILLS	-6.81%
DEER PARK	-14.46%

The map and table above display some of the variation that can occur in tax bills across the County.

As an example, every property in the Village of Bensenville will not realize a 43% tax increase. Even within this relatively small municipality (approximately 70 properties in Cook County), if we were to analyze it even further, individual tax bills of two properties less than a quarter mile apart decreased by as much as -56% and increased by as much as 1200%.

Property Tax Cycle in Cook County

Property assessments in Cook County are set by the Cook County Assessor and finalized by the Cook County Board of Review. These assessments are equalized using the Illinois Department of Revenue’s (IDOR) state equalization factor¹.

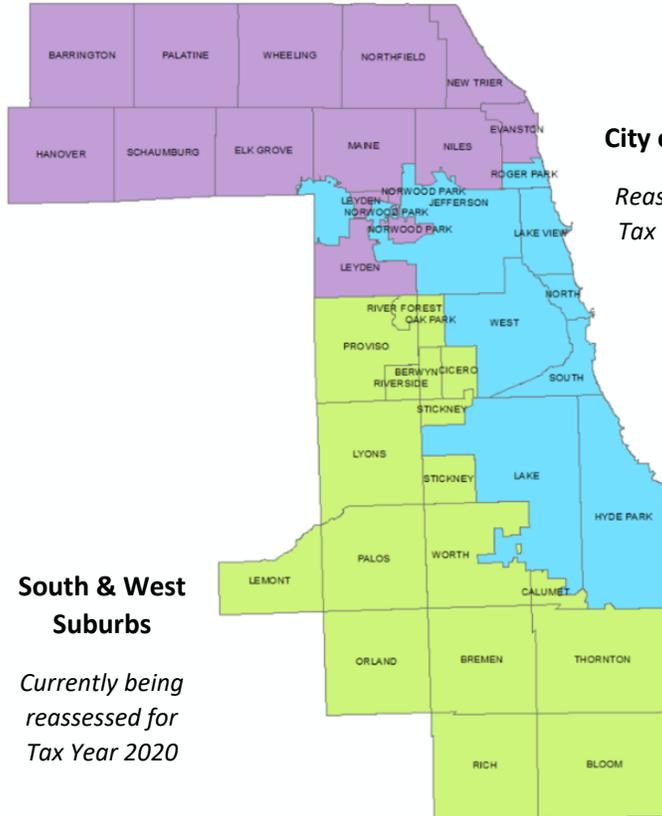

Cook County is divided into three regions for assessment purposes and each of these regions are reassessed every three years (“triennials”). For tax year 2019, the north and northwestern suburbs were reassessed. The City of Chicago was reassessed for tax year 2018 and currently the southern and western suburbs are being reassessed for tax year 2020. The Cook County Assessor is revising assessments for tax year 2020 due to impacts of the COVID19 pandemic. (See the Cook County Assessor’s website for more information: (<https://www.cookcountyassessor.com/>)).

¹ To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate.

The overall taxable value or equalized assessed value (EAV) in Cook County increased by 5.3% this year. The chart below reflects changes in equalized assessed values across Cook County. The largest changes this year are in the north and northwestern suburbs which were reassessed for tax year 2019.

Change in Equalized Assessed Value (EAV) in Cook County by Region

How Tax Amounts Are Calculated

Individual tax bills are calculated as follows:

Individual Residential Tax Bill Calculation

Estimated Market Value	200,000	Assessed Value (AV)	20,000	Equalized Assessed Value	48,320
x Assessment Level	10%	x Equalization Factor	2.9160	x Tax Rate	6.890%
<hr/>		<hr/>		<hr/>	
Assessed Value (AV)	20,000		58,320	Tax Amount	\$ 3,329.25
		- Homeowner Exemption	10,000		
		Equalized Assessed Value	48,320		

How Tax Rates Are Calculated

In simple terms, a tax rate is a taxing district's property tax levy divided by taxable value within that district.

Determining property tax rates requires input from multiple county offices and all of the taxing districts in Cook County. A taxing district is a government body such as a school district, library or municipality which is authorized to receive funding from property taxes. Each district in Cook County submits a property tax levy to the County Clerk each year.

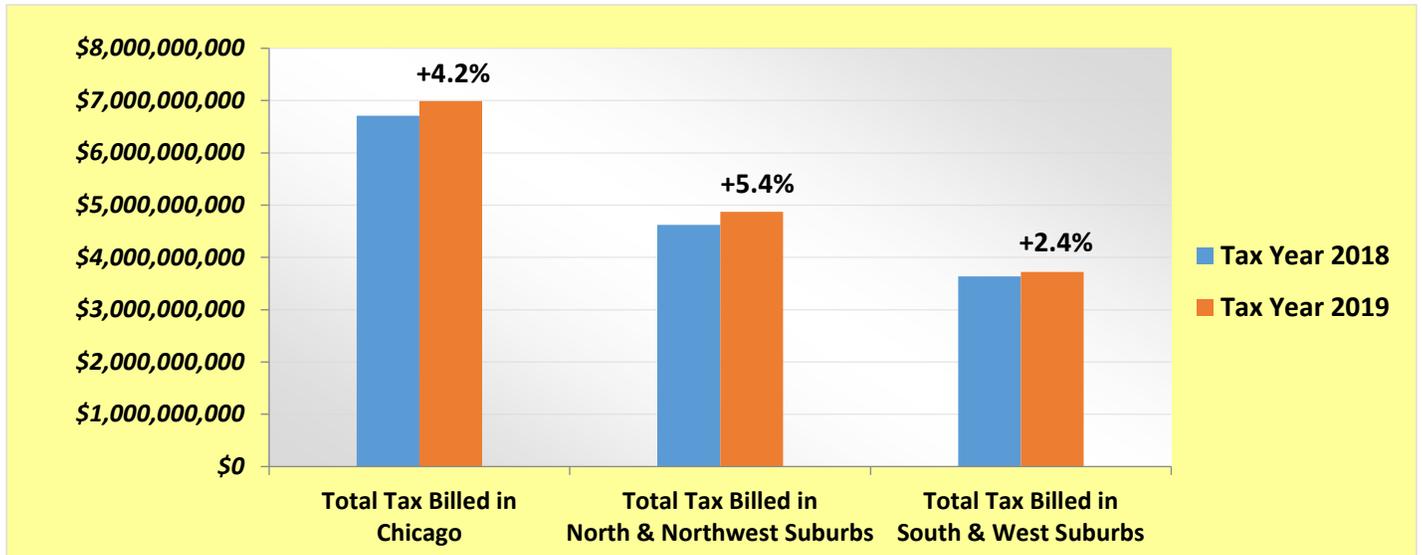

The County Clerk is responsible for calculating tax rates by dividing these levies by the total taxable value (EAV) of all property within each district as determined by the Cook County Assessor and Board of Review. The tax rates of all districts that service a particular property are combined to create the composite tax rate for that property.

Statutory Limits on Tax Increases

The Illinois Property Tax Extension Limitation Law (PTELL), also known as the "Tax Cap Law," was put in place in the mid-1990s to prevent districts from increasing their property tax revenues by more than the rate of inflation. This year, districts were limited to an increase of 1.9%. (the 2019 Consumer Price Index). However, PTELL does not apply to home rule districts, debt obligations, special purpose funds and value derived from new property or value derived from terminated Tax Increment Financing Districts (TIFs).

The Total Taxes billed in Cook County increased 4.1% for tax year 2019 compared to 2018. The chart below reflects a breakdown of tax increases by region.

Changes in Total 2019 Taxes Billed in Cook County by Region

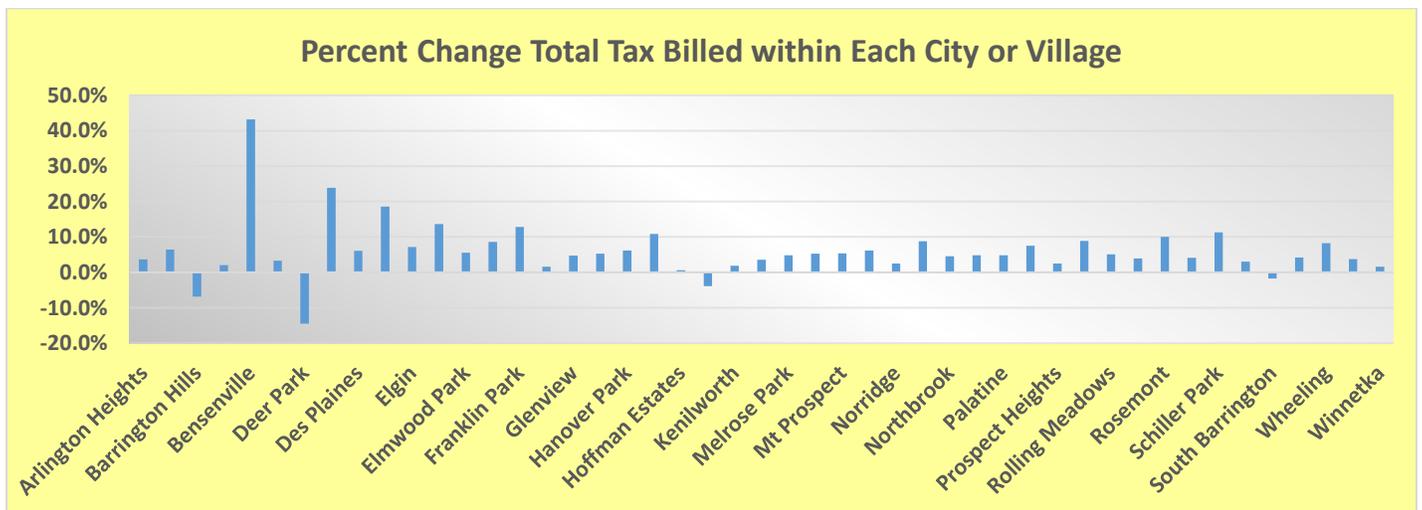

Analysis of North Suburban Cook County

The Cook County Assessor reassessed the north and northwestern suburbs for tax year 2019. This resulted in a 15.1% increase in the overall taxable value (EAV) of this region. The total tax amount billed in this area increased 5.4%, and the overall tax rate for this region decreased approximately 9.3%.

Taxable values, rates, and tax bills will vary greatly across the north and northwestern suburbs due to the different types of properties that exist in different communities and due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will see larger or smaller tax increases depending on the taxing districts associated with those areas. In addition to having different tax rates throughout the suburbs, taxpayers within the same suburb may pay different rates based on their designated taxing district which provides their services. For example, in the Village of Skokie, there are six elementary school districts. Thus, taxpayers have rates that range between 7.517% and 11.024% largely dependent upon which school district in which they reside. Each second installment tax bill will itemize the list of districts that contribute to a property’s final tax amount.

The charts below reflect the north and northwest suburbs which were reassessed for tax year 2019 and their percent change in total tax.

Suburb	% Change Total Tax
Arlington Heights	3.65%
Barrington	6.48%
Barrington Hills	-6.81%
Bartlett	2.00%

South Barrington	-1.69%
Streamwood	4.23%
Wheeling	8.23%
Wilmette	3.76%
Winnetka	1.55%

**Melrose Park and North Lake cross the boundary between the northern assessment area and the southern assessment area. The portion of these municipalities in the north/northwestern assessment area was reassessed for tax year 2019.*

Property tax bills may also see changes due to differences in assessment changes. In the City of Evanston, for example, the total taxable value increased 26.1%. When coupled with a reduction of -14.6% in the average tax rate, taxpayers whose properties follow this trend in Evanston could expect a tax increase of approximately 8.5%. Even within this one municipality, similar to Bensenville, individual tax bills will change based on the specific factors that impact each property.

Tax differences range between a 100% reduction for properties that were previously taxable and are now exempt from taxation, to a tax increase of \$763,000 for a commercial property near Chicago Avenue and Church Street which had a 60% increase in assessed value.

Analysis of the City of Chicago

The City of Chicago was not reassessed for Tax Year 2019 other than new construction projects and specific assessment appeals. For an individual property which has not been reassessed since last year, the Assessed Value (AV) would be unchanged. The Equalization Factor issued by the Illinois Department of Revenue changed very slightly, from 2.9109 in 2018 to 2.9160 in 2019. Therefore, most properties in the City of Chicago will experience a 0.2% increase in taxable value (EAV).

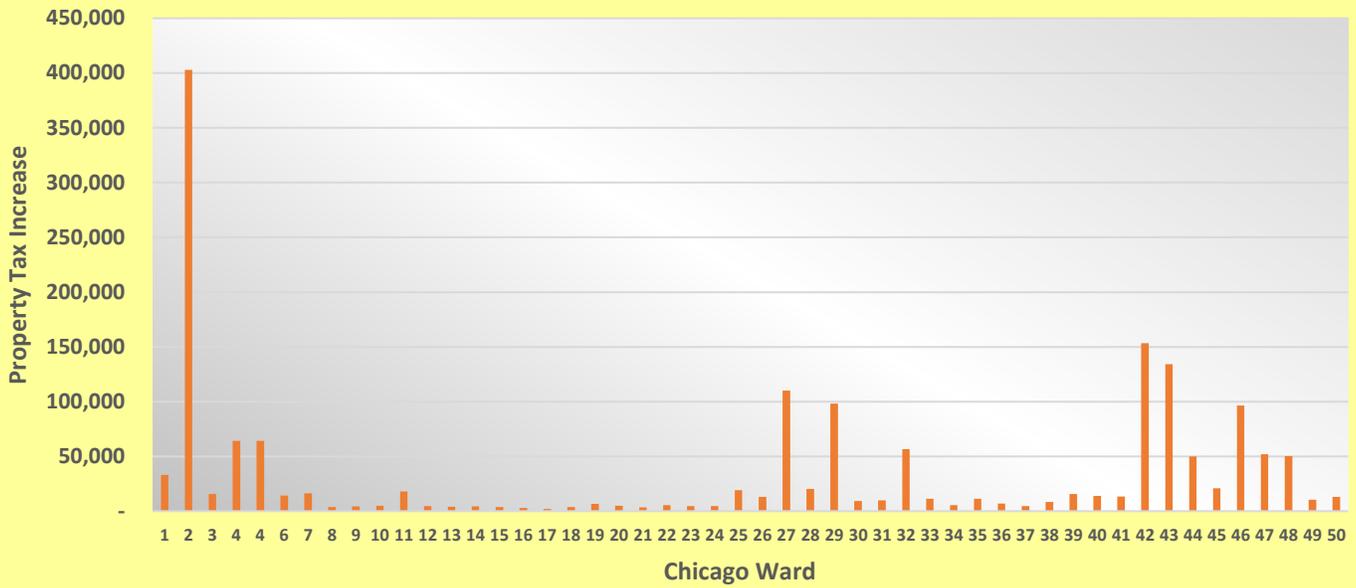

The general composite tax rate in the City of Chicago increased 1.5% from 6.786% in 2018 to 6.890% in 2019. This increase is primarily due to levy increases in the major taxing districts within the City of Chicago, including a \$98.1 million increase in the City of Chicago's levy and a \$112.6 million increase in the taxes generated from the Chicago Board of Education.

For properties in the City of Chicago that had no assessed value change, the combination of the 1.5% increase in the City's general composite tax rate and a 0.2% increase in the Equalization Factor will generally result in a 1.7% property tax increase.

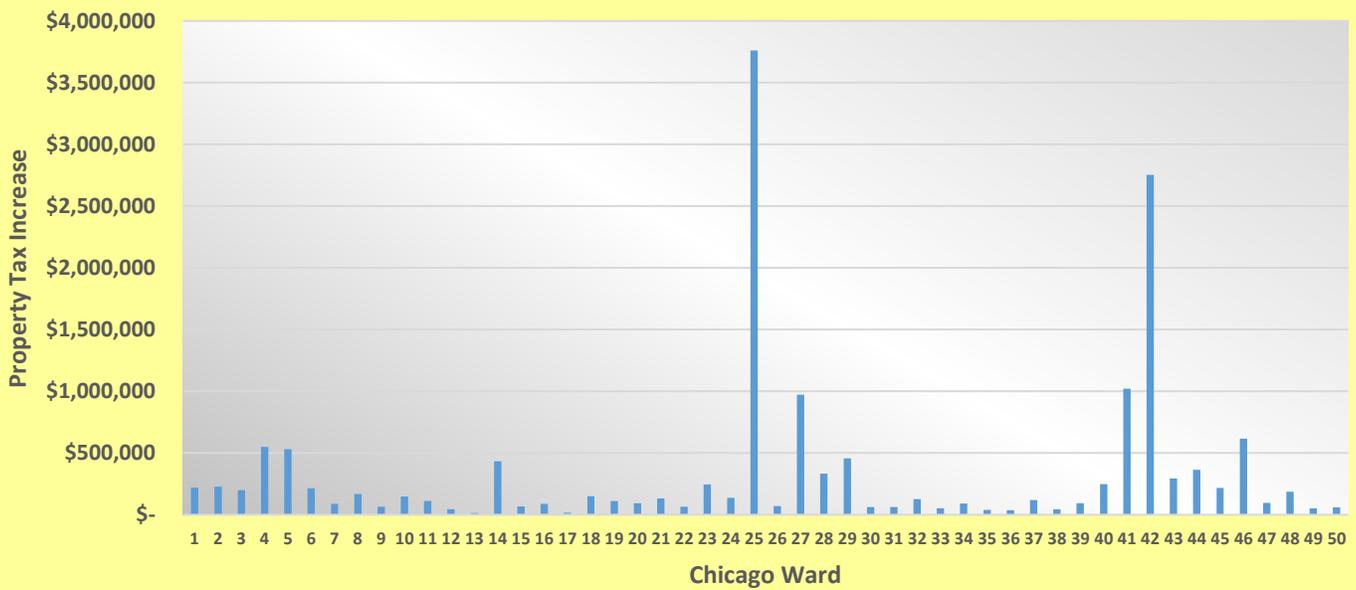

Analysis of the City of Chicago Wards

There are 50 Wards in the City of the Chicago and not all will experience the same tax increase. We noted the most significant residential property tax increase was in Ward 2 and the greatest individual commercial property tax increase was in Ward 25.

Property Tax Increase by Chicago Ward data provided by Office of the Cook County Treasurer

Variations will occur for properties that were reassessed due to new construction, appeals, or other factors. Assessment increases or decreases will likely result in commensurate changes in taxable value and property taxes. Additionally, properties that lie within specialty districts such as Expanded Mental Health Services, Home Equity Assurance, or Special Service Areas will likely experience tax rate changes.

Variation may also occur due to assessment changes for individual properties. Tax differences range between a 100% reduction for properties that were previously taxable and are now exempt from taxation, to a tax increase of \$3.7 million for a property located near the Old Chicago Post Office.

Analysis of South Suburban Cook County

As with the City of Chicago, the south and west suburbs of Cook County were not reassessed for tax year 2019. However, whereas tax rates in the City of Chicago tend to be uniform, tax rates in suburban Cook County experience more variations due to the larger number and combination of taxing districts in the suburbs.

The southern and western suburbs have historically had lower property values and thus higher tax rates than both the City of Chicago and the northern suburbs. The combination of lower property values and higher tax rates do not necessarily result in higher or lower tax bills. (See FAQs for additional information.)

As occurs in the northern suburbs, tax rates differ in the various southern suburbs due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will see larger or smaller tax increases depending on the taxing districts associated with those areas. Additionally, taxpayers within the same suburb may pay different rates based on the specific taxing districts which provide their services. For example, in the Village of Lynwood some taxpayers in School District 172 have a composite tax rate of 11.798% while other taxpayers in School District 169 have a composite tax rate of 26.180%. These properties are in the same municipality, but have different tax rates because of the different taxing districts that serve them. As such, comparable properties could therefore have very different tax bills.

The chart below is a chart of south west suburbs and their percent change in total tax billed for 2019.

Suburb	% Change Total Tax

**Melrose Park and North Lake cross the boundary between the northern assessment area and the southern assessment area. The portion of these municipalities in the north/northwestern assessment area was reassessed for tax year 2019.*

Summation

- This report has presented the general trends occurring in Cook County. Each tax bill will vary depending on specific circumstances including taxing district levies, individual assessments and other factors.
- The overall taxable value (EAV) in Cook County has increased 5.3% for tax year 2019 compared to 2018.
- The total tax amount billed in Cook County has increased 4.1%, exceeding \$15.6 billion for tax year 2019.
- Assessment increases in the northern/northwestern suburbs have generally resulted in higher taxable values and lower tax rates which, combined, result in slightly higher tax bills on average. Therefore, individual tax bill changes will vary.
- The 2019 second installment property tax bill payments are due August 3, 2020, but in an effort to provide taxpayer relief, penalties and interest for late payment to the second installment bills will be waived if paid by October 1, 2020. Unpaid first installment tax bills (which were due March 1, 2020) will continue to accrue penalties and interest.

###

Definitions of Property Tax Terms

Assessed Value (AV): The fair market value, determined by the county assessor, multiplied by the assessment level for a class of property (ie. residential, commercial, industrial, etc).

Composite Tax Rate: The sum of the tax rates of all the taxing districts (municipality, school district, park district, etc.) which service an individual property.

Equalization Factor: A factor, established by the Illinois Department of Revenue, used to bring the aggregate value of assessments within Cook County to 33 1/3% of the estimated actual fair market value of all real property in Cook County. This factor, also called the "multiplier" or "equalizer," is calculated by the state each year.

Equalized Assessed Value (EAV): The assessed valuation of each property multiplied by the equalization factor, less applicable exemptions. This is also known as the Taxable Value.

Exemptions: For properties and taxpayers who meet certain criteria, all or a portion of qualifying property values may be excepted from taxation under Illinois law. For residential property, a portion of taxable value will be excepted, such as with the homeowner or senior exemptions, if the taxpayer meets statutory requirements.

Home Rule: Home rule units of government are those counties and municipalities which have met statutory requirements to exercise any power and perform any function unless it is specifically prohibited from doing so by state law. Home rule districts are not subject to tax rate limitations of the Property Tax Extension Limitation Law (PTELL).

Tax Cap Law / Property Tax Extension Limitation Law (PTELL): A law which allows a taxing district to receive a limited increase in the property tax extension on existing property within that taxing district, plus an additional amount for new construction. It limits increases in property tax revenue by the rate of inflation.

Tax Extension: "Tax Extension" refers to both 1) the amount of property tax to be billed for a taxing district and 2) the process of calculating the tax rate required to obtain the billable amount when applied to all taxable value within the district.

Tax Levy: A taxing district's request for revenue to be obtained from property taxes for a given tax year.

Tax Rate: The tax levy of a district divided by the total equalized assessed value (EAV) of that district, subject to statutory limitations.

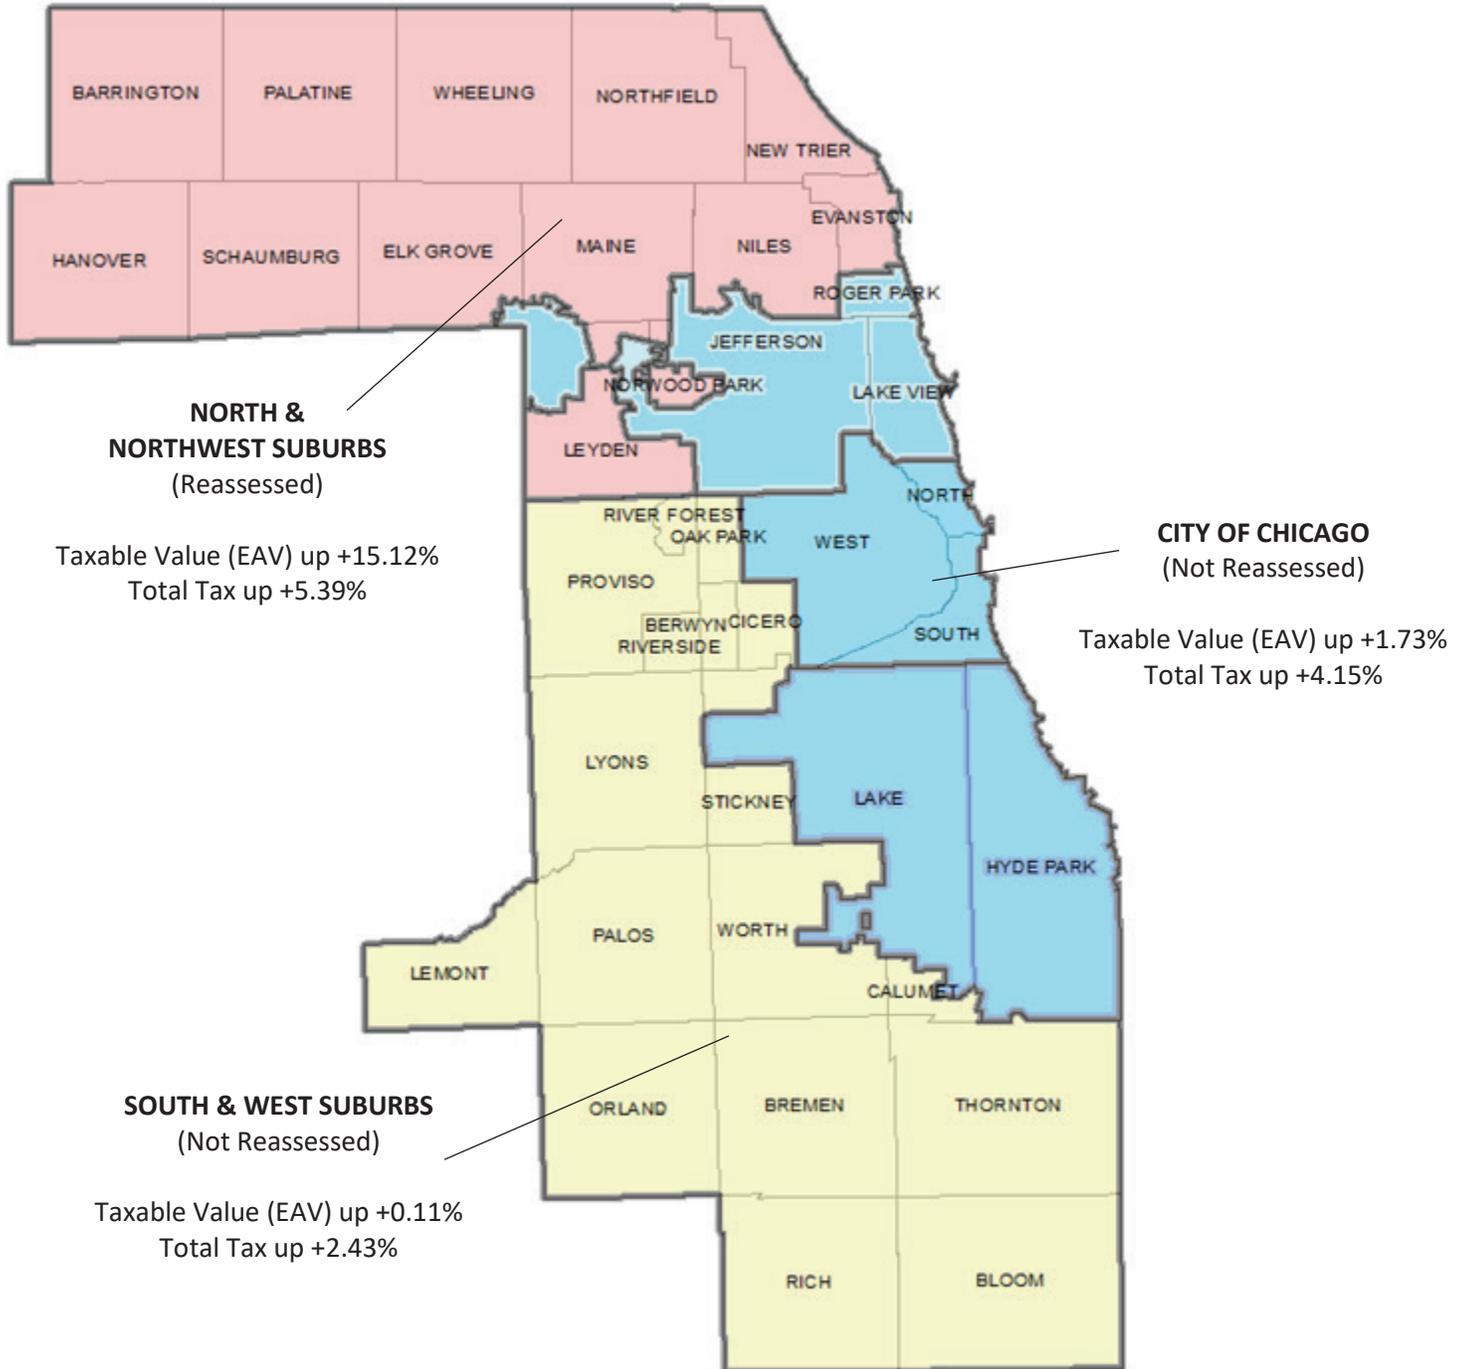

Taxable Value: See Equalized Assessed Value (EAV).

Understanding the Tax Impact in Your Region

Property tax bills are primarily affected by taxing district levies, equalized assessed values (EAVs), and the state-issued equalization factor. Properties located in different regions of the County saw different tax impacts this year.

Property values in the North and Northwestern suburbs were reexamined as part of the triennial assessment (every three years).

Taxable values (EAV) in the City of Chicago and in South and Western Suburban Cook County, which were not reassessed this year, are slightly higher this year, which is in line with a minor increase in the state-issued equalization factor (see FAQs) and new construction.

The impact in the North and Northwestern Suburbs

The total taxable value (EAV) in the north and northwestern suburbs of Cook County increased 15.12% for tax year 2019, primarily due to the triennial reassessment.

This increase is not uniform across every city or village in the north and northwestern suburbs. Some areas experienced greater increases than others and some individual properties have even experienced decreases. Additionally, tax rates and amounts vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will see larger or smaller tax increases depending on the taxing districts associated with those areas.

Tax rates have an inverse relationship with taxing district equalized assessed values (EAVs). Increased taxable values generally correlate to lower tax rates. The [2019 Suburban Tax Rate Report](#) shows the increase or decrease in the average composite tax rate for each municipality.

The impact in Chicago

Taxable value in the City of Chicago is up +1.73% overall. This is mostly due to a slight increase in the equalization factor and new construction.

Because the tax rate for Chicago taxpayers is fairly uniform, with a common general composite rate applied to most properties, differences in tax bill amounts are primarily due to individual changes in taxable values (EAVs). If an individual property had no change in assessed value and received the same exemptions as last year, the 0.2% increase in the equalization factor (from 2.9109 to 2.9160) coupled with a 1.5% increase in the City's general composite tax rate (from 6.786% to 6.890%) means that typical Chicago taxpayers will likely see a tax increase of approximately 1.7%.

The impact in the South and West Suburbs

The south and west suburbs were not reassessed this year and have experienced an overall increase in taxable value of 0.11%. The total tax amount billed increased +2.43% in the south and west suburbs.

As with the north and northwestern suburbs, tax rates and amounts in the south and west suburbs vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will see larger or smaller tax increases depending on the taxing districts associated with those areas.

2019 Property Tax Frequently Asked Questions

Are my property taxes increasing?

Individual tax bills will vary given property taxes are generally slightly increasing for Cook County. How much they change primarily depends on how much your individual property value changed compared to prior year and how much the tax levies increased for the specific taxing districts that service your property.

Below is a quick reference of single-family property changes by Suburbs and the City of Chicago.

North & Northwest Suburban Cook County (reassessed single-family property)

- +1.8% increase in property tax for average single family dwelling
- Largest individual single family dwelling tax bill decrease of -\$117,600
- Largest individual single family dwelling tax bill increase of +\$351,600

South & West Suburban Cook County (non-reassessed single family properties)

- +1.8% increase in property tax for average single family dwelling

City of Chicago (non-reassessed single-family properties)

- +1.4% increase in property tax for average single family dwelling (North Chicago)
- +1.9% increase in property tax for average single family dwelling (Central Chicago)
- +1.3% increase in property tax for average single family dwelling (South Chicago)

What is the Equalization Factor?

Whereas other counties in Illinois assess all properties at 33 1/3 percent of fair market value, assessment levels in Cook County are set by ordinance and based upon the property classification (i.e. 10% for residential properties, 25% for commercial properties, etc.) To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the equalization factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate. This year, the state-issued equalization factor increased 0.18%, which increases the equalized assessed value of property to which tax rates apply.

How does the triennial assessment of property impact tax bills in Cook County?

Pursuant to state law, the Assessor reassesses property in one of three geographic regions in the County every three years (triennial assessment). For tax year 2019, the north and northwestern suburbs were reassessed. In 2018, properties located in City of Chicago were reassessed. Property in the south and west suburbs are scheduled to be reassessed, currently, for tax year 2020.

The Cook County Assessor is currently revising assessments countywide for tax year 2020 due to the COVID19 pandemic. For more information, visit <https://cookcountyassessor.com>.

Changes in property values due to reassessment may impact tax rates.

**Note: When assessed values increase and a levy remains static, the tax rate will decrease. A tax bill is a product of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.*

How do Property Tax Exemptions affect my taxes?

Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Exemptions lower tax bills by reducing the equalized assessed value of your property. The three most common exemptions are:

- Homeowner Exemption: An EAV reduction of \$10,000
- Senior Citizen Exemption: An EAV reduction of \$8,000
- Senior Freeze Exemption: EAV "frozen" for homeowners with a maximum income of \$65,000

Where are the highest average tax rates in Cook County?

- Village of Park Forest has the highest average composite rate at 35.748%
- Village of Ford Heights has the 2nd highest average composite rate at 32.034%
- Village of Riverdale has the 3rd highest average composite rate at 31.873%

Where are the lowest average tax rates in Cook County?

- Village of Burr Ridge has the lowest average composite rate at 7.111%
- Village of Barrington has the 2nd lowest average composite rate at 7.234 %
- Village of Glenview has the 3rd lowest average composite rate at 7.251 %

Note: The City of Chicago's general tax rate is 6.890% for tax year 2019.

Does a high tax rate mean I'll have a high tax bill?

Not necessarily, although the tax rate matters, there are several factors which impact an individual tax bill.

The tax rate is driven by the overall assessed value in a taxing district, the state-issued equalization factor, and the district's tax levy request. Individual tax bills are calculated by applying the composite tax rate (the combined rates of all taxing districts servicing that property) to the property's taxable value (EAV).

Therefore, it is possible that a property with a high tax rate but a low taxable value may result in a lower bill than a property with a low tax rate but a high taxable value.

Example*:

Market Value:	\$100,000	Market Value:	\$300,000
2019 EAV:	\$19,160	2019 EAV:	\$77,480
x Tax Rate	20%	x Tax Rate	7%
Tax Amount:	\$3,832	Tax Amount:	\$5,424

**Factors to Consider: Residential property is assessed at 10% of Market Value, equalized by a factor of 2.9160 and reduced for a homeowner exemption of \$10,000).*

How does a Chicago tax bill compare to a suburban tax bill for similar properties?

The City of Chicago, with its large commercial and industrial value base, has a relatively low tax rate compared to other municipalities in Cook County. Some North Suburban municipalities have lower tax rates than the City of Chicago, but the average tax rate in the North Suburbs is still higher. The South Suburbs have a modest tax base and that results in higher tax rates.

*Sample 2019 property tax bill for homes with the same market value (\$250,000) in the three areas:

- City of Chicago: \$4,334
- North & Northwest suburbs: \$6,295
- South & West suburbs: \$8,376

**Because suburban property values and tax rates vary widely, the tax amounts in these regions also vary.*

*Using this same example comparing it to DuPage County; According to the **DuPage County 2019 Property Tax Rate Book**, the average tax rate in DuPage County this year is 7.4720%. This rate would generate a tax bill of \$5,629 for a \$250,000 market value home in DuPage County using the assessment, equalization, and exemption methodology applicable in DuPage County.*

Are my taxes as low as they could be?

As referenced above, Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Taxpayers should review their tax bill and determine whether the appropriate exemptions were applied. If you have questions about property tax exemptions, please contact the Cook County Assessor's Office at cookcountyassessor.com to learn more.

Though the time for filing 2019 assessment appeals has passed, you can find out information about appealing your property's assessment for 2020 at the Cook County Assessor's Office and the Cook County Board of Review at cookcountyboardofreview.com.

Distribution of Tax Dollars to Taxing Districts in the City of Chicago

Where do taxes go in the City of Chicago?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an illustration of how tax dollars were distributed to taxing districts in the City of Chicago last year (Tax Year 2018) compared to this year (Tax Year 2019) for a typical* Chicago taxpayer. A majority of the typical tax bill goes to the Chicago Board of Education.

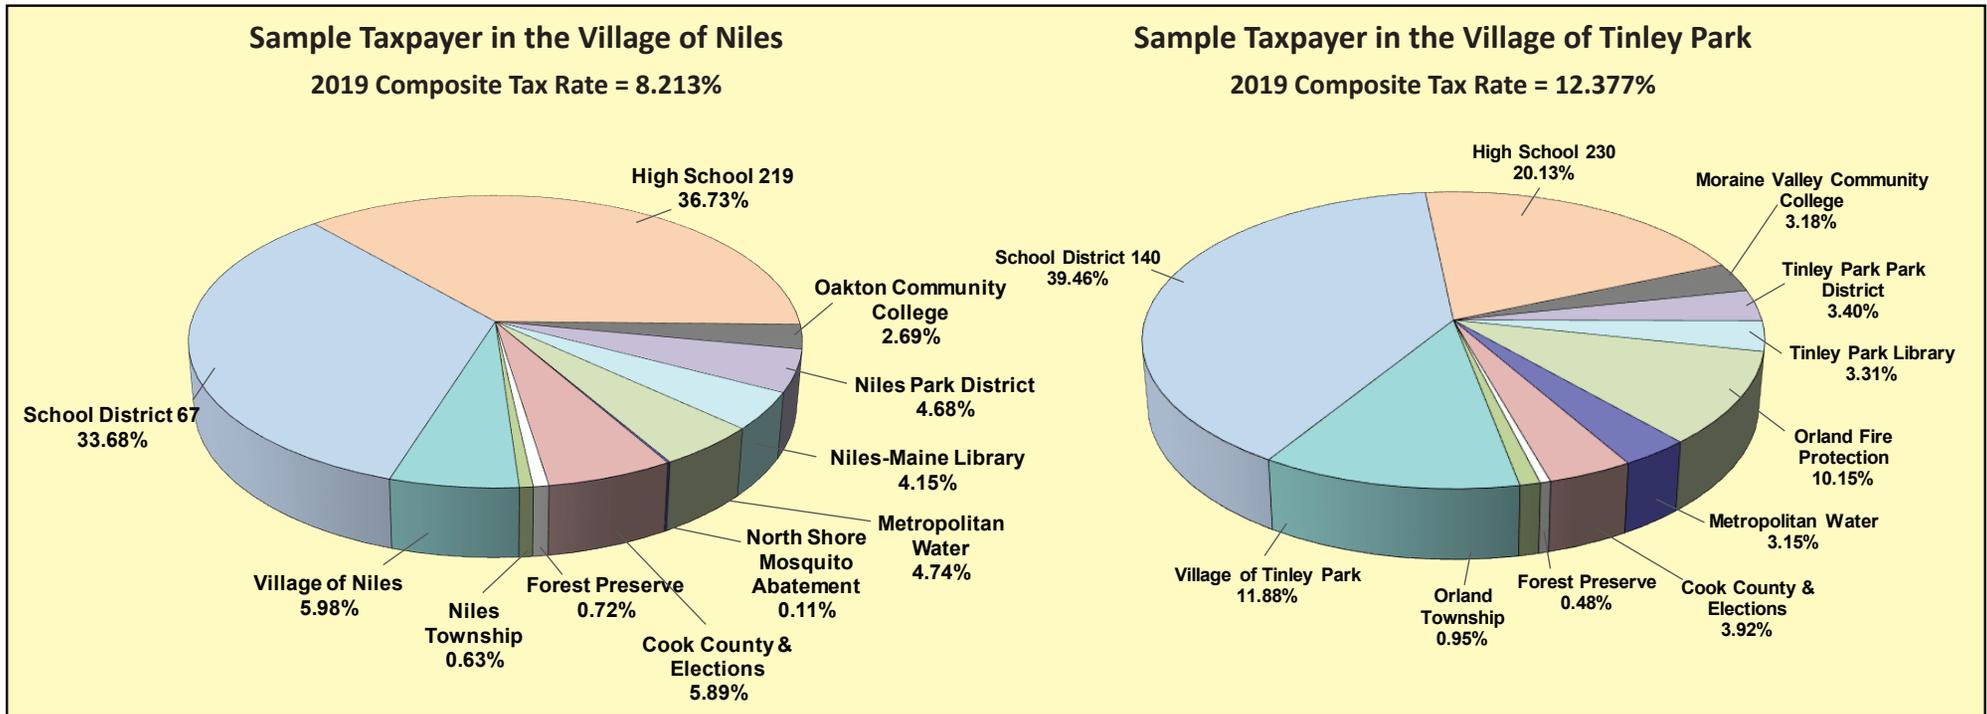

**Typical Chicago taxpayers are those who do not pay a portion of their tax bills to special districts which provide services such as mosquito abatement or home equity assurance of other special purposes.*

Distribution of Tax Dollars to Taxing Districts in Suburban Cook County

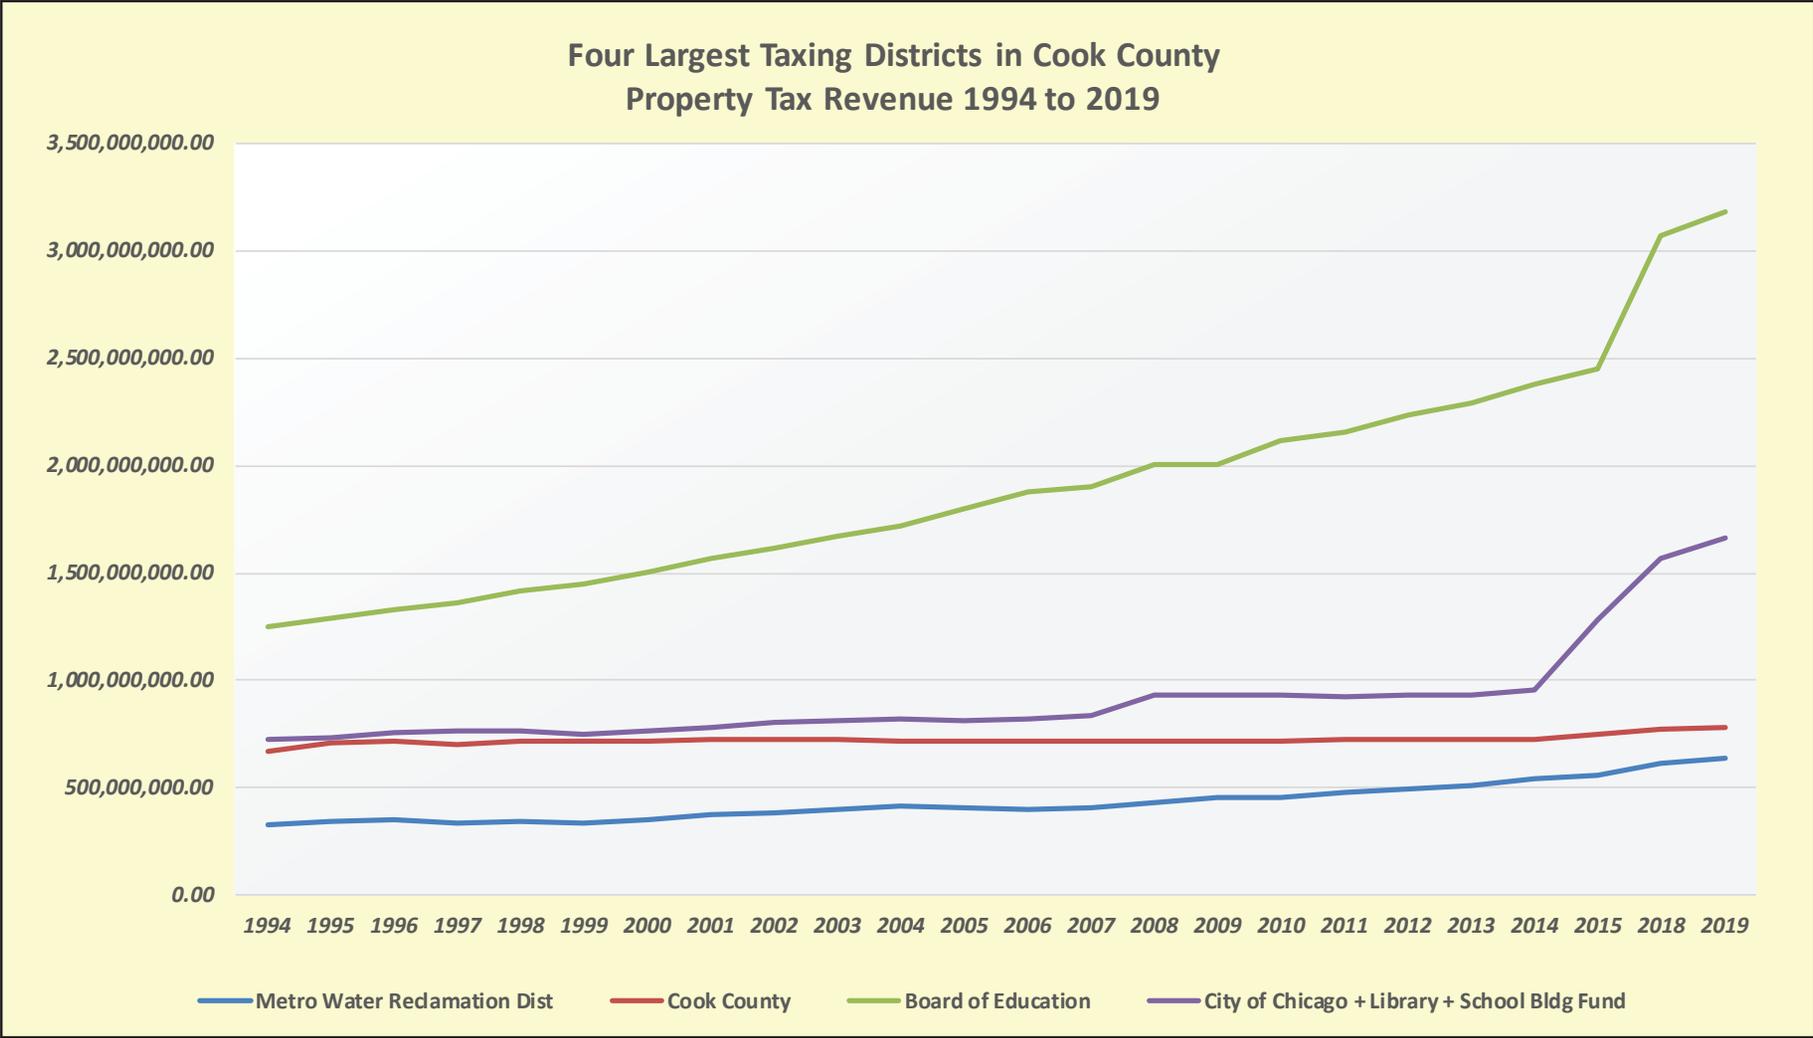

Where do taxes go in the Suburbs?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an example of how tax dollars may be distributed to taxing districts in one Northern Suburb (the Village of Niles) compared to one Southern Suburb (the Village of Tinley Park) for Tax Year 2019. School districts receive the largest portion of suburban tax bills.

The Cook County Taxing Districts Which Collect the Most in Property Taxes

Of the \$15.6 billion of property tax billed in Cook County this year, over \$7 billion will be collected by just four districts as seen in the chart below.

How Is My Property Tax Bill Calculated?

1. The Tax Rate for each taxing district is calculated:

$$\frac{\text{Taxing District Tax Levy}}{\text{Taxable Value in Taxing District}} = \text{District Tax Rate}$$

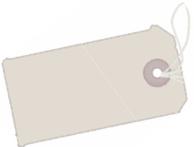

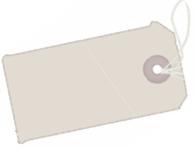

2. The Composite Tax Rate of all taxing districts in your area is calculated:

$$\begin{aligned} & \text{County Rate} \\ & + \text{Township Rate} \\ & + \text{Municipality Rate} \\ & + \text{Grade School Rate} \\ & + \text{High School Rate} \\ & + \text{Community College Rate} \\ & + \text{Park District Rate} \\ & + \text{Library Rate} \\ & + \text{Other District Rates} \\ & \hline & = \text{Composite Tax Rate} \end{aligned}$$

3. Your Individual Tax Bill is calculated:

$$\text{Individual Taxable Value} \times \text{Composite Tax Rate} = \text{Tax Bill Amount}$$

The property assessment process is the basis for generating property tax revenues that pay for a portion of schools, city and county services, roads, fire protection, public safety, water and sanitation, and other local services.

	Assessed Value	10% of a \$200,000 Home (sample home in the City of Chicago): 20,000

SAMPLE REAL ESTATE TAX BILL CALCULATION

The typical homeowner exemption for residential property is \$10,000 (other exemptions may apply). This sample calculation is based on the average assessment increase across all residential property in the northern suburbs and average tax increases in the City of Chicago and the southern suburbs. Individual tax bills will vary based on reassessment values and individual tax rates.
