2023 Cook County Tax Rates Released

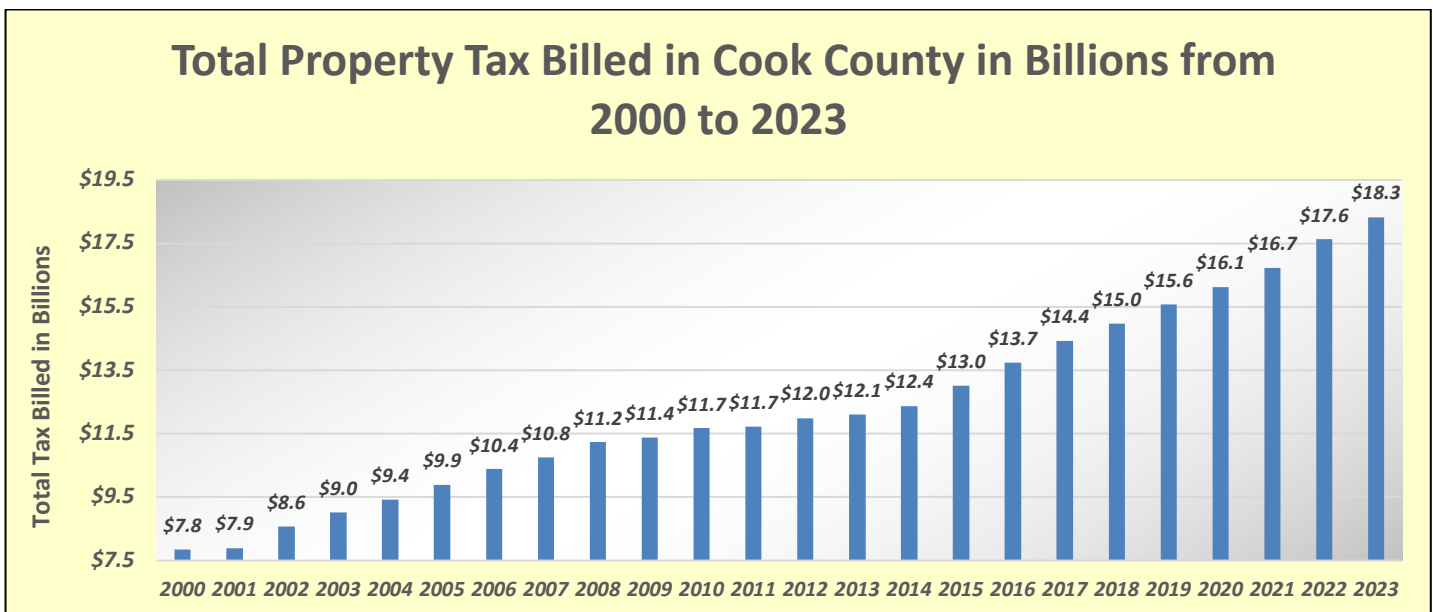

Second-Installment Bills on time for the first time since COVID; due August 1, 2024

The Clerk’s Office has completed the calculation of 2023 property tax rates for more than 1,400 taxing agencies in Cook County and released its annual tax rate report Tuesday.

The Clerk’s Tax Extension Unit is responsible for calculating property tax rates for all local governments in Cook County that authorize the collection of revenue through real estate taxes, according to Clerk Cedric Giles.

Total Tax Billed Continues to Increase Year Over Year

Once again, the total property tax billed for taxing districts in Cook County continues to steadily increase. Last year the total tax billed was \$17.6 billion, this year the total tax billed is over \$18.3 billion. This 3.96% increase is due to several factors such as assessed values, taxing district levies, and the state-issued equalization factor.

2023 Re-Assessment

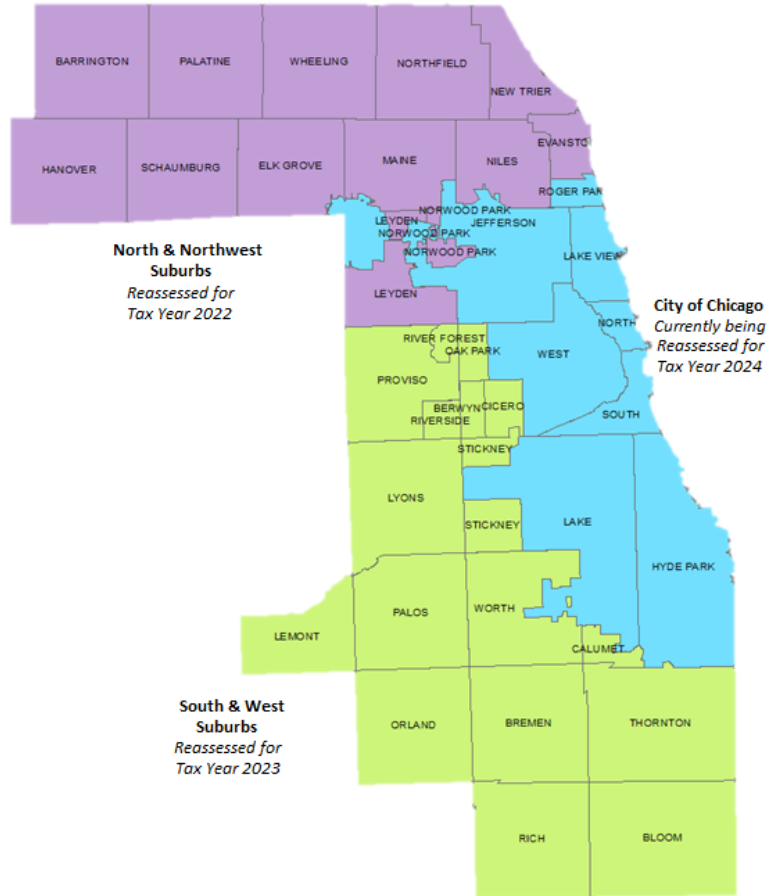

Each year one-third of the County is fully reassessed by the Cook County Assessor's office.

The South and Western suburbs (suburbs south of North Avenue) were reassessed for tax year 2023, which is reflected in the tax bills currently payable.

The last time this region was examined by assessment officials en masse was tax year 2020.

The City of Chicago is currently being reassessed for tax year 2024, to be billed next year.

The North and Northwestern suburbs (suburbs north of North Avenue) were reassessed last year (tax year 2022) and will be reassessed again for tax year 2025.

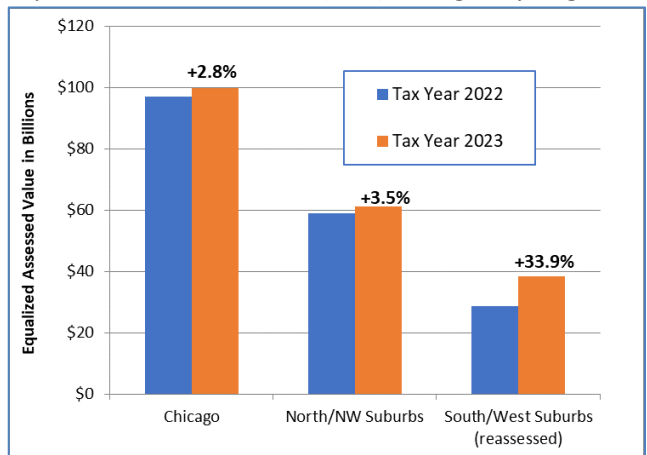

Assessment and Tax Changes by Region

The following charts show the impact of the triennial reassessment on the three regions of Cook County on overall assessed values (AVs) and equalized assessed values (EAVs) in each of the three Cook County regions). The south and western suburbs, which were reassessed for tax year 2023, had a total assessment increase of 27.4%, while assessments in the City of Chicago and the north/northwestern suburbs remained mostly flat.

Comparative Property Tax Changes

Increases or reductions in assessed values do not necessarily mean increases or reductions in property taxes for individual properties. Changes in property taxes may be analyzed in many ways such as, but not limited to, by median, average, region, or municipality.

Comparing Average Residential and Commercial Properties by Region

In order to assess the changes impacting Cook County properties as a whole, the following examples utilize average estimated market values of Single-Family Dwellings and Commercial properties to evaluate possible property tax changes by region.

Total Tax Billed by Region

The total amount of property tax billed in Cook County increased 3.96% this year compared to last year, increasing from \$17.6 billion to \$18.3 billion. This increase is partly due to high rates of inflation, which are utilized in the Clerk's tax rate calculations each year as dictated by the Illinois "Tax Cap" law. The Tax Cap Law allows most taxing districts to increase their property tax revenue each year by the Consumer Price Index for Urban Areas (CPI-U) or by 5%, whichever is lowest. For tax year 2023, the U.S. Bureau of Labor Statistics calculated CPI-U to be 6.5%, therefore the Tax Cap calculations used the alternate maximum increase of 5%. There are a number of exceptions to the Tax Cap Law, including Home Rule Municipalities, new construction, debt service funds, and other factors. For tax year 2024, the Tax Cap calculations will only allow for a 3.4% increase in property tax revenue.

The south and western suburbs experienced a larger increase in total tax billed compared to the City of Chicago and the north and northwestern suburbs, primarily due to the 2023 reassessment of suburban properties lying south of North Avenue.

The chart below shows the increase in total tax in each of the three Cook County regions.

Factors that Impact Property Tax Increases or Decreases

The tables in the previous section provide examples of average trends within Cook County.

The four most impactful factors which affect whether or not individual property tax bills will increase or decrease are:

- The amount of property tax requested by the taxing districts (property tax levies)
- The change in the value of a property relative to other properties within the same districts (property assessment)
- The 3.2% increase in the state-issued equalization factor compared to the prior year (from 2.9237 for 2022 to 3.0163 for 2023)
- Property tax exemptions. (For example, if a property received a Homeowner Exemption one year, but did not receive it the following year, the final taxable value of that property could be up to 10,000 higher without the exemption.)

In the City of Chicago and in the north and northwest suburbs, which were not reassessed this year, the average residential tax bills may increase slightly.

Many residential properties in the south and west suburbs experienced significant assessment increases and may also see tax increases this year.

It is important to note that an increase in assessment does not necessarily equate to an increase in taxes. For properties in the south and western suburbs, the primary driving force impacting property tax increases or decreases is the percentage of assessment change. The overall Assessed Value in the south and western suburbs increased by 27.4%. This contributed to a 20.7% reduction in the average composite tax rate in this region. A lower tax rate will offset the impact of assessment increases.

Properties with assessment changes near the average increase or higher may experience tax increases. However, properties with assessment decreases, or increases of less than the average may see a tax decrease.

Below is a table of several examples showing the possible tax year 2023 impact of various levels of assessment increases on a sample south or west suburban residential property worth \$250,000 last year (tax year 2022) utilizing the Average tax rate in the south/western region of Cook County.²

With over 1,400 taxing districts servicing over 1.8 million properties of numerous classifications and values, there is a great deal of variability in individual tax bills, especially suburban tax bills. Individual tax bills, especially in the suburbs where there are more taxing districts, may increase or decrease depending on the combination of taxing districts servicing those properties.

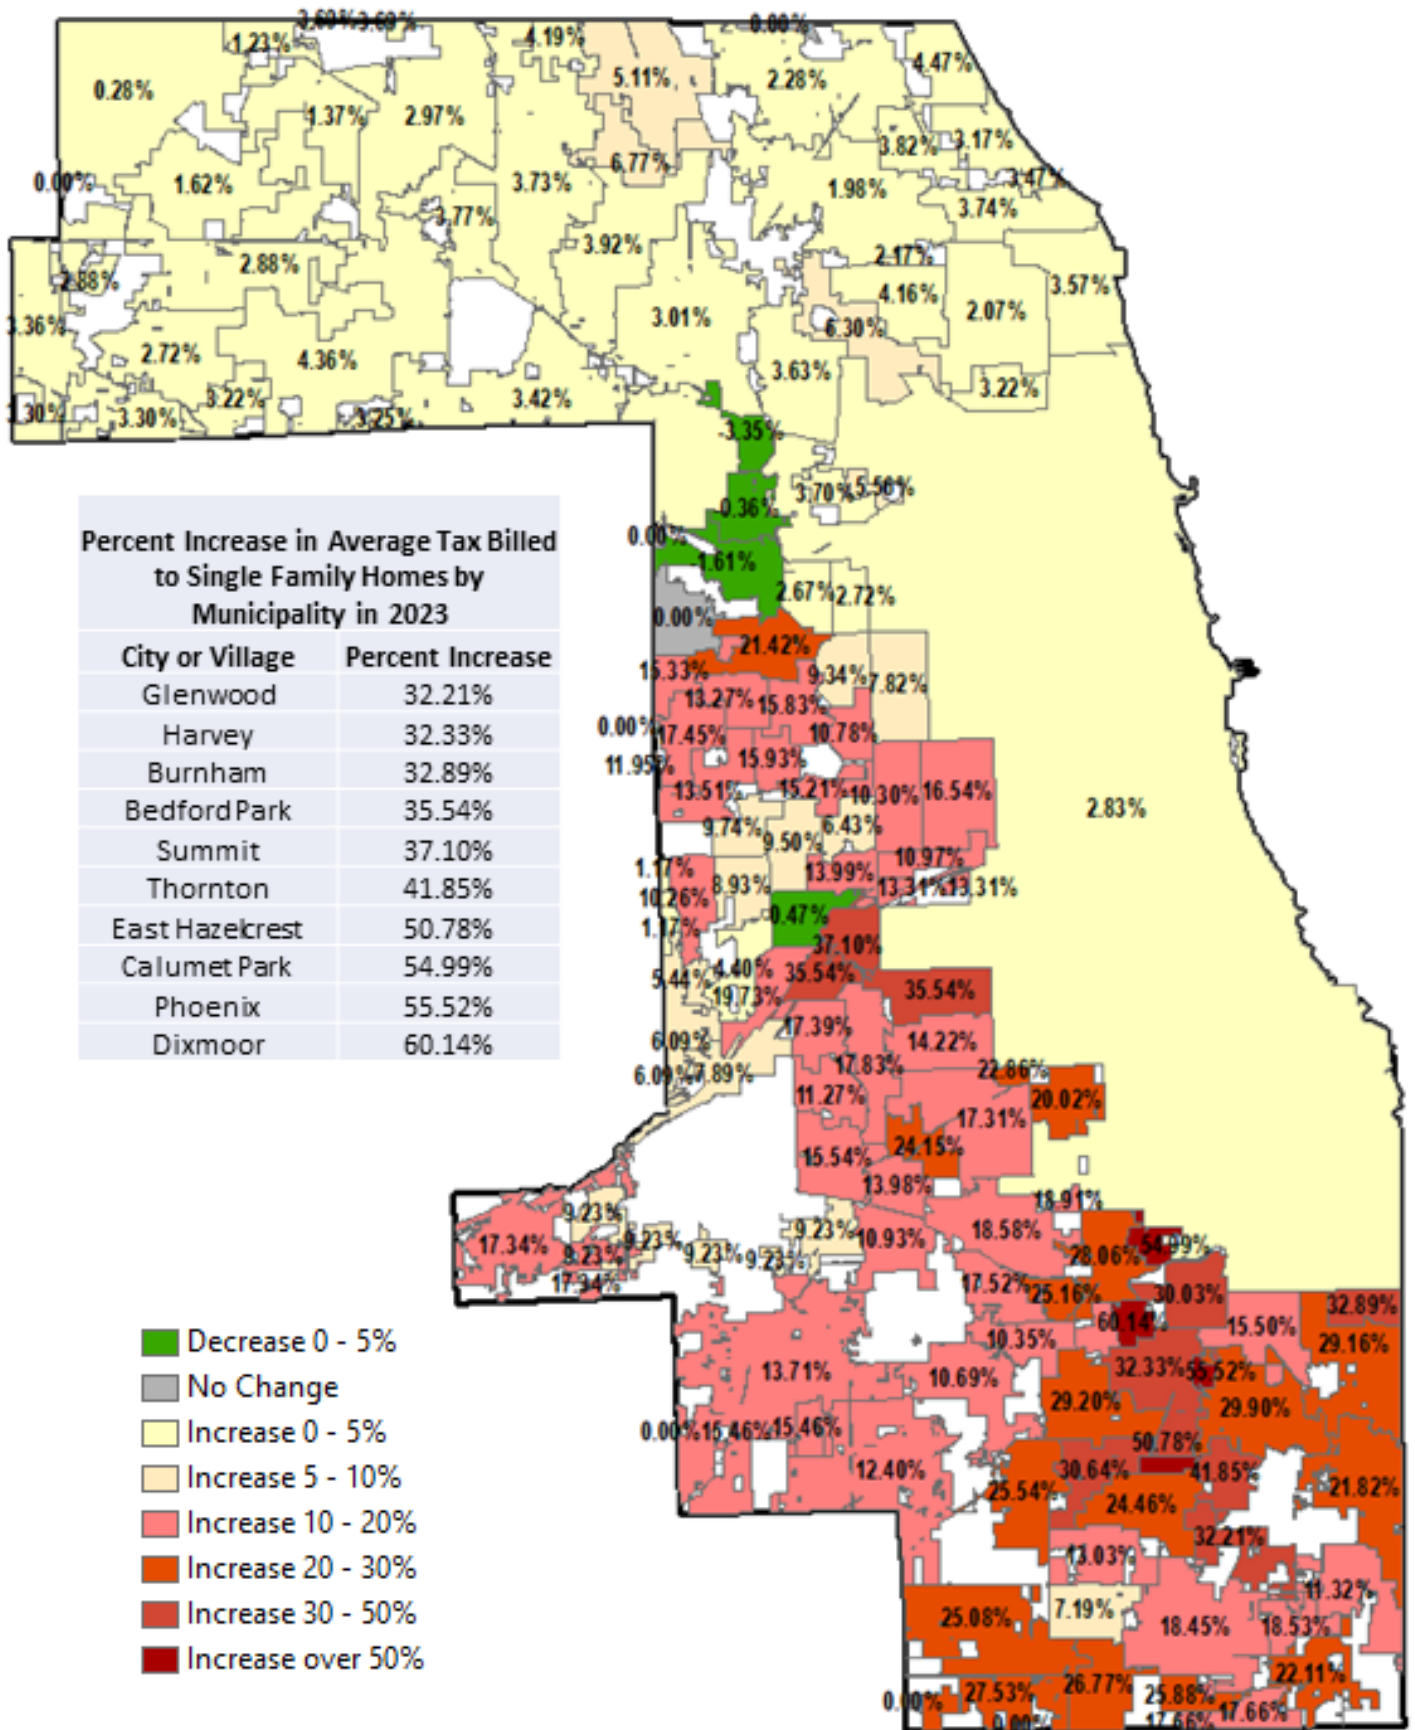

It is important to note that individual properties within each city, village, or township may experience property tax increases or decreases that do not align with the overall tax increase or decrease for that area.

Tax rates in the various Cook County suburbs differ due to the large number of municipalities, school districts, park districts, and other taxing districts which provide different services. Specific areas will experience larger or smaller tax changes depending on the taxing districts associated with those areas. Additionally, taxpayers within the same suburb may pay different rates based on the specific taxing districts, which provide their services.

[Increases and Decreases in Average Tax Billed to Single-Family Homes](#)

Following is a map of Cook County displaying the percentage increases or decreases in the average property tax billed for single-family homes within each City or Village for tax year 2023.

The ten municipalities with the largest increases in average tax billed to single-family homes are listed in the table.

Other factors that impact taxes

Property Tax Relief Grants

Several years ago, the State of Illinois authorized the Property Tax Relief Program for eligible school districts. This year, 31 school districts in the south and western suburbs were able to provide property tax relief totaling \$73.4 million to their constituents through this program, which provides grants in exchange for tax levy reductions.

Voter Initiatives

Each election, taxing districts have the opportunity to request voter approval for property tax increases through referenda. The most common types of property tax referendum in Cook County are debt service bonds or exceptions to the Tax Cap Law.

This chart reflects taxing districts in which Tax Cap law exceptions were authorized by voters.

Taxing District Name	2023 Tax Increase due to Referendum
Schaumburg Township (New Mental Health Fund)	\$1,615,882.29
School District 118 (Increased Rate)	\$5,188,153.56
School District 153 (Tax Year 2022 referendum)	\$3,864,924.39
Worth Park District (Increased Rate)	\$622,115.45

Summation

- This report has presented the general trends occurring in Cook County. Each tax bill will vary depending on specific circumstances including taxing district levies, individual assessments, and other factors.
- The total tax amount billed in Cook County has increased 3.96%, exceeding \$18.3 billion for tax year 2023.
- The overall taxable value (EAV) in Cook County has increased 7.86% for tax year 2023 compared to 2022.
- While specific assessment increases or decreases within the south and west suburbs varied by taxing district, the overall assessment within that region increased 27.4%, primarily due to the three-year reassessment of that region.
- The state-issued Equalization Factor increased by 3.17% from 2.9237 in 2022 to 3.0163 in 2023. An increased Equalization factor offsets assessment decreases and amplifies assessment increases.
- In the City of Chicago and the north and northwest suburbs, overall taxable values increased approximately 3%, primarily as a result of the increase in the Equalization Factor.
- Tax rates are nearly flat in the City of Chicago and up slightly in the north and northwest suburbs compared to last year. The largest rate differences occurred in the south and west suburbs, which experienced an average rate reduction of 20.7%.
- The 2023 second-installment property tax bills are currently payable online. Tax bills will be mailed by July 1 with a due date of August 1, 2024.

###

Definitions of Property Tax Terms

Assessed Value (AV): The fair market value, determined by the county assessor, multiplied by the assessment level for a class of property (i.e. residential, commercial, industrial, etc.).

Composite Tax Rate: The sum of the tax rates of all the taxing districts (municipality, school district, park district etc.) which service an individual property.

Equalization Factor: A factor, established by the Illinois Department of Revenue, used to bring the aggregate value of assessments within Cook County to 33 1/3% of the estimated actual fair market value of all real property in Cook County. This factor, also called the "multiplier" or "equalizer," is calculated by the state each year.

Equalized Assessed Value (EAV): The assessed valuation of each property multiplied by the equalization factor, less applicable exemptions. This is also known as the Taxable Value.

Exemptions: For properties and taxpayers who meet certain criteria, all or a portion of qualifying property values may be excepted from taxation under Illinois law. For residential property, a portion of taxable value will be excepted, such as with the homeowner or senior exemptions, if the taxpayer meets statutory requirements.

Home Rule: Home rule units of government are those counties and municipalities which have met statutory requirements to exercise any power and perform any function unless it is specifically prohibited from doing so by state law. Home rule districts are not subject to tax rate limitations of the Property Tax Extension Limitation Law (PTELL).

Tax Cap Law / Property Tax Extension Limitation Law (PTELL): A law which allows a taxing district to receive a limited increase in the property tax extension on existing property within that taxing district, plus an additional amount for new construction. It limits increases in property tax revenue by the rate of inflation.

Tax Extension: "Tax Extension" refers to both 1) the amount of property tax to be billed for a taxing district and 2) the process of calculating the tax rate required to obtain the billable amount when applied to all taxable value within the district.

Tax Levy: A taxing district's request for revenue to be obtained from property taxes for a given tax year.

Tax Rate: The tax levy of a district divided by the total equalized assessed value (EAV) of that district, subject to statutory limitations.

Taxable Value: See Equalized Assessed Value (EAV).

2023 Property Tax Frequently Asked Questions

Are my property taxes increasing?

Overall Cook County property taxes are increasing. However, individual tax bills may vary since property taxes are impacted by various factors. How much they change is contingent upon how much your individual property value changed compared to prior year and how much the respective district's tax levies increased that service your property.

Below is a quick reference of single-family property changes in the City of Chicago and the Suburbs.

South & West Suburban Cook County

- **+15.13% increase in property tax for average¹ single-family dwelling**

North & Northwest Suburban Cook County (Reassessed for Tax Year 2022)

- **+2.77% increase in property tax for average single-family dwelling**

City of Chicago

- **+2.7% increase in property tax for average single-family dwelling (North Chicago)**
- **+2.81% increase in property tax for average single-family dwelling (Central Chicago)**
- **+3.11% increase in property tax for average single-family dwelling (South Chicago)**

The comparative analysis above uses average estimated market values of Single-Family Dwellings and Commercial properties to evaluate possible property tax changes by region.

For a more granular examination of changes in median taxes and individual tax bill increases or decreases at local levels by property classification, see the Tax Year 2023 – Property Tax Bill Analysis prepared by the Cook County Treasurer.

How are Tax Bills calculated?

The process of calculating tax bill amounts involves several Cook County offices.

1. The Cook County Assessor sets the "Assessed Value" (AV) of each property. For residential property, this is 10% of the estimated market value as determined by the Assessor.
2. Then, the Cook County Board of Review may review and revise Assessed Values if individual property owners choose to file appeals.
3. The Illinois Department of Revenue sets an Equalization Factor each year to ensure Cook County properties are taxed in a uniform manner with the rest of the state.
4. The Assessor applies the Equalization Factor to all properties in Cook County.
5. Residential property owners who meet certain criteria are then allowed certain property tax exemptions.
6. The total Assessed Value as Equalized, minus any applicable exemptions is the Equalized Assessed Value (EAV) of the property. This is the taxable value of the property.
7. Taxing Districts adopt annual property tax levies and file them with the Cook County Clerk.
8. The Clerk's office then calculates tax rates for all taxing districts in Cook County.
9. The Clerk then sums the tax rates of all taxing districts which service an individual property to calculate a composite tax

¹ Average Estimated Market Value based on Average Assessed Value for single family residences divided by level of assessment.

rate for that property.

10. The Total EAV of the property is then multiplied by the composite tax rate of the property to determine the total tax amount.
11. The Cook County Treasurer’s office will then subtract the amount paid by the property owner in the first installment tax bill to calculate the second installment tax bill amount.

Sample Residential Tax Bill Calculation

Estimated Market Value	200,000	Assessed Value (AV)	20,000	Equalized Assessed Value (EAV)	50,326
x Assessment Level	10%	x Equalization Factor	3.0163	x Composite Tax Rate	9.203%
Assessed Value (AV)	20,000	- Homeowner Exemption	10,000	Total Tax Amount	\$4,631.50
		Equalized Assessed Value (EAV)	50,326	First Installment Payment	\$2,070.00
				Second Installment Tax Bill Due	\$2,561.50

How does the triennial assessment of property impact tax bills?

Changes in property values due to reassessment may impact tax rates. However, the impact on individual property taxes may vary.

Pursuant to state law, the Assessor reassesses property in one of three geographic regions in the County every three years (triennial assessment). For tax year 2023, suburban properties south of North Avenue were reassessed. In 2022, suburban properties south of North Avenue were reassessed, and properties in the City of Chicago are scheduled for reassessment for tax year 2024 (next year).

***Note: When assessed values increase and a levy remains static, the tax rate will decrease. A tax bill is a product of the amount of money sought from taxing districts (the levy), the property’s assessed value, the state equalization factor, and the applicable tax rate.**

How are Tax Rates Calculated?

Determining property tax rates requires input from multiple county offices and all of the taxing districts in Cook County. A taxing district is a government body such as a school district, library or municipality which is authorized to receive funding from property taxes. Each district in Cook County submits a property tax levy to the County Clerk each year. The County Clerk is responsible for calculating tax rates by dividing taxing district levies by the total taxable value (EAV) of all property within each district as determined by the Cook County Assessor and Board of Review. The tax rates of all districts that service a particular property are combined to create the composite tax rate for that property.

In simple terms, a tax rate is a taxing district’s property tax levy divided by taxable value within that district.

Statutory Limits on Tax Increases

The Illinois Property Tax Extension Limitation Law (PTELL), also known as the “Tax Cap Law,” was put in place in the mid-1990s to prevent districts from increasing their property tax revenues by more than the rate of inflation. This year, districts were limited to an increase of 5%, the maximum allowed under PTELL. However, the Tax Cap Law does not apply to home rule districts, debt obligations, special purpose funds and value derived from new property or terminated Tax Increment Financing Districts (TIFs). Additionally, with voter approval, individual taxing districts may increase their property tax collects beyond what is otherwise allowed by the Tax Cap Law.

What is the Equalization Factor?

The state-issued equalization factors for Cook County for 2021 and 2022 respectively were 2.9237 and 3.0163.

Most other counties in Illinois assess all properties at 33 1/3 percent of fair market value. However, the assessment levels in Cook County are set by ordinance and based upon the property classification (i.e., 10% for residential properties, 25% for commercial properties, etc.). To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the equalization factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate.

This year, the state-issued equalization factor increased by 3.17%. Increases in the equalizer will counterbalance decreases in assessed values and will amplify assessed value increases.

How do Property Tax Exemptions affect my taxes?

Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Exemptions lower tax bills by reducing the equalized assessed value of your property. The three most common exemptions are:

- Homeowner Exemption: An EAV reduction of \$10,000
- Senior Citizen Exemption: An EAV reduction of \$8,000
- Senior Freeze Exemption: EAV “frozen” for homeowners with a maximum income of \$65,000

(For more information on the Property Tax Exemptions visit <https://cookcountyassessor.com>.)

Does a high tax rate mean I’ll have a high tax bill?

Not necessarily, although the tax rate matters, there are several factors which impact an individual tax bill.

The tax rate is driven by the overall assessed value in a taxing district, the state-issued equalization factor, and the district’s tax levy request. Individual tax bills are calculated by applying the composite tax rate (the combined rates of all taxing districts servicing that property) to the property’s taxable value (EAV).

Therefore, it is possible that a property with a high tax rate, but a low taxable value may result in a lower bill than a property with a low tax rate but a high taxable value.

Example*:

Market Value	\$100,000	Market Value	\$300,000
2023 Taxable Value	\$20,163	2023 Taxable Value	\$80,489
x Tax Rate	20%	x Tax Rate	7%
Tax Amount	\$4,033	Tax Amount	\$5,634

**Factors to Consider: Residential property is assessed at 10% of Market Value, equalized by a factor of 3.0163 and reduced for a homeowner exemption of \$10,000).*

Where are the highest average tax rates in Cook County?

- Village of Ford Heights has the highest average composite rate of 29.108%
- Village of Phoenix has the 2nd highest average composite rate of 27.478%

- Village of Riverdale has the 3rd highest average composite rate of 25.403%

Note: The Village of Park Forest had the highest composite rate last year (43.312%) but is 4th this year (23.576%).

Where are the lowest average tax rates in Cook County?

- Village of Burr Ridge has the lowest suburban average composite rate of 6.484%
- Village of Hinsdale has the 2nd lowest suburban average composite rate of 6.862%
- Village of Lemont has the 3rd lowest suburban average composite rate of 6.890%

Note: The City of Chicago's general tax rate is 6.995% for tax year 2023.

How does a Chicago tax bill compare to a suburban tax bill for similar properties?

The City of Chicago, with its large commercial and industrial value base, has a relatively low tax rate compared to other municipalities in Cook County. Some North Suburban and West Suburban municipalities have lower tax rates than the City of Chicago, but the average tax rates in the suburbs are still higher than in Chicago. A city or village with a more modest tax base will tend to have a higher tax rate.

*Sample 2023 property tax bill for homes with the same market value (\$250,000) in the three areas:

- City of Chicago: \$4,575
- North & Northwest suburbs: \$5,792
- South & West suburbs: \$7,186

***Because suburban property values and tax rates vary widely, the tax amounts in these regions also vary.**

Using this same example comparing it to DuPage County; According to the DuPage County 2023 Property Tax Rate Book, the average tax rate in DuPage County this year is 7.2970 %. This rate would generate a tax bill of \$5,497 for a \$250,000 market value home in DuPage County using the assessment, equalization, and exemption methodology applicable in DuPage County.

Are my taxes as low as they could be?

As referenced above, Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Taxpayers should review their tax bill and determine whether the appropriate exemptions were applied. If you have questions about property tax exemptions, please contact the Cook County Assessor's Office at cookcountyassessor.com to learn more.

Though the time for filing 2023 assessment appeals has passed, you can find out information about appealing your property's assessment for 2024 at the Cook County Assessor's Office and the Cook County Board of Review at cookcountyboardofreview.com.

Distribution of Tax Dollars to Taxing Districts in the City of Chicago

Where do taxes go in the City of Chicago?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an illustration of how tax dollars were distributed to taxing districts in the City of Chicago last year (Tax Year 2022) compared to this year (Tax Year 2023) for a typical* Chicago taxpayer. A majority of the typical tax bill goes to the Chicago Board of Education.

**Typical Chicago taxpayers are those who do not pay a portion of their tax bills to special districts which provide services such as mosquito abatement or home equity assurance of other special purposes.*

Distribution of Tax Dollars to Taxing Districts in Suburban Cook County

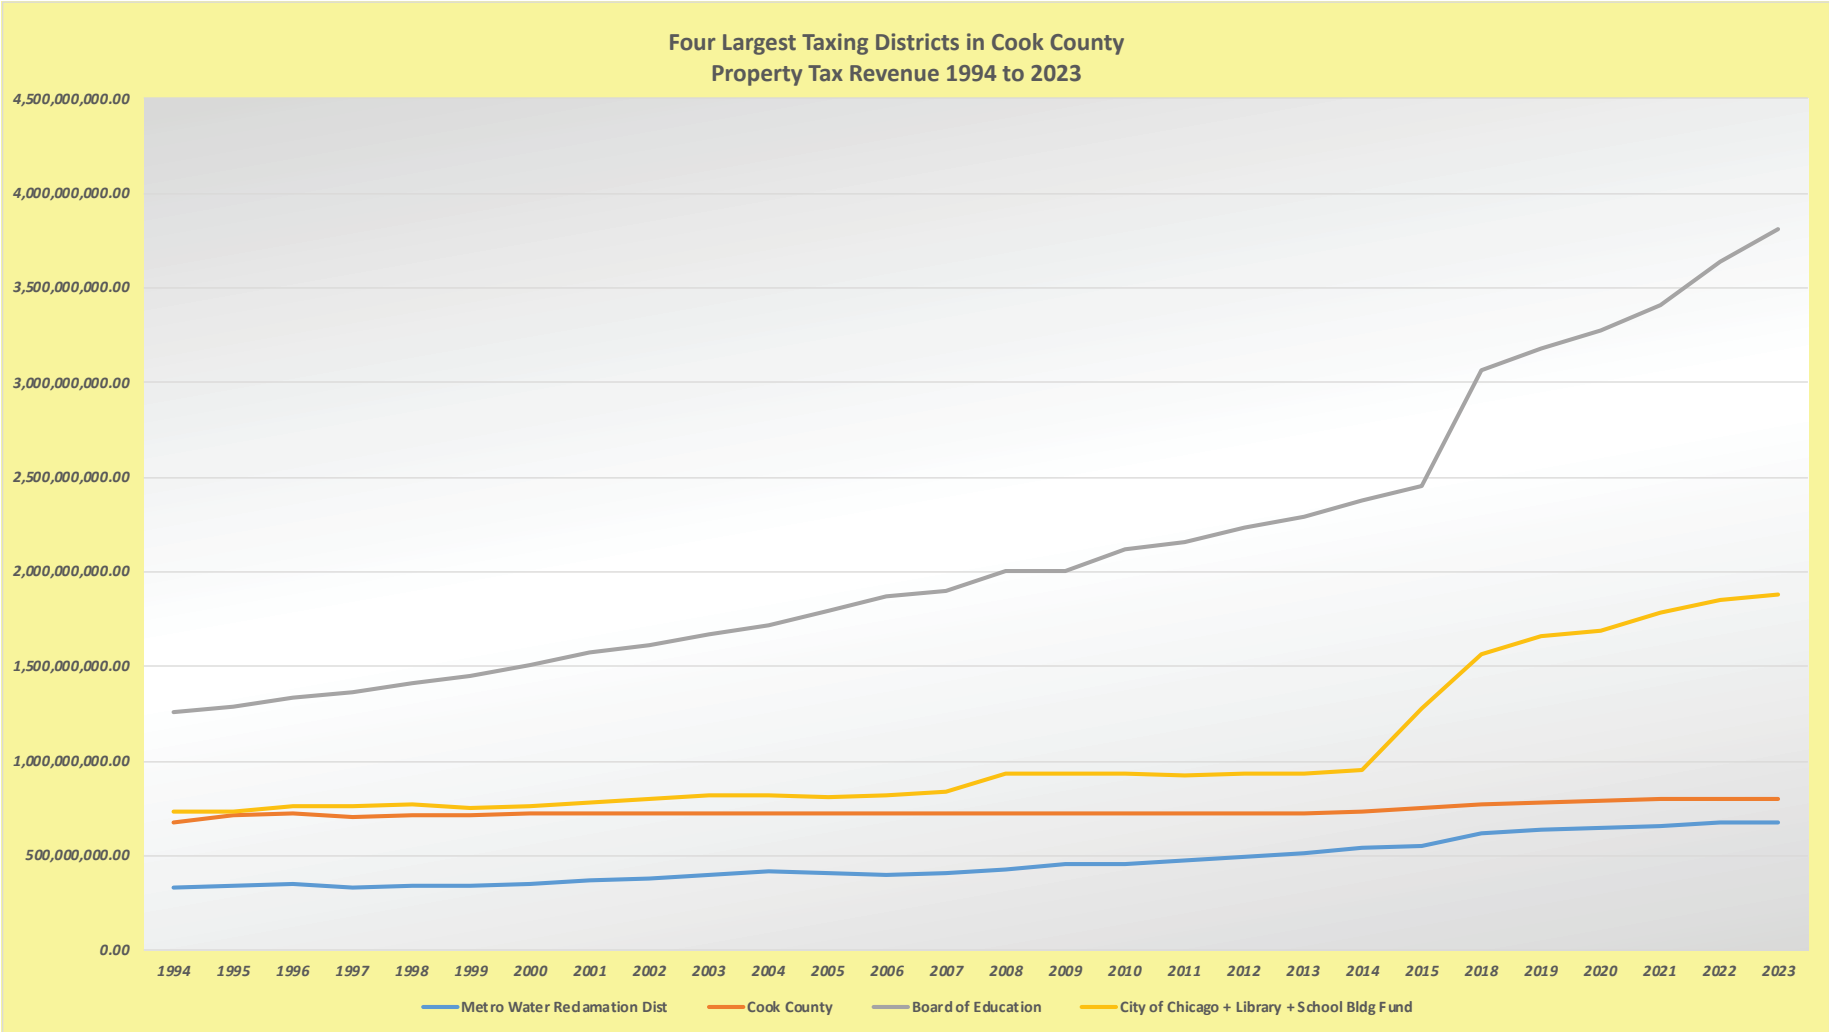

Where do taxes go in the Suburbs?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an example of how tax dollars may be distributed to taxing districts in one Northern Suburb (the Village of Niles) compared to one Southern Suburb (the Village of Tinley Park) for Tax Year 2023. School districts receive the largest portion of suburban tax bills.

The Cook County Taxing Districts Which Collect the Most in Property Taxes

Of the \$18.3 billion of property tax billed in Cook County this year, over \$7 billion will be collected by just four districts as seen in the chart below.

How Is My Property Tax Bill Calculated?

1. The Tax Rate for each taxing district is calculated:

$$\frac{\text{Taxing District Tax Levy}}{\text{Taxable Value in Taxing District}} = \text{District Tax Rate}$$

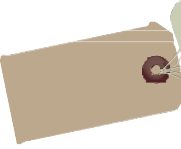

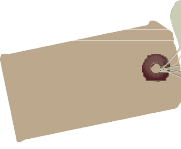

2. The Composite Tax Rate of all taxing districts in your area is calculated:

$$\begin{aligned} & \text{County Rate} \\ & + \text{Township Rate} \\ & + \text{Municipality Rate} \\ & + \text{Grade School Rate} \\ & + \text{High School Rate} \\ & + \text{Community College Rate} \\ & + \text{Park District Rate} \\ & + \text{Library Rate} \\ & + \text{Other District Rates} \\ & \hline & = \text{Composite Tax Rate} \end{aligned}$$

3. Your Individual Tax Bill is calculated:

$$\text{Individual Taxable Value} \times \text{Composite Tax Rate} = \text{Tax Bill Amount}$$

The property assessment process is the basis for generating property tax revenues that pay for a portion of schools, city and county services, roads, fire protection, public safety, water and sanitation, and other local services.
