Gubernatorial Primary Election

# Letter from Karen A. Yarbrough

Cook County Clerk

Dear Friends:

The votes are counted, the results are certified, and the June 28, 2022 Gubernatorial Primary Election is officially a wrap.

This year's primary brought unique challenges for election authorities and voters alike with the first-ever Illinois Primary to be held in the month of June. Redistricting at the state level following the 2020 census forced the primary elections to be pushed back from their usual dates in March and the first summer primary election in Illinois had mixed results for voter turnout.

With a 20 percent turnout, the election had the second lowest voter turnout for a Gubernatorial Primary in more than 30 years. However, the turnout percentage does not exclusively reflect a lack of voter participation, as there were more registered voters in suburban Cook County than ever for the June Primary.

Pre-Election voting in all its forms continues to trend upward with an increasing number of voters choosing to vote early or by mail. Early Voting and Mail Voting accounted for 40.9 percent of all ballots cast, a new Gubernatorial Primary record. In addition, a new Illinois law is now in effect that enables voters to register for permanent vote by mail status.

The Clerk's Office was very pleased to introduce a new state-of-the-art E-pollbook voting system that uses a secure Apple iPad application to facilitate voter check-in and eliminate paper polling books.

The stand-alone devices are equipped to pull up the individual voter's registration information, verify their signature and make sure that they are issued the proper ballot. By all accounts, the rollout was a tremendous success that was well received by both voters and our Election Judges.

This 2022 Gubernatorial Primary Post-Election Report has been assembled to provide a comprehensive look at voting totals, trends, and statistics throughout suburban Cook County. As always, this report, full election results, and printable maps are available at [cookcountyclerk.com/elections](http://cookcountyclerk.com/elections).

Yours in Democracy,

# Second Lowest Gubernatorial Primary Turnout In Over 30 Years

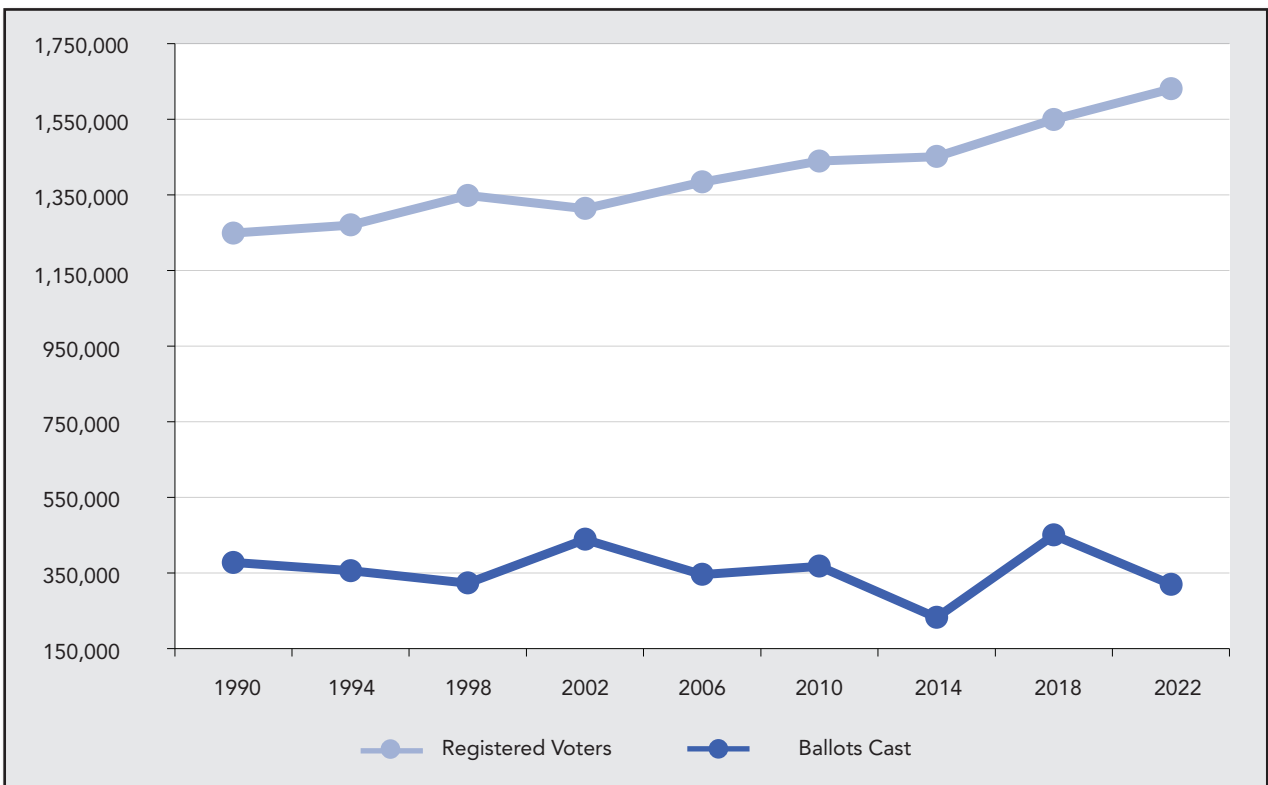

With 20 percent voter turnout, the June 28 Election had the lowest turnout for a Gubernatorial Primary since 2014 (16 percent). Beyond that, every primary for Governor has exceeded this year’s turnout going back to at least 1990 – making this year’s contest the second-lowest turnout for a Gubernatorial Primary in more than 30 years.

The turnout percentage does not exclusively reflect a lack of voter participation, as there were more registered voters in suburban Cook County than ever for the June Primary. Additionally, voters chose to participate prior to Election Day with Pre-Election Day Voting accounting for 41 percent of ballots cast.

# Election Day Turnout

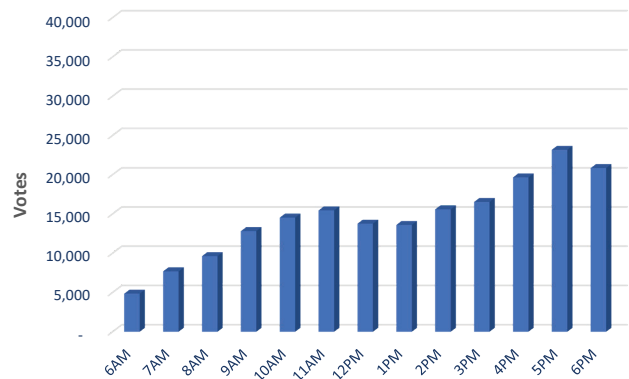

## Election Day Voter Turnout by Hour

An analysis of the time of the day that voters went to the polls on Election Day shows that turnout started slowly but built throughout the morning before leveling off in the early afternoon. The pace picked up mid-afternoon, leading to the busiest three hours of the day, between 4 – 7 p.m. The busiest one-hour block on Election Day was between 5 – 6 p.m., when more than 22,000 voters cast their ballots at the polls. In comparison to the March 20, 2018, Gubernatorial Primary Election, the voting trends are consistent – albeit at a lower volume: voters tend to head to the polls later in the evening with the busiest hour being from 5 – 6 p.m.
