2018 Cook County Tax Rates Released

Clerk Yarbrough: 2018 Reassessments shift tax burden to North, Central areas of Chicago

The 2018 property tax rates, calculated by the Cook County Clerk for more than 1,400 taxing agencies, were released today. This is the final step in the process before property tax bills are mailed. Tax bill payments are due August 1, 2019.

"Calculating and publishing these tax rates is a massive effort towards transparency and fairness in taxation, and I want to commend the staff of the Clerk's Office and the municipal offices for working together and getting this part of the process done in an extremely efficient manner," said Karen A. Yarbrough, County Clerk.

Once again, the total property taxes billed for taxing districts in Cook County has broken previous records from \$14.4 billion last year to exceeding \$14.9 billion this year. As a result, it is expected that individual taxing districts may receive increased property tax revenues due to this 3.7% increase over last year.

As property values in the North and Central areas of the City of Chicago increase, the property tax burden is shifting away from the South Side of the City.

Changes to individual tax bills will vary, but in general, single family homes in the northern and central parts of the City of Chicago may see increased tax bills. Property taxes for single family homes in the suburbs and the southern part of the City remain mostly flat.

Property Tax Changes for Average Single-Family Dwellings by Region

| | 2017 Estimated Average Market Value ¹ | 2018 Estimated Average Market Value ¹ | % Change | 2017 Average Tax Rate ² | 2018 Average Tax Rate ² | % Change | 2017 Average Tax Bill ³ | 2018 Average Tax Bill ³ | \$ Change | % Change |

Property Tax Cycle in Cook County

Cook County is divided into three regions for assessment purposes and each of these regions is reassessed every three years (“triennials”). For tax year 2018, the City of Chicago was reassessed. The southern and western suburbs were reassessed for tax year 2017 and currently the northern and northwestern suburbs are being reassessed for tax year 2019.

Cook County Reassessment Areas (Triennials)

North & Northwest Suburbs

Currently being reassessed for Tax Year 2019

City of Chicago

Reassessed for Tax Year 2018

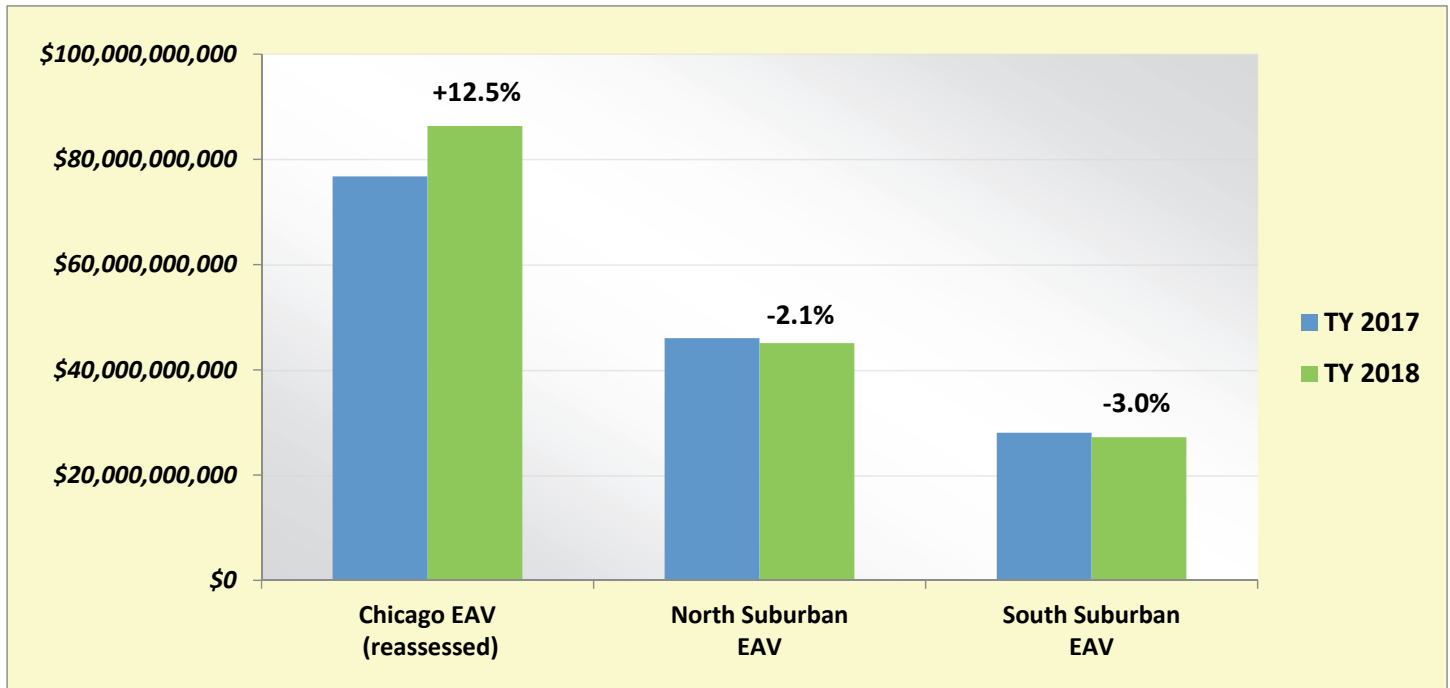

South & West Suburbs

*Reassessed for Tax Year 2017
Will be reassessed for Tax Year 2020*

Property assessments in Cook County are set by the Cook County Assessor and finalized by the Cook County Board of Review. These assessments are equalized using the Illinois Department of Revenue’s (IDOR) state equalization factor¹.

The overall taxable value or equalized assessed value (EAV) in Cook County increased by 5.1% this year. See the chart below for changes in equalized assessed values across Cook County. The largest changes this year are in the City of Chicago.

Change in Equalized Assessed Value (EAV) in Cook County by Region

How Taxes and Tax Rates Are Calculated

Individual tax bills are calculated as follows:

Individual Tax Bill Calculation

| | | | | | |
|------------------------|---------|--------------------------|--------|--------------------------|------------|
| Estimated Market Value | 200,000 | Assessed Value (AV) | 20,000 | Equalized Assessed Value | 48,218 |
| x Assessment Level | 10% | x Equalization Factor | 2.9109 | x Tax Rate | 6.786% |
| <hr/> | | <hr/> | | <hr/> | |
| Assessed Value (AV) | 20,000 | | 58,218 | Tax Amount | \$3,272.07 |
| | | - Homeowner Exemption | 10,000 | | |
| | | <hr/> | | | |
| | | Equalized Assessed Value | 48,218 | | |

There are a number of factors which impact whether or not individual property tax bills will increase or decrease. Among these factors, the three most impactful are:

- The amount of property tax requested by the taxing districts (property tax levies)

¹ To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate.

- The change in the value of a property relative to other properties within the same districts (property assessment)
- The change in the state-issued equalization factor compared to the prior year

A taxing district is a government body such as a school district, library, or municipality which is authorized to receive funding from property taxes. Each district in Cook County submits a property tax levy to the County Clerk each year. Tax rates are calculated by dividing the funds each taxing district requests in their levy by the total taxable value (EAV) within each district. The tax rates of all districts that service a particular property are compiled to create the composite tax rate for that property.

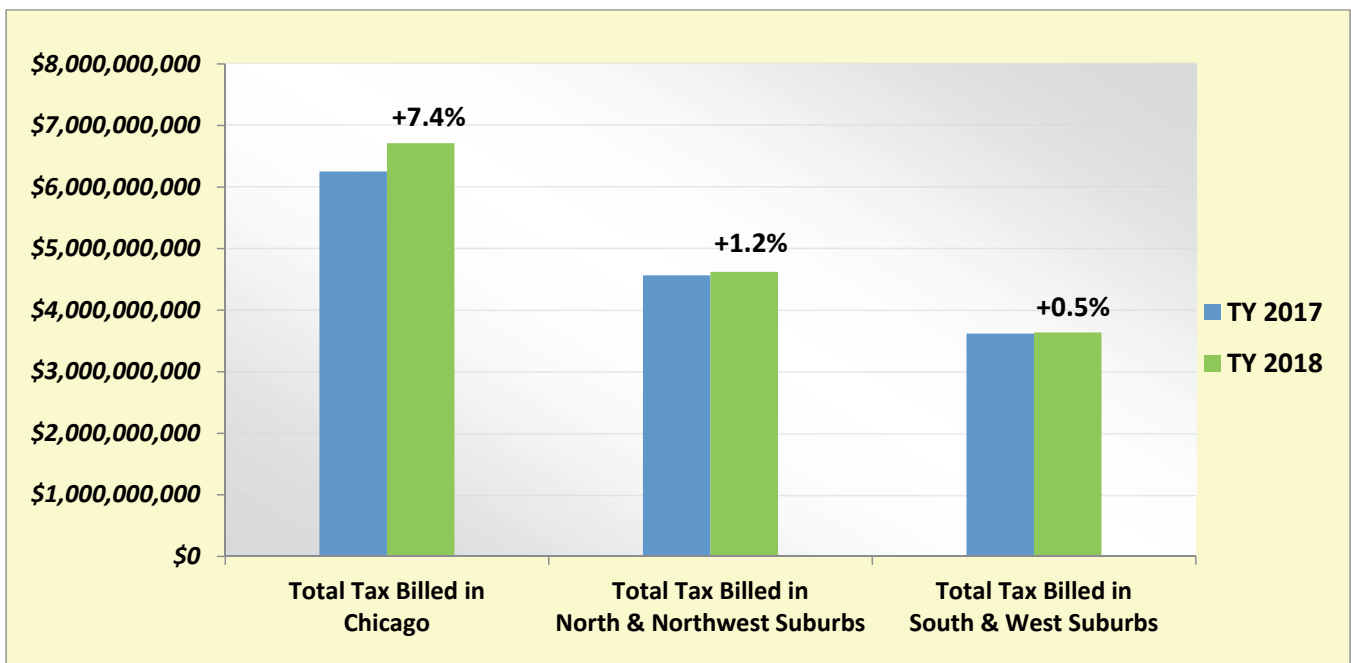

Statutory Limits on Tax Increases

The Illinois Property Tax Extension Limitation Law (PTELL), also known as the “Tax Cap Law,” was put in place in the mid-1990s to prevent districts from increasing their property tax revenues by more than the rate of inflation. This year, districts were limited to an increase of 2.1%. (the 2018 Consumer Price Index). However, PTELL does not apply to home rule districts, debt obligations, special purpose funds, and value derived from new property or from terminated Tax Increment Financing Districts (TIFs).

Taxes billed in Cook County increased 3.7% for tax year 2018 compared to 2017. See the chart below for a breakdown of tax increases by Region.

Changes in Total 2018 Taxes Billed in Cook County by Region

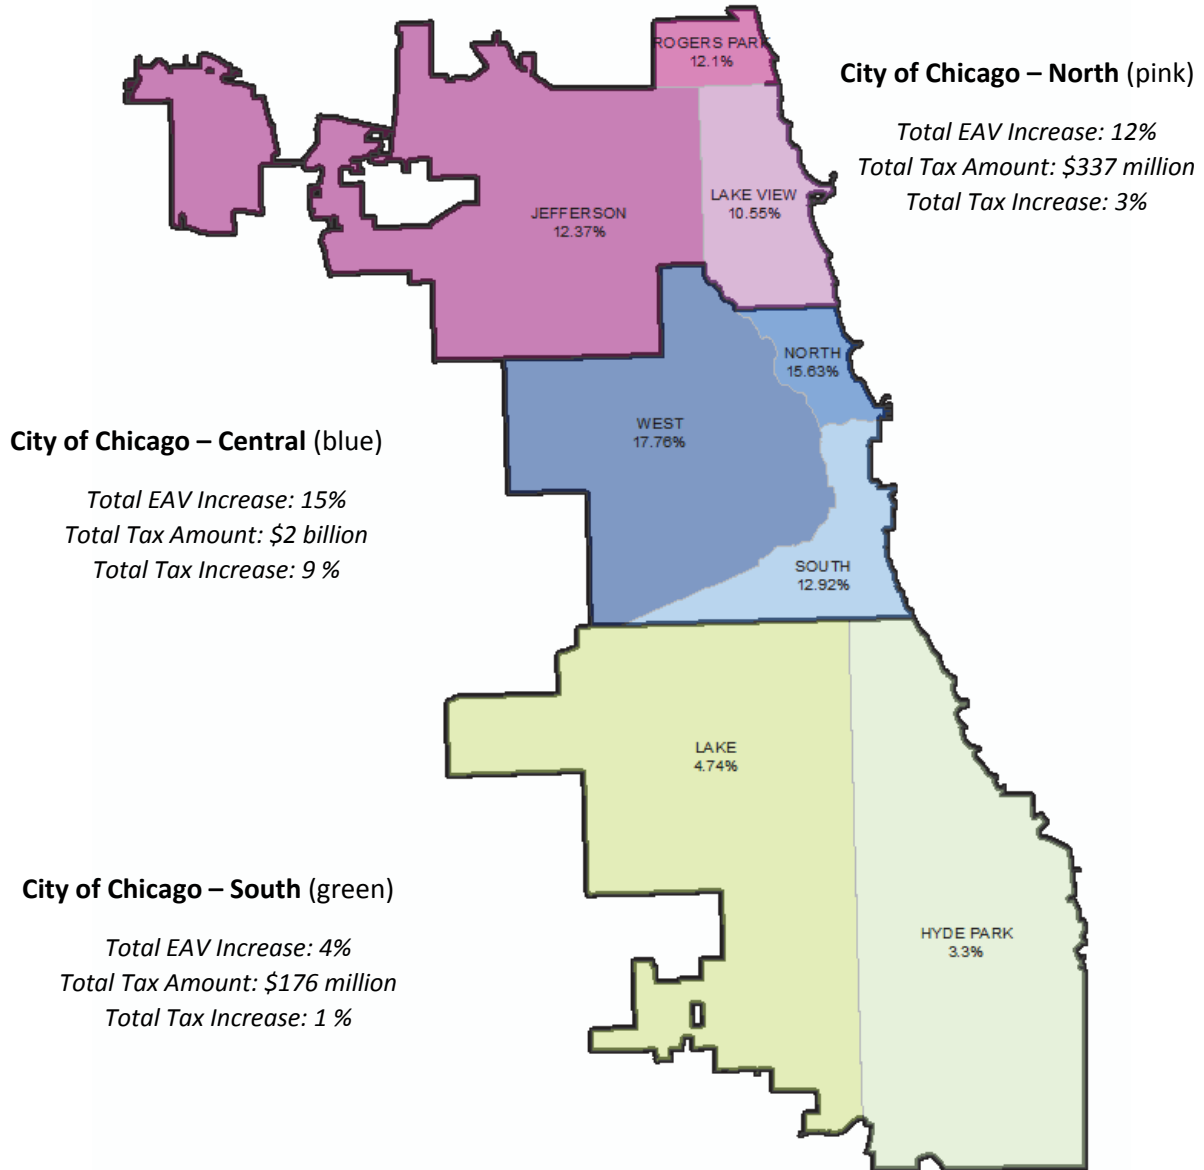

Analysis of the City of Chicago

The total taxable value of property in the City of Chicago increased 12.5% for tax year 2018. Individual increases or decreases varied across City. Some areas experienced larger increases than others.

The City is divided into eight assessment townships (see map below). The highest increase in equalized assessed value occurred in West Township, in the central portion of the City, at 17.8%. Hyde Park Township, in the southern portion of the City, had the smallest increase at 3.3%. These changes contribute to a shift of the tax burden away from the southern portion of the City towards the central and northern portions of the City.

Equalized Assessed Value Changes by Township in the City of Chicago for Tax Year 2018

The reassessment of the City of Chicago resulted in an increase in assessed value (AV) of approximately 16.4%. This increase was offset by a 1.8% decrease in the state-issued equalization factor.

All property owners in the City of Chicago have the same tax rate with the exception of properties in special districts such as Special Service Areas, Home Equity Assurance Districts, Expanded Mental Health Services Districts, and the South Cook Mosquito Abatement District. Properties in these special districts pay an additional amount of tax for these

services. Because all properties in the City have the same tax rate, more or less, variability in Chicago tax bills is usually due to differences in taxable value (EAV). The general tax rate for the City of Chicago decreased 6.6% this year.

In general, City of Chicago property owners with taxable value (EAV) increases of greater than 6.6% may see their tax bills go up, while property owners with taxable value decreases, or increases less than 6.6%, may see their tax bills go down.

Analysis of Suburban Cook County

Whereas tax rates in the City of Chicago tend to be uniform, tax rates in suburban Cook County see much more variability. This is due to the larger number of taxing districts in the suburbs.

The Southern and Western suburbs tend to have lower property values and thus higher tax rates, while the Northern and Northwestern suburbs tend to have higher property values and thus lower tax rates. Both regions have higher rates than the City of Chicago which has the largest value base of the three Cook County assessment areas.

In addition to having different tax rates in different suburbs, taxpayers within the same suburb may pay different rates based on the specific taxing districts which provide their services. For example, in the Village of Lynwood some taxpayers in School District 172 have a composite tax rate this year of 11.164% while other taxpayers in School District 169 have a composite tax rate of 25.214%. These properties are in the same municipality but have different tax rates because of the different taxing districts that serve them. As such, comparable properties could therefore have very different tax bills.

Similarly, there are six different elementary school districts in the Village of Skokie and taxpayers have rates that range between 8.305% and 12.443% largely dependent upon which school district they live within. Each second installment tax bill will display the list of districts that contribute to a property's final tax amount.

Summation

- Taxable values in Cook County as a whole have increased 5.1%.
- Assessment increases across the City of Chicago have contributed to a 6.6% reduction in the City's tax rate and a shift of the property tax burden from the South Side of the City to the northern and central areas of the City.
- This report has presented the general trends occurring in Cook County. Each tax bill will vary depending on specific circumstances including taxing district levies, individual assessments and other factors.
- The 2018 second installment property tax bill payments are due August 1, 2019.

###

Definitions of Property Tax Terms

Assessed Value (AV): The fair market value, determined by the county assessor, multiplied by the assessment level for a class of property (ie. residential, commercial, industrial, etc).

Composite Tax Rate: The sum of the tax rates of all the taxing districts (municipality, school district, park district, etc.) which service an individual property.

Equalization Factor: A factor, established by the Illinois Department of Revenue, used to bring the aggregate value of assessments within Cook County to 33 1/3% of the estimated actual fair market value of all real property in Cook County. This factor, also called the "multiplier" or "equalizer," is calculated by the state each year.

Equalized Assessed Value (EAV): The assessed valuation of each property multiplied by the equalization factor, less applicable exemptions. This is also known as the Taxable Value.

Exemptions: For properties and taxpayers who meet certain criteria, all or a portion of qualifying property values may be excepted from taxation under Illinois law. For residential property, a portion of taxable value will be excepted, such as with the homeowner or senior exemptions, if the taxpayer meets statutory requirements.

Home Rule: Home rule units of government are those counties and municipalities which have met statutory requirements to exercise any power and perform any function unless it is specifically prohibited from doing so by state law. Home rule districts are not subject to tax rate limitations of the Property Tax Extension Limitation Law (PTELL).

Tax Cap Law / Property Tax Extension Limitation Law (PTELL): A law which allows a taxing district to receive a limited increase in the property tax extension on existing property within that taxing district, plus an additional amount for new construction. It limits increases in property tax revenue by the rate of inflation.

Tax Extension: "Tax Extension" refers to both 1) the amount of property tax to be billed for a taxing district and 2) the process of calculating the tax rate required to obtain the billable amount when applied to all taxable value within the district.

Tax Levy: A taxing district's request for revenue to be obtained from property taxes for a given tax year.

Tax Rate: The tax levy of a district divided by the total equalized assessed value (EAV) of that district, subject to statutory limitations.

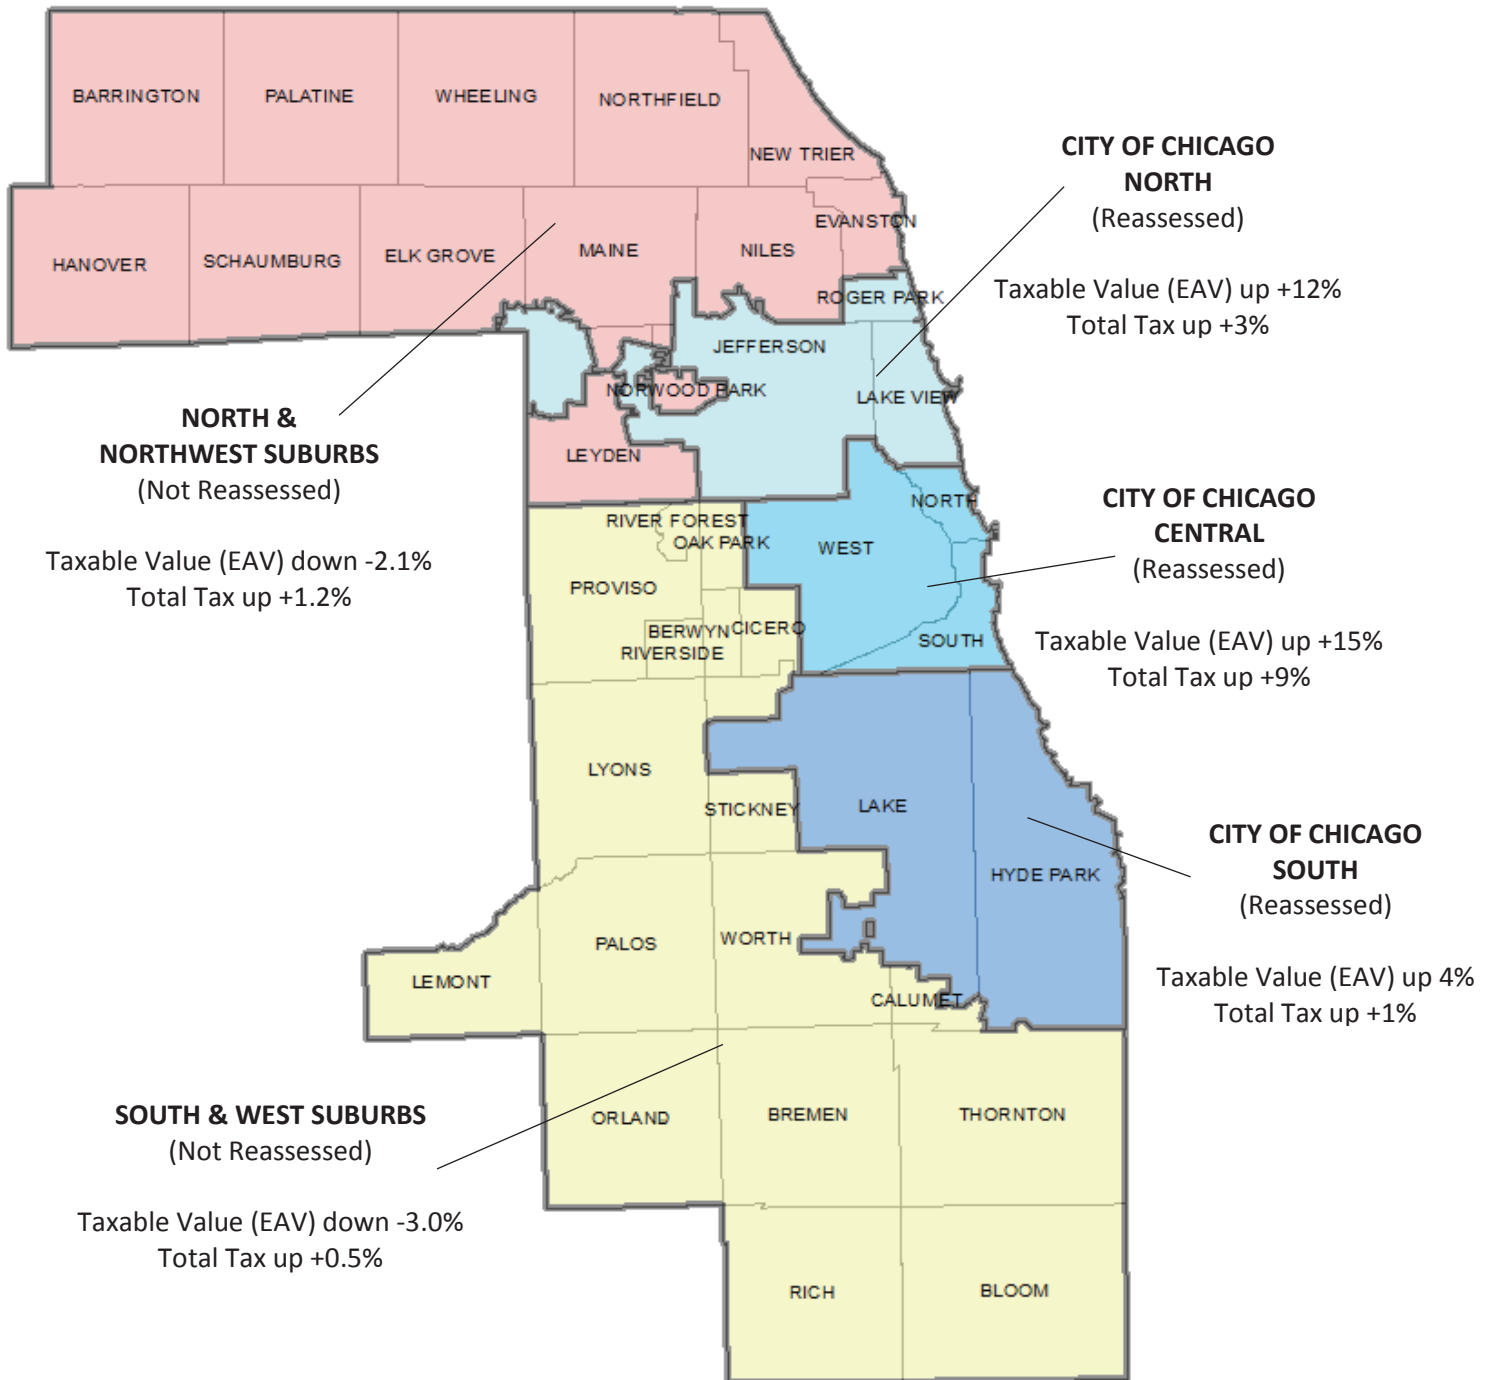

Taxable Value: See Equalized Assessed Value (EAV).

Understanding the Tax Impact in Your Region

Property tax bills are primarily affected by taxing district levies, equalized assessed values (EAVs), and the state-issued equalization factor. Properties located in different regions of the County saw different tax impacts this year.

Property values in the City of Chicago were reexamined as part of the triennial assessment (every three years). While the total taxable value, or equalized assessed value, in Chicago increased 12.5%, some areas of the City experienced higher increases than others. Properties with higher reassessments for tax year 2018 are likely to have higher tax bills.

Taxable value (EAV) in Suburban Cook County, which was not reassessed this year, is slightly lower this year, which is in line with a reduction in the state-issued equalization factor (see FAQs).

The impact in Chicago:

Taxable value in the City of Chicago is up 12.5% overall. This is mostly tied to increases from the reassessment in the City.

Tax rates have an inverse relationship with taxing district equalized assessed values (EAVs). The increase of taxable value within the City of Chicago contributed to a 6.6% decrease in the tax rate in the City for tax year 2018.

Because the tax rate for Chicago taxpayers is fairly uniform, with a rate of 6.786% applied to most properties, differences in tax bill amounts are primarily due to individual taxable values (EAVs). In general, the northern and central parts of the City experienced higher EAV increases than the south side. While the average single family residential property tax bill in the northern and central parts of Chicago increased approximately 11%, single family homes on the south side of the City are more likely to see their tax bills remain flat or increase slightly.

The impact in the Suburbs:

Most residential properties in the Suburbs saw very little change in assessed value from last year to this year. Taxes are generally flat for homeowners and up slightly for commercial properties. The total tax amount billed increased 1.2% in the north and northwest suburbs and 0.5% in the south and west suburbs.

Note: Suburban tax rates and amounts vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will see larger or smaller tax increases depending on the taxing districts associated with those areas.

2018 Property Tax Frequently Asked Questions

Are my property taxes increasing?

Individual tax bills will vary, but property taxes are generally going up for homeowners. How much they change primarily depends on which region of the County you live in. (See “Understanding the Tax Impact in Your Region”).

City of Chicago (Reassessed single family properties)

- **11.5% average increase in property tax in the Northern area of Chicago**
- **11.3% average increase in property tax in the Central area of Chicago**
- **1.0% average increase in property tax in the Southern area of Chicago**

Suburban Cook County (non-reassessed single family properties)

- **0.2% average increase in property tax in the North & Northwest Suburbs**
- **0.04% average increase in property tax in the South & West Suburbs**

What is the Equalization Factor?

Whereas other counties in Illinois assess all properties at 33 1/3 percent of fair market value, assessment levels in Cook County are set by ordinance and based upon the property classification (i.e. 10% for residential properties, 25% for commercial properties, etc.) To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the equalization factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate. This year the state-issued equalization factor decreased 1.75%, which decreases the equalized assessed value of property to which tax rates apply.

How does the triennial assessment of property impact tax bills in Cook County?

Pursuant to state law, the Assessor reassesses property in one of three geographic regions in the County every three years (triennial assessment). In 2018, properties located in City of Chicago were reassessed. In 2017, properties in the south and west suburbs were subject to reassessment, while property in the north and northwest suburbs are currently being reassessed for tax year 2019.

Changes in property values due to reassessment may impact tax rates.

**Note: When assessed values increase and a levy remains static, the tax rate will decrease. A tax bill is a product of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.*

How do Property Tax Exemptions affect my taxes?

Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Exemptions lower tax bills by reducing the equalized assessed value of your property. The three most common exemptions are:

- Homeowner Exemption: An EAV reduction of 10,000
- Senior Citizen Exemption - An EAV reduction of 8,000
- Senior Freeze Exemption – EAV “frozen” for homeowners with a maximum income of \$65,000

Where are the highest average tax rates in Cook County?

- Village of Park Forest has the highest rate at 34.547%
- Village of Ford Heights is 2nd highest at 30.757%
- Village of Riverdale is 3rd highest at 30.726%

Where are the lowest average tax rates in Cook County?

- Village of Hinsdale is lowest at 6.906%
- Village of Burr Ridge is 2nd lowest at 7.182%
- Village of Barrington is 3rd lowest at 7.544%

Note: The City of Chicago’s general tax rate is 6.786% for tax year 2018.

Does a high tax rate mean I’ll have a high tax bill?

Not necessarily, although the tax rate matters, there are several factors which impact an individual tax bill.

The tax rate is driven by the overall assessed value in a taxing district, the state-issued equalization factor, and the district’s tax levy request. Individual tax bills are calculated by applying the composite tax rate (the combined rates of all taxing districts servicing that property) to the property’s taxable value (EAV).

Therefore, it is possible that a property with a high tax rate but a low taxable value may result in a lower bill than a property with a low tax rate and but a high taxable value.

For example*:

| | | | |
|----------------------|------------------|----------------------|------------------|
| Market Value: | \$100,000 | Market Value: | \$400,000 |
| 2018 EAV: | \$29,109 | 2018 EAV: | \$106,436 |
| x Tax Rate | 20% | x Tax Rate | 7% |
| Tax Amount: | \$5,822 | Tax Amount: | \$7,451 |

**Residential property is assessed at 10% of Market Value, equalized by a factor of 2.9109 and reduced for a homeowner exemption of 10,000).*

How does a Chicago tax bill compare to a suburban tax bill for similar properties?

The City of Chicago, with its large commercial and industrial value base, has a relatively low tax rate compared to other municipalities in Cook County. Some North Suburban municipalities have lower tax rates than the City of Chicago, but the average tax rate in the North Suburbs is still higher. The South Suburbs have a modest tax base and that results in higher tax rates.

*On average, the 2018 property tax bill for a home with a market value of \$200,000 would be:

- City of Chicago: \$3,272
- North & Northwest suburbs: \$4,741
- South & West suburbs: \$6,268

**Because suburban property values and tax rates vary widely, the tax amounts in these regions also vary.*

According to the DuPage County 2018 Property Tax Rate Book, the average tax rate in DuPage County this year is 7.5927%. This rate would generate a tax bill of \$4,556 for a \$200,000 market value home in DuPage County using the assessment, equalization, and exemption methodology applicable in DuPage County.

Are my taxes as low as they could be?

As referenced above, Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Taxpayers should review their tax bill and determine whether the appropriate exemptions were applied. If you have questions about property tax exemptions, please contact the Cook County Assessor's Office at cookcountyassessor.com to learn more.

Though the time for filing 2018 assessment appeals has passed, you can find out information about appealing your property's assessment for 2019 at the Cook County Assessor's Office and the Cook County Board of Review at cookcountyboardofreview.com.

How do I pay my 2018 property tax bill?

Tax year 2018 property tax bills are payable to the Cook County Treasurer. For questions about paying 2018 property taxes, please visit <https://www.cookcountytreasurer.com>.

Distribution of Tax Dollars to Taxing Districts in the City of Chicago

Where do taxes go in the City of Chicago?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an illustration of how tax dollars were distributed to taxing districts in the City of Chicago last year (Tax Year 2017) compared to this year (Tax Year 2018) for a typical* Chicago taxpayer. A majority of the typical tax bill goes to the Chicago Board of Education.

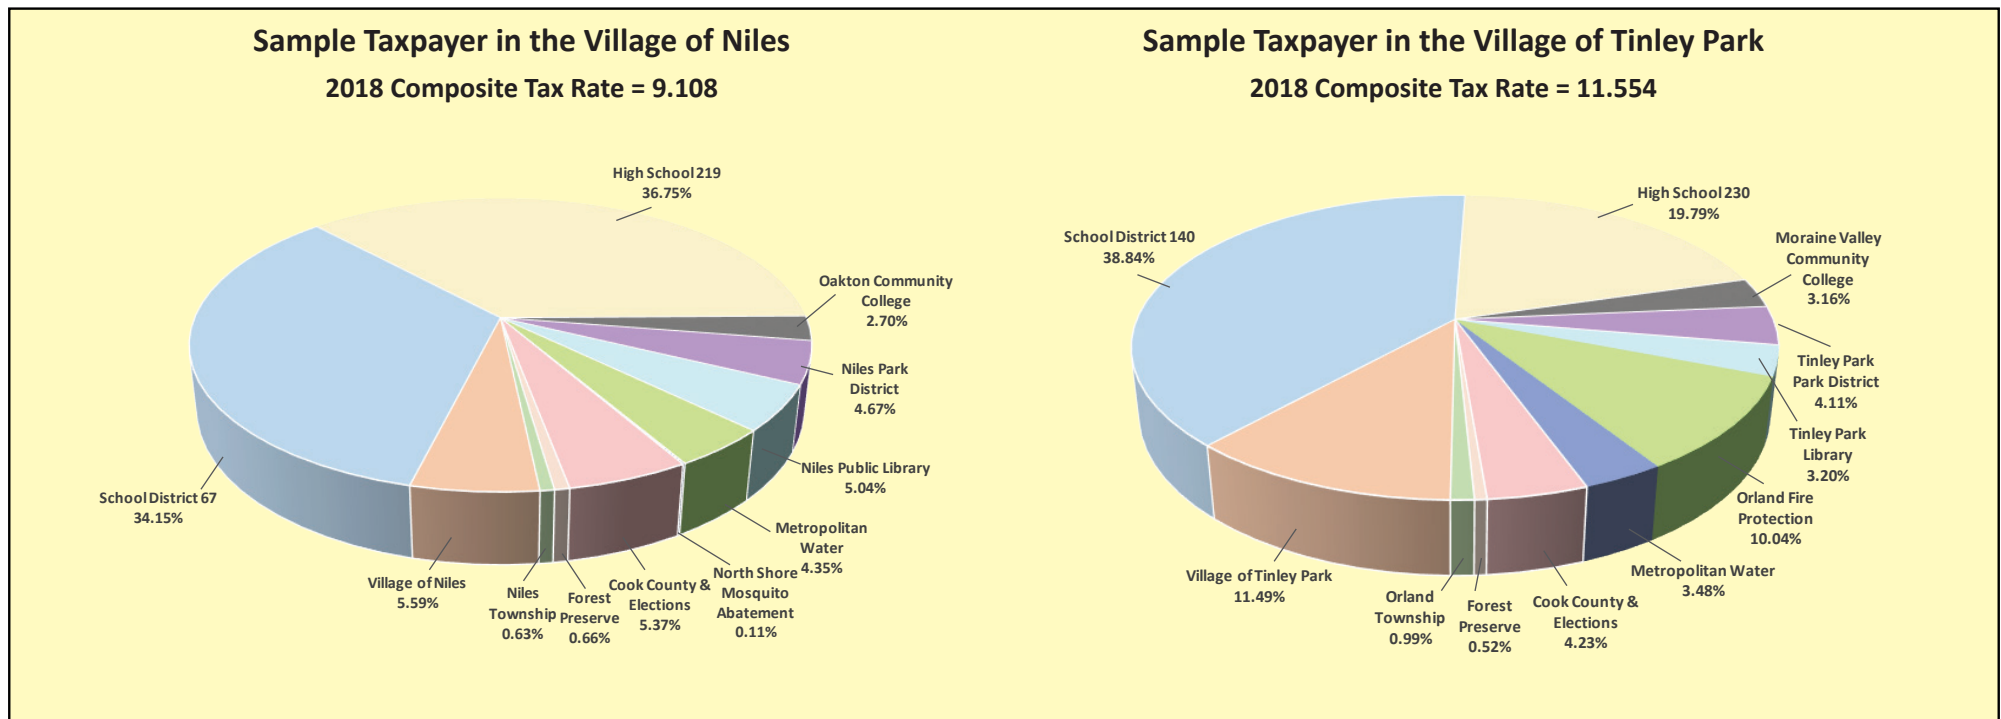

**Typical Chicago taxpayers are those who do not pay a portion of their tax bills to special districts which provide services such as mosquito abatement or home equity assurance of other special purposes.*

Distribution of Tax Dollars to Taxing Districts in Suburban Cook County

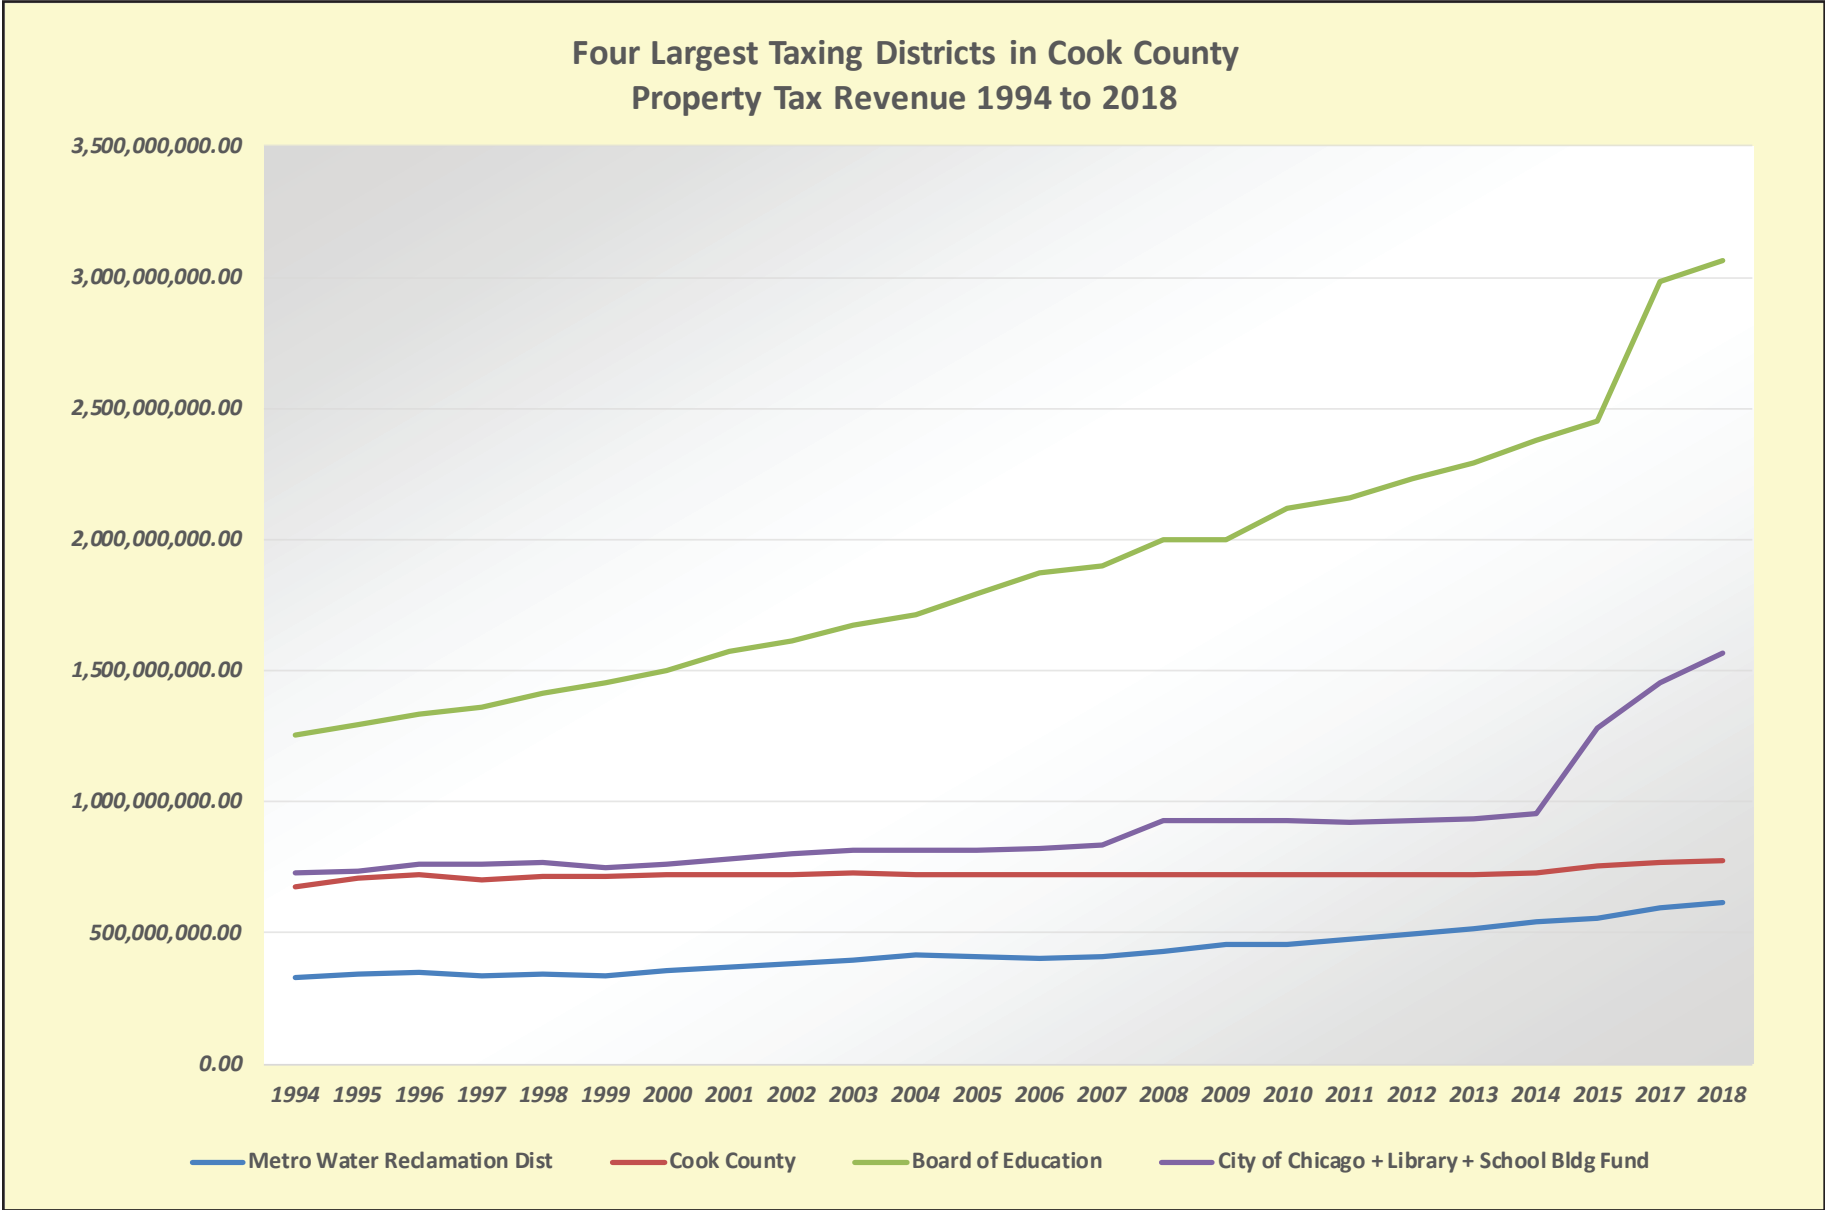

Where do taxes go in the Suburbs?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an example of how tax dollars may be distributed to taxing districts in one Northern Suburb (the Village of Niles) compared to one Southern Suburb (the Village of Tinley Park) for Tax Year 2018. School districts receive the largest portion of suburban tax bills.

The Cook County Taxing Districts Which Collect the Most in Property Taxes

Of the \$14.9 billion of property tax billed in Cook County this year, over \$6 billion will be collected by just four districts as seen in the chart below.

How Is My Property Tax Bill Calculated?

1. The Tax Rate for each taxing district is calculated:

$$\frac{\text{Taxing District Tax Levy}}{\text{Taxable Value in Taxing District}} = \text{District Tax Rate}$$

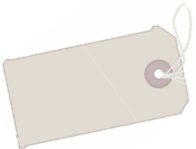

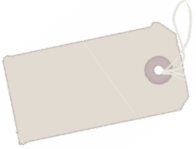

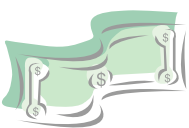

2. The Composite Tax Rate of all taxing districts in your area is calculated:

$$\begin{aligned} & \text{County Rate} \\ & + \text{Township Rate} \\ & + \text{Municipality Rate} \\ & + \text{Grade School Rate} \\ & + \text{High School Rate} \\ & + \text{Community College Rate} \\ & + \text{Park District Rate} \\ & + \text{Library Rate} \\ & + \text{Other District Rates} \\ & \hline & = \text{Composite Tax Rate} \end{aligned}$$

3. Your Individual Tax Bill is calculated:

$$\text{Individual Taxable Value} \times \text{Composite Tax Rate} = \text{Tax Bill Amount}$$

The property assessment process is the basis for generating property tax revenues that pay for a portion of schools, city and county services, roads, fire protection, public safety, water and sanitation, and other local services.

SAMPLE REAL ESTATE TAX BILL CALCULATION SUBURBAN COOK COUNTY - NON-REASSESSED

The typical homeowner exemption for residential property is an equalized assessed value reduction of \$10,000 (other exemptions may apply). These sample calculations are based on average assessment increases for single family dwellings in the three areas of the City of Chicago for Tax Year 2018. Individual tax bills will vary based on assessed values and individual tax rates.
