Cook County TIFs to bring in nearly \$1.2 Billion **Chicago TIF revenue up more than 27%**

Tax Increment Financing (TIF) districts in Cook County will bring in nearly \$1.2 billion for tax year 2018, according to a report Wednesday from Cook County Clerk Karen A. Yarbrough's office. This is a 17.4% increase over last year. TIF revenue has increased 27.4% in the City of Chicago and decreased 1.6% in the suburbs compared to last year.

The Clerk's full [2018 TIF Revenue Report](#) shows Chicago TIFs will generate approximately \$841 million in tax revenue from its 138 TIFs in the 2018 tax year. This is a \$181 million increase over last year and includes nearly \$116 million for the City's "Transit TIF" located on the north side of the City¹. Last year, Chicago TIF revenue saw an increase of \$99 million. The 303 suburban TIFs are expected to bring in \$339 million, a \$5 million decrease from last year.

"As a taxpayer and property owner, as well as an elected official who has to answer to the people of Cook County, I want to know where my tax dollars are going, if I live in a TIF District, and how this affects the distribution of tax revenue," Clerk Yarbrough said. "I am committed to ensuring that all Cook County's taxpayers, be they Chicago or suburban property owners, have the information and tools available to see where TIFs are and how much revenue they generate."

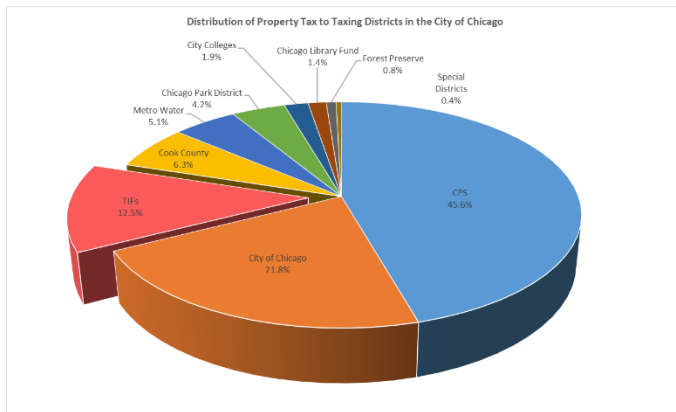

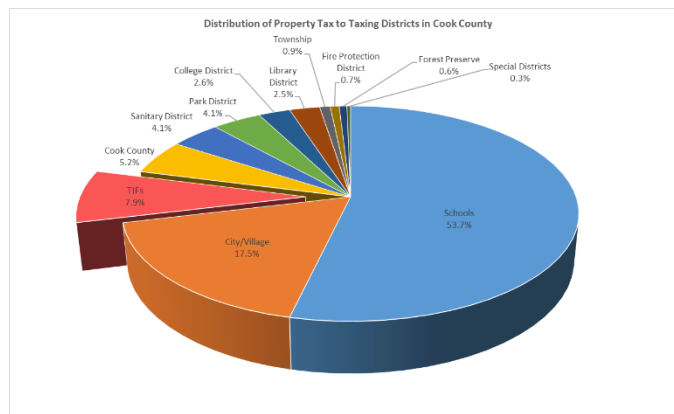

The graph below shows TIF Revenue and the number of TIFs in Chicago and the Suburbs for the past 33 years that TIF has been utilized in Cook County.

¹ Under the unique formula used for Transit TIFs, approximately \$71 million of the Transit TIF's \$116 million revenue this year will be distributed to CPS and other taxing districts impacted by this TIF.

TIFs account for 8% of property taxes billed in Cook County

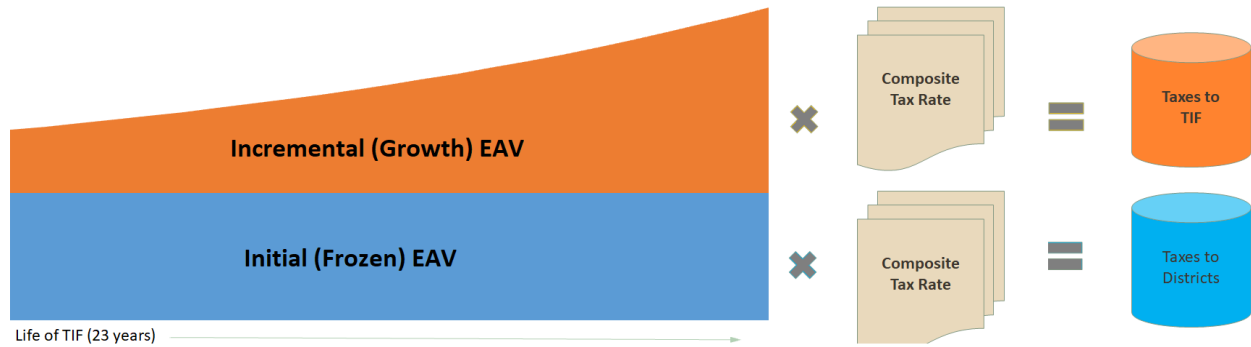

The \$1.2 billion derived from TIFs in Cook County amounts to 8% of the total property tax (\$14.9 billion) billed to Cook County taxpayers this year. Last year, \$1 billion in TIF revenue accounted for 7% of the \$14.4 billion property tax total. TIFs account for 13% of the total tax billed for all taxing districts in the City of Chicago and 4% of the total tax billed for all taxing districts in the suburbs this year. These distributions are displayed on the pie charts below.

The Clerk's role in TIF tabulation

The process of calculating property taxes begins every year with municipalities and other taxing districts approving their annual property tax levies and submitting them to the County Clerk. The Clerk's office calculates a tax rate for each district by dividing the levy (the amount of property tax revenue requested by the taxing district) by the total taxable value or equalized assessed value (EAV) of that district. That rate is applied to all properties within that district to generate the respective tax bills.

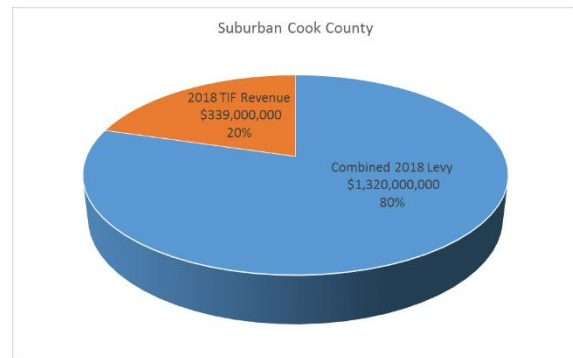

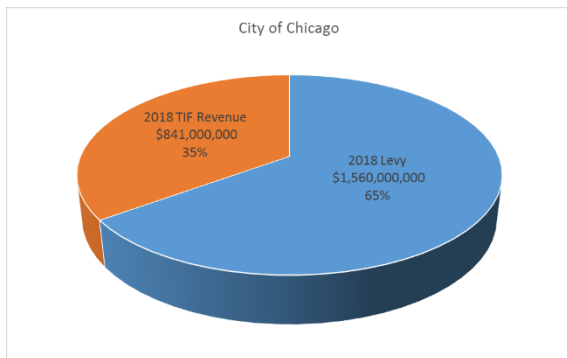

However, TIFs work differently and the requested TIF revenue is not required to be included in a municipality's annual property tax levy. Pursuant to statute, TIFs follow their own approval process. Once a TIF is approved and an ordinance is passed, the municipality submits that documentation to the County Clerk's office. The Clerk determines the initial EAV within the TIF as of the date the TIF was adopted. This initial EAV is then "frozen" for the life of the TIF (typically 23 years). Each subsequent year, the growth in property values reflected in EAV is measured. This value growth, known as the Incremental EAV, is then multiplied by the composite tax rate of the properties inside the TIF to calculate the TIF incremental revenue. The property taxes generated by this increase in property values within the TIF boundaries is distributed to the TIF. Property tax generated by the value of the Frozen EAV in the TIF goes to the other taxing districts. See the chart below for an illustration of this process.

Pursuant to statute and ordinance, TIF revenue is not requested through a tax levy and therefore is not included in a municipality’s yearly tax levy process. Thus, once a TIF ordinance is submitted to the Clerk’s Office for the initial creation of the TIF district, the TIF district will continue to receive TIF revenue for the duration of the TIF without requiring a yearly levy or further documentaion. A TIF district’s revenue will continue by operation of law to be calculated in the manner shown above, unless the Clerk’s Office is provided with writtten direction from a municipality to terminate the TIF or alter the boundary of a TIF.

Breakdown of taxes billed by TIF revenue and Tax Levy revenue

As illustrated by the pie charts below, Chicago TIF revenue, when added to the property tax generated by the City’s 2018 property tax levy, is 35% of the total tax that may be distributed to the City of Chicago. The combined total of all suburban TIF revenue accounts for 20% of the property tax revenue to be collected by suburban municipalities².

Factors that impact TIF revenue

As shown above, TIF revenue is a combination of the composite tax rate of the taxing districts within the TIF and the increase in EAV that has occurred since the TIF’s inception at the Frozen EAV. Of these two factors, increases in EAV have the larger impact upon TIF revenue. This is due to the nature of the TIF and the benchmark of the Frozen EAV. If EAVs within a TIF go up, the entirety of the revenue generated by that EAV growth is allocated to the TIF rather than to other taxing districts.

The example below shows how a 10% increase in the total EAV of a taxing district from Year A to Year B could have a larger impact on TIF. In the example, the 10% increase of total EAV resulted in a 13.6% increase in the TIF’s revenue share, as opposed to 5% the year before.

² Suburban TIF total as compared to total property tax extension for all suburban cities, towns, and villages, with or without TIF.

City of Chicago TIFs

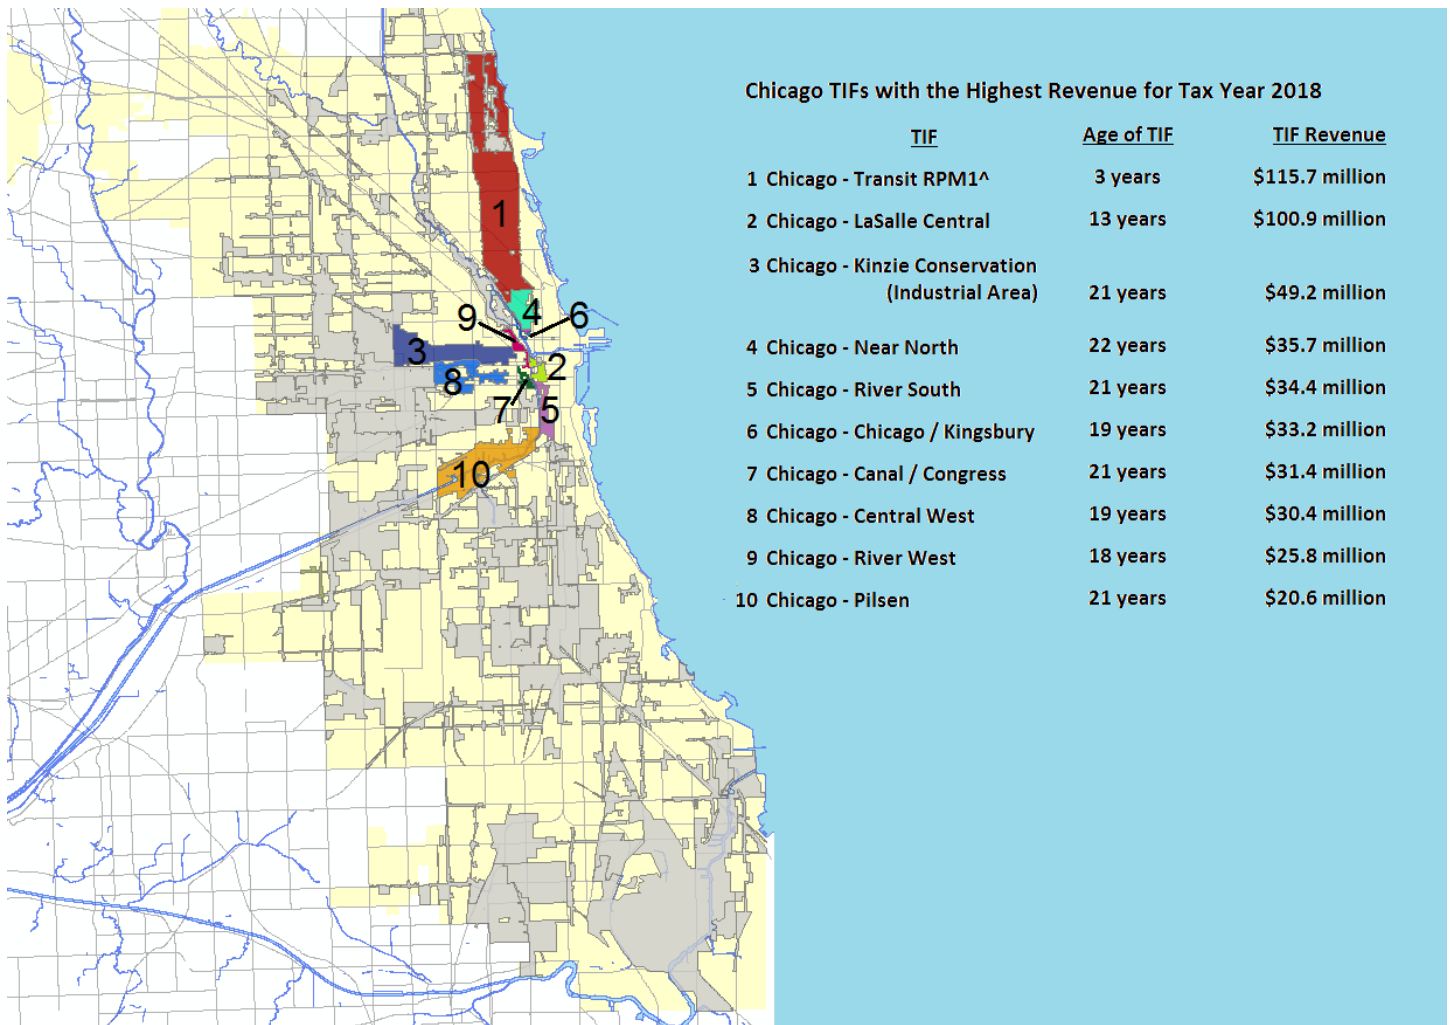

The City of Chicago was reassessed for tax year 2018, resulting in a 12.5% increase in total EAV. This EAV increase contributed to the 27.4% increase in the City’s TIF revenues.

The highest performing TIFs in the City of Chicago this year are located primarily in or around the downtown area. However, the Pilsen TIF on the south side of the City increased 26% and has the 10th highest revenue this year. TIF revenue also increased for the Red Purple Modernization Phase 1 (RPM1) Transit TIF in the north side neighborhood of Lakeview, making it the largest TIF both geographically and financially this year. For more specific information on transit TIFs, see [Transit TIF Fact Sheet](#), [Chicago TIF Overview](#) & [Chicago TIF Summary](#)

The following chart shows the 10 highest revenue TIFs in the City of Chicago this year. Each TIF will bring in more than \$20 million this year.

TIF	First Year	2018 Revenue	Total Revenue
Chicago - Transit RPM1	2016	\$115,735,214.75	\$174,105,069.79
Chicago - LaSalle Central	2006	\$100,926,569.59	\$361,771,088.82
Chicago - Kinzie Conservation (Industrial Area)	1998	\$49,229,212.64	\$367,926,939.81
Chicago - Near North	1997	\$35,716,959.86	\$330,800,054.76
Chicago - River South	1998	\$34,448,113.13	\$273,240,094.76
Chicago - Chicago / Kingsbury	2000	\$33,177,660.74	\$270,644,567.14
Chicago - Canal / Congress	1998	\$31,399,421.84	\$335,286,098.90
Chicago - Central West	2000	\$30,425,107.45	\$248,283,003.88
Chicago - River West	2001	\$25,761,204.13	\$211,968,592.60
Chicago - Pilsen	1998	\$20,643,537.57	\$184,639,325.34

The map below shows the location of these TIFs, which account for 57% of the City's TIF revenue this year.

The RPM1 Transit TIF is a mile wide and extends from North Avenue to Devon Avenue along CTA's Red and Purple line tracks. Now in its third year, the Transit TIF has nearly tripled its revenue compared to last year with close to \$116 million in property tax generated. Due to the unique distribution rules established by statute for Transit TIFs (65 ILCS 5/11-74.4-8), the TIF itself will net approximately \$45 million of this total. The balance of the revenue brought in by this TIF this year will be distributed to CPS and the other taxing districts such as the County, the Forest Preserve, Metropolitan Water Reclamation, Chicago Parks, City Colleges, and the City of Chicago. This Transit TIF revenue is in addition to the annual tax levies submitted by these taxing districts. [See Transit TIF Fact Sheet](#).

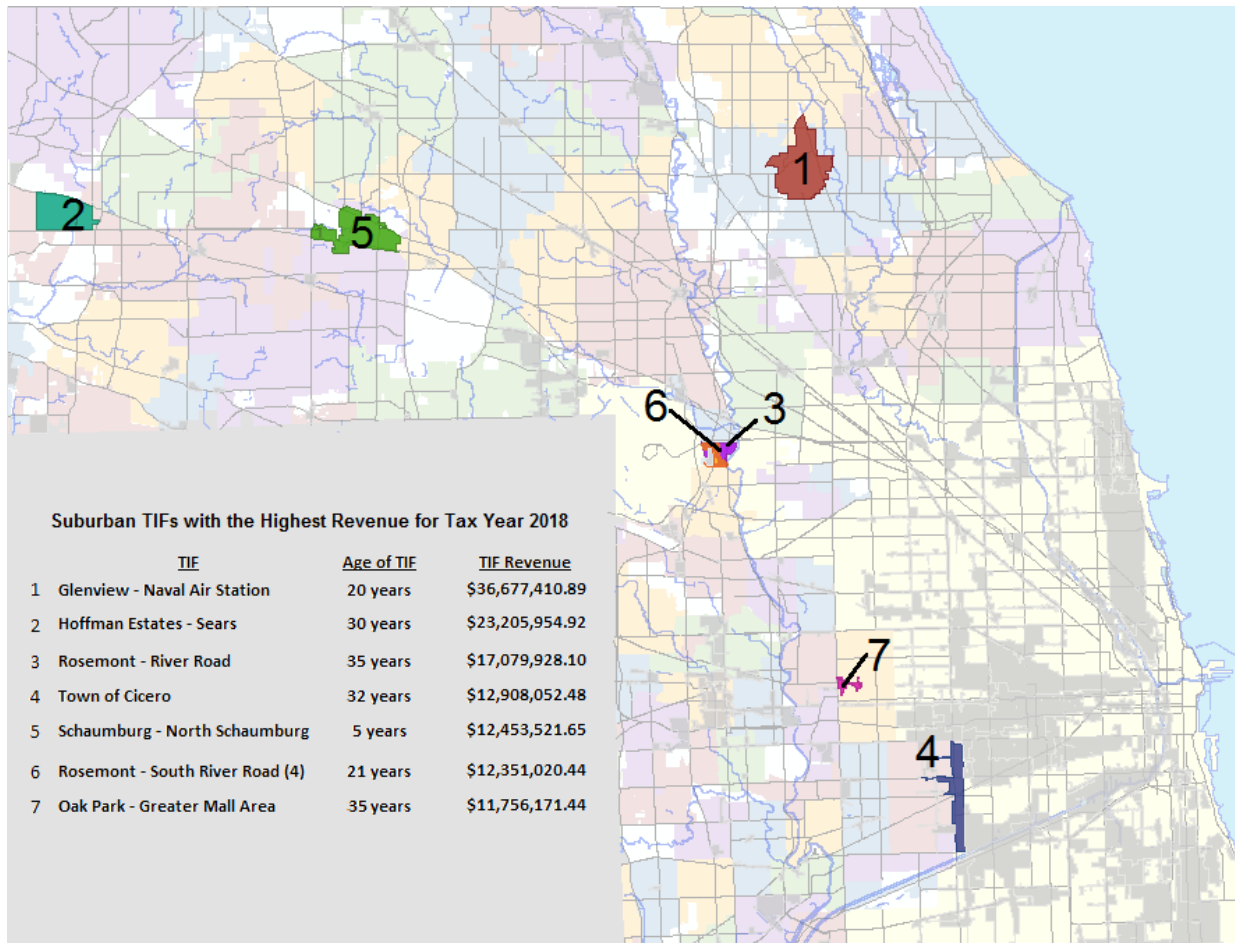

Suburban TIFs

There are currently 303 active TIFs in 99 suburban municipalities. This averages to three TIFs per municipality if a municipality is using TIF. Overall, TIF Revenue in the suburbs decreased 1.62% this year. This is primarily attributable to slight EAV decreases in the suburbs this year. See the Clerk's [2018 Tax Rate Report](#) for more information.

The table below lists the seven suburban TIFs that generated over \$10 million each this year. Of these, five are in the northern or northwestern suburbs and two are in the near western suburbs.

TIF	First Year	2018 Revenue	Total Revenue
Glenview - Naval Air Station	1999	\$36,677,410.89	\$453,178,785.73
Hoffman Estates - Sears	1989	\$23,205,954.92	\$609,432,152.19
Rosemont - River Road	1984	\$17,079,928.10	\$341,087,750.15
Town of Cicero	1987	\$12,908,052.48	\$231,092,515.05
Schaumburg - North Schaumburg	2014	\$12,453,521.65	\$27,817,794.21
Rosemont - South River Road (4)	1998	\$12,351,020.44	\$66,154,876.87
Oak Park - Greater Mall Area	1983	\$11,756,171.44	\$193,354,621.55

The map below shows the locations of these TIFs.

The northern and northwestern suburbs are currently being reassessed for tax year 2019. Increases or decreases in taxable values (EAVs) will likely have an impact on the TIFs in those areas.

See the [2018 Suburban TIF Overview](#) and [2018 Suburban TIF Summary](#).

Additional TIF Information

To view data on each TIF district, see these PDF sections of the TIF Report: [Countywide summary](#), [Chicago summary](#), [Suburban summary](#), [Tax Increment Agency Report](#), [Chicago Overview](#), [Suburban Overview](#), [Transit TIF Fact Sheet](#), & [TIF FAQs](#).

Visit [TIF Viewer](#), a mapping application, to see TIF data at the map level and search by municipality, ward, address or PIN.

TIF FAQs

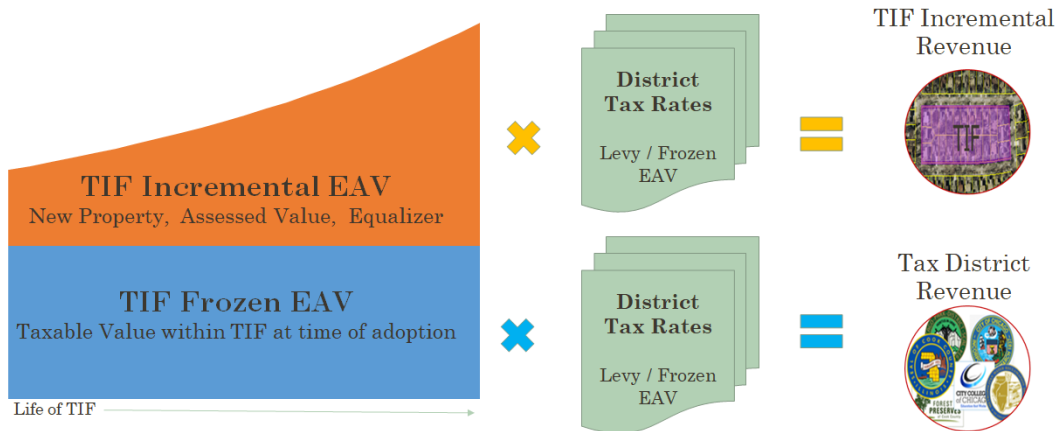

What is a TIF?

"TIF" stands for Tax Increment Financing, a statutory financing tool that municipalities can use to generate funds for economic development in a specific geographic area. TIFs allow municipalities to re-invest all tax dollars generated by value growth within the TIF district for typically a 23-year period.

A TIF district generates revenue when a new development takes place in the TIF district, or if the value of existing properties rise due to the increased market value of the properties in the TIF. These funds can be spent on public works projects or given as subsidies to encourage private development. TIF revenue can also be used by a municipality to acquire private property and demolish buildings to make way for new construction.

How is TIF revenue determined?

When a TIF is established, the County Clerk certifies the initial taxable value (also known as equalized assessed value or EAV) within the TIF area. This initial or base value is then "frozen" for the life of the TIF. Taxing districts within the TIF have access to only the "frozen" value when their tax rates are calculated. If there is any increase in EAV within the TIF, the Clerk will then calculate that value growth, or "increment", that occurs in a TIF each year. That increment is multiplied by the composite tax rate of all the taxing districts in the TIF to establish the amount of incremental revenue to be directed to the TIF.

Why is Cook County TIF revenue is up 17% this year?

As shown above, TIF revenue is driven by tax rates and the growth in taxable value (EAV) that occurs within the TIF area. Of these two factors, growth within the TIF has a larger impact on TIF revenue.

Taxable values in Cook County are up 5% overall this year. More specifically, EAVs have increased 12.5% within the City of Chicago and decreased 2.4% in the suburbs. These increases and decreases have contributed to the 17.4% increase in Cook County TIF revenue, with a 27.4% increase in TIF revenue within the City of Chicago and a 1.6% decrease in TIF revenue in the suburbs.

Below is an example of how increasing EAVs impact the revenue generated within a TIF:

For instance, if the total taxable value (EAV) in a TIF were to increase 10% (from 100,000 to 110,000), the frozen value would remain the same (95,000) while the incremental value would see a larger percentage increase (5% of total EAV of the district to 13.6%):

Sample TIF	Prior Year Value	Current Year Value	Increase
Total Taxable Value	100,000	110,000	10%
Frozen Value	95,000	95,000	0%
Incremental Value	5,000	15,000	200%
Portion of Revenue to TIF	5%	13.6%	172%

As the example above illustrates, when taxable value increases combined with increases in tax rates, TIF revenues increase more rapidly than would traditional property taxes.

What happens to TIF funds?

The statutory intent of TIF is to revitalize economically blighted areas or older structures in need of renovation and rehabilitation. With active community participation, TIFs can be a useful tool for implementing community-based revitalization plans through encouraging affordable housing development, improving parks and schools, fixing basic infrastructure, putting vacant land to productive use, creating well-paying jobs, and meeting other local needs.

TIF revenue is administered by the municipality, which has wide discretion over how TIF revenue is spent as defined in the approving ordinance of each TIF. Additionally, municipalities are able to enter into Intergovernmental Agreements with schools and other taxing districts to utilize TIF funds for capital improvement projects within those districts.

What is porting?

Statute allows a municipality to transfer TIF revenue generated in one TIF district to adjoining TIF districts to fund regional projects (65 ILCS 5/11-74.4-4(q)). This transfer of funds from one TIF to another is known as “porting”.

What happens when a TIF retires?

The typical lifespan of a TIF is 23 years, though TIFs may be extended through legislation or terminated early by the municipality. There are two ways other taxing districts may benefit when a TIF retires: TIF Surplus and recovered TIF value.

- TIF Surplus may be declared by the municipality at any time during the life of a TIF, but normally it is declared after the TIF retires. The surplus is surrendered to the Cook County Treasurer, who distributes it proportionally to all of the taxing districts affected by the TIF.
- After a TIF has been retired, taxing districts, who were formerly only able to tax at the frozen value, are able to recover all of the “new” value (previously the increment value) within their boundaries which was going to the TIF. In the year the TIF retires, districts may increase their levies to receive a one-time revenue increase because of the addition of the increment value, without a corresponding increase in the tax rate applied to their taxpayers.

Is my property in a TIF?

If your property is in a TIF district, it will be listed in the Municipality/Township Taxes section of your tax bill.

TAXING DISTRICT BREAKDOWN		
Taxing Districts	2018 Tax	2018 Rate
MISCELLANEOUS TAXES		
Metro Water Reclamation Dist of Chicago	38.68	0.396

<https://tif.cookcountyclerk.com> (See screenshot below)

KAREN A. YARBROUGH
COOK COUNTY CLERK'S OFFICE

TIF Property Search

Under Illinois law, Tax Increment Financing ("TIF") districts receive money from property taxes by utilizing increases in the value of properties located in the TIF. There is no tax rate for TIF districts. Instead, TIFs receive money based on tax rates generated by other districts' tax levies. Money is allocated to the TIF based on the composite tax rate for properties in the TIF and the incremental value of properties in that TIF (when compared to values when the TIF was established.)

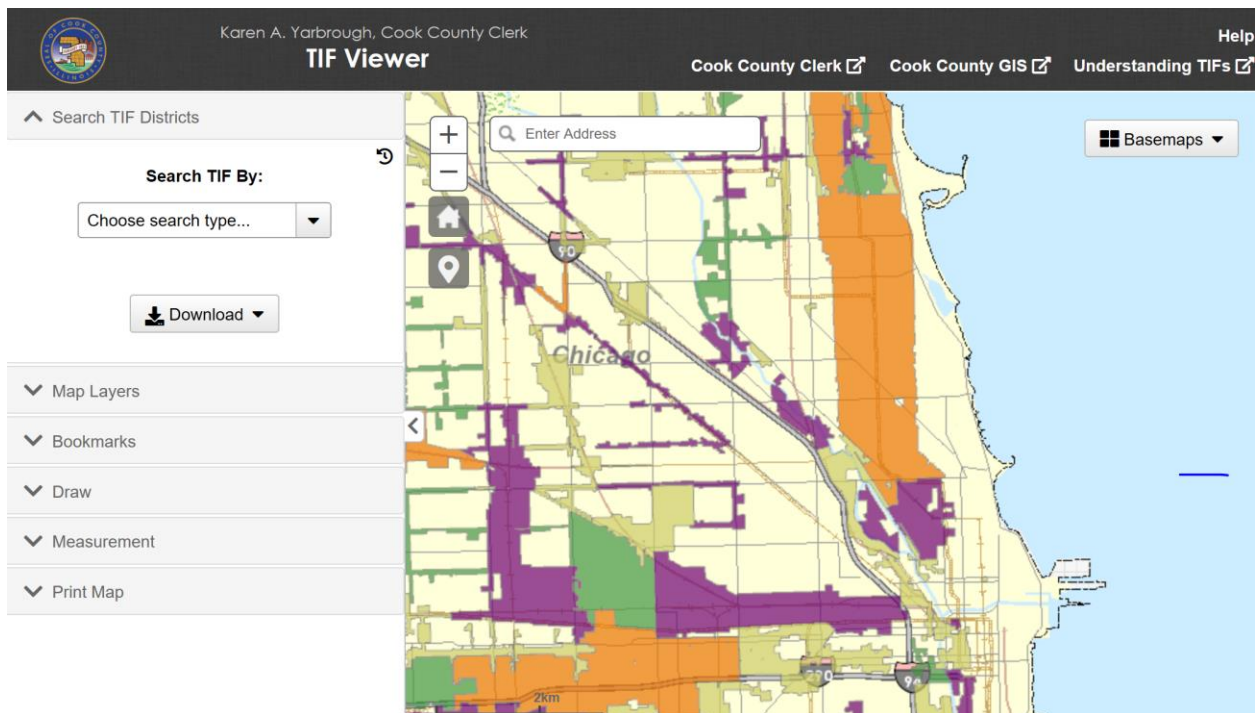

Currently, Cook County distributes tax revenue using "tax codes"—groupings of taxing districts commonly shared by the parcels in that code. Using the search function below, you may see if your property is in a tax code that contains a TIF and, if it is, you can view how tax revenue is distributed in that tax code.

First, enter your Property Index Number ("PIN") below to see if your property is in a tax code that contains a TIF for the current tax year:

*Tax Year: *PIN:

You can also search your PIN on the Cook County Clerk's TIF Viewer mapping application. TIF Viewer is also a good resource to research individual TIF boundaries and revenue histories. You can find TIF Viewer at:

<https://maps.cookcountyil.gov/tifViewer/> (See screenshot below)

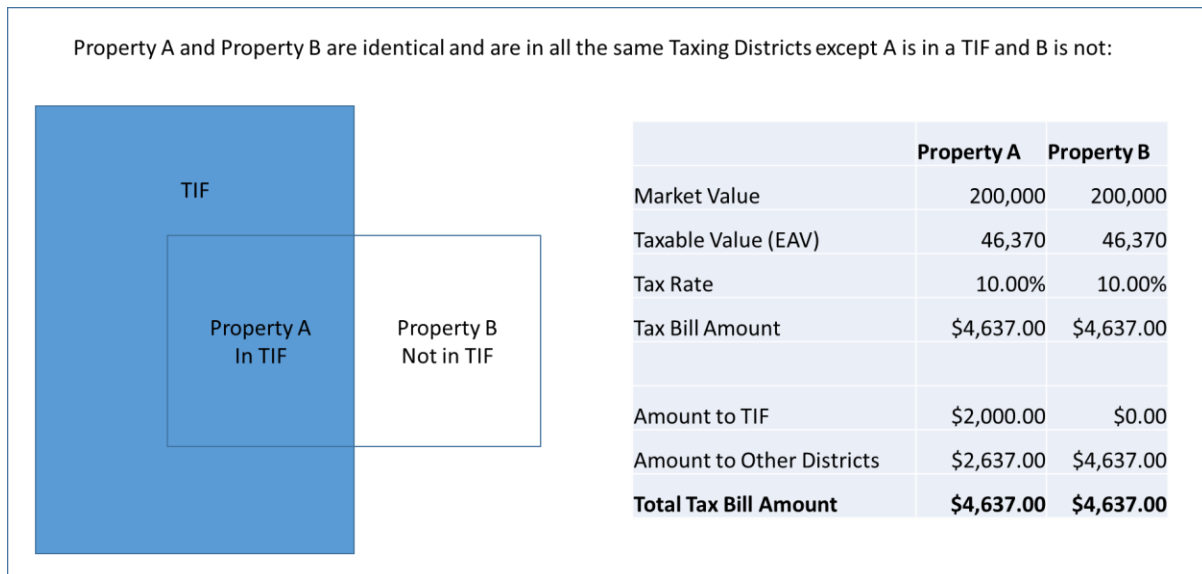

My tax bill says that a percentage of my payment is going to a TIF. Does this mean that without the TIF my tax bill would be lower?

Your tax bill is calculated based on the taxable value (equalized assessed value or EAV) of your property multiplied by the combined rates of all of the taxing districts which serve your property, regardless of

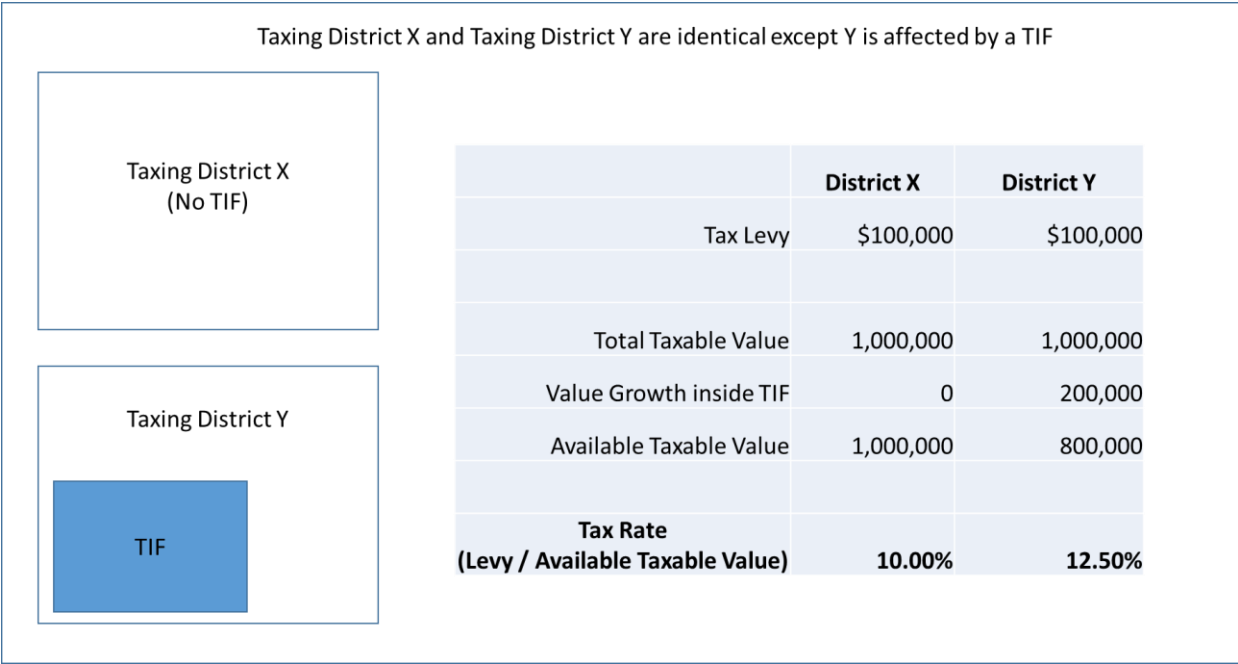

whether your property is in a TIF district or not. The difference the TIF makes is where your tax dollars are going.

As illustrated below, if a property is not located within a TIF, all of its tax bill goes to the taxing districts (municipality, school, park, etc). If a property is in a TIF, part of the tax bill goes to the TIF and the rest goes to the taxing districts. Thus, although each taxpayer is paying the same amount in taxes, the taxes are distributed differently.

Furthermore, a TIF will affect all those taxpayers within a taxing district that are subject to the TIF. Because a TIF captures the incremental value, which is no longer available to the other taxing districts, the tax levies of the other districts are now distributed upon a smaller amount of EAV which results in the tax rates of those districts being higher. Consequently, tax bills are higher for all properties in taxing districts affected by TIF.

As shown in the example below, where Taxing District X and Y request the same amount for their levy (\$100,000) but District X has no TIF, the levy for District X will be divided by the full taxable value or EAV (1,000,000). However, for District Y, its levy (\$100,000) is divided by the remainder of EAV, after the incremental value is given to the TIF, or the 800,000. Hence, the tax rate for District X without the TIF is 10% (1,000,000 / 100,000), where the tax rate for District Y with the TIF is 12.5%(800,000 / 100,000). Also note, the 12.5% tax rate is applied to all properties in District Y, regardless of the property being within the TIF boundaries or not.

**The above examples are purely hypothetical and do not represent actual properties or TIFs*

What is a “Transit TIF” and what does it mean to my taxes?

Generally, Tax Increment Financing (TIF) is a statutory financing tool that municipalities may use to generate funds for economic development in a specific geographic area. In a typical TIF, properties within the TIF area must meet certain criteria, such as blight, or other indicators of economic hardship in order for a TIF to be established. As stated previously, the other taxing districts, such as Schools, Park Districts, and Libraries, only have access to the frozen base taxable value within the TIF district at the time the TIF is created for the duration of the TIF (typically 23 years). And, any tax revenue generated from the value growth within the TIF is directed to the TIF itself.

However, Transit TIFs differ from traditional TIFs in that there is no hardship requirement and they may last for 35 years. Another major distinction of a Transit TIF is that part of the tax revenue generated from the value growth within the Transit TIF is distributed to the other taxing districts. (See 65 ILCS 5/11-74.4-8) The first Transit TIF in the City of Chicago is intended to modernize the north side CTA Red and Purple train lines with the assistance of revenue from Federal and State grants.

My property is in the Chicago RPM1 Transit TIF.

If your property is in Chicago’s Transit TIF on the North Side, you will see two line items on your bill related to this TIF. Due to the statutory rules regarding the distribution of Transit TIF funds, part of the Transit TIF revenue generated each year goes to the other taxing districts. CPS receives its statutory share of the TIF revenue, while 80% of the remainder goes to the TIF and the other 20% is distributed proportionally to the other taxing districts. The two line items regarding the Transit TIF shows the amount of the taxes distributed to CPS and the amount which went to the Transit TIF. The other 20% is not delineated per district but included in the total amounts shown of the other taxing districts. Accordingly, tax bills for the properties that fall within the Chicago RPM1 Transit TIF will appear as shown below.

The amount of TIF revenue directed to CPS is displayed on Transit TIF tax bills as “Board of Education – TIF RPM1” in the School Taxes section of the bill.

SCHOOL TAXES				
Board of Education - TIF RPM1	250.08	0.000	11.82%	0.00
Board of Education Chicago	857.36	3.552	40.52%	988.57
Chicago Community College District	37.39	0.147	1.77%	41.68
School Taxes Total	1,144.83	3.699	54.11%	1,030.25

The amount going to the TIF itself is displayed as “TIF Transit City of Chicago-Rpm1” in the Municipality/Township Taxes section of the bill.

MUNICIPALITY/TOWNSHIP TAXES				
TIF Transit City of Chicago-Rpm1	182.15	0.000	8.61%	160.13
Chicago School Bldg & Imp Fund	34.60	0.136	1.63%	31.52
Chicago Library Fund	28.24	0.111	1.34%	29.99
City of Chicago	398.08	1.565	18.81%	251.51
Municipality/Township Taxes Total	643.07	1.812	30.39%	641.46

For more information on the City’s Transit TIF, see the [Transit TIF Fact Sheet](#).

What resources does the Clerk have available to research TIFs?

In addition to the TIF Property Search and TIF Viewer application, the Cook County Clerk also provides TIF Reports, TIF Maps, and a short, informative video “Understanding TIFs” on our website:

<https://www.cookcountyclerk.com/agency/tifs-tax-increment-financing> (See screenshot below)

The screenshot shows the website header with the name KAREN A. YARBROUGH, COOK COUNTY CLERK'S OFFICE, and social media icons. The main content area is titled "TIFs (Tax Increment Financing)" and features a "TIF Viewer" application interface with a map and search controls. To the right, there is a "PROPERTY TAXES" sidebar with a dropdown menu for "TIFS (TAX INCREMENT FINANCING)" containing links for "TIF PROPERTY SEARCH", "TIF REPORTS", "TIFS 101", "TIF MAPS", and "TIF FAQs". Below the sidebar is a video player for "UNDERSTANDING TIFS".

What other resources are available to research TIFs?

Municipalities are required to file annual reports with the Illinois Comptroller’s office. Those reports are available online at: <http://warehouse.illinoiscomptroller.com/>

The following organizations also provide information regarding TIFs:

Illinois Tax Increment Association: <http://www.illinois-tif.com/>

The Civic Federation: <https://www.civicfed.org/>

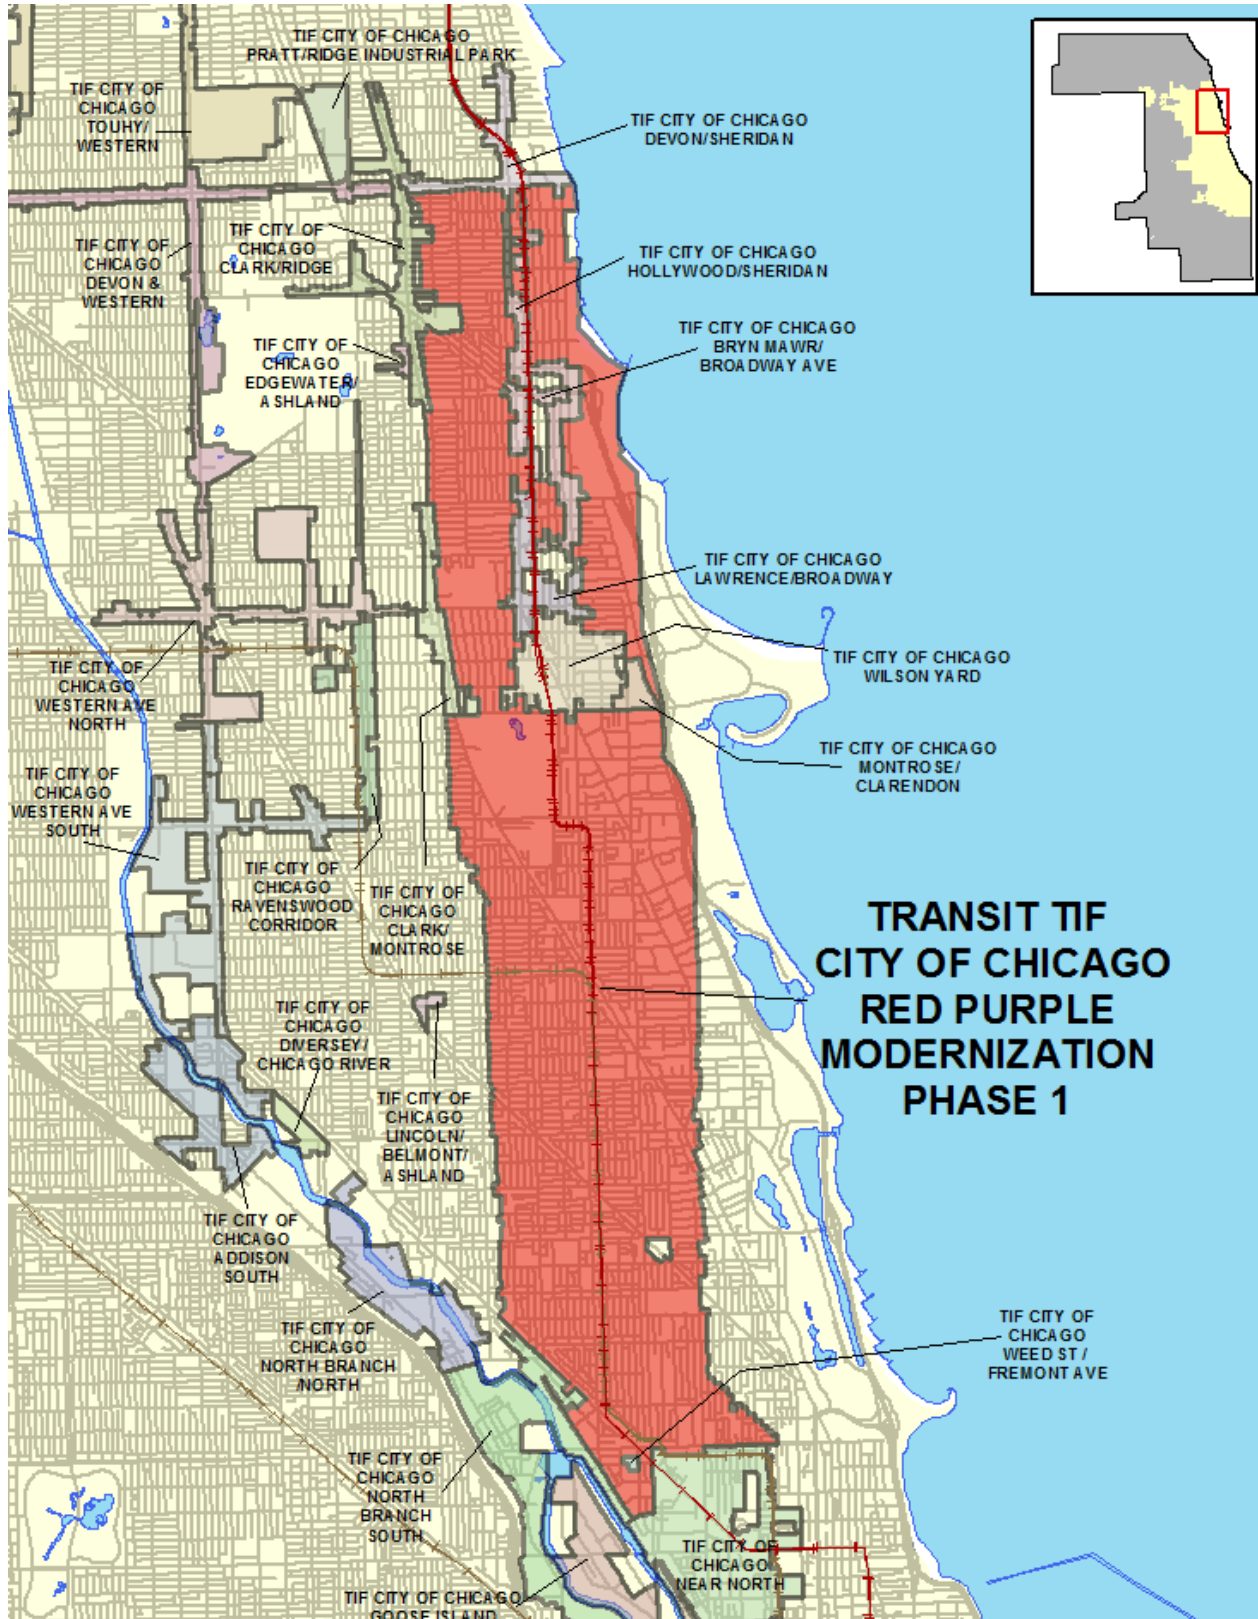

The TIF Illumination Project: <http://www.tifreports.com/>

City of Chicago TIF Data Portal: <https://www.chicago.gov/city/en/depts/dcd/provdrs/tif.html>

City of Chicago Transit TIF – Red Purple Modernization Phase 1 (RPM1) Fact Sheet

Overview of RPM1 Transit TIF

- Intended to fund transit improvements along CTA rail lines on the north side of Chicago and repay federal loans
- First Transit TIF in Illinois – adopted by City Council November 30, 2016
- Located along CTA Red and Purple line tracks on north side from North Ave to Devon Ave
- Approximately 5 square miles

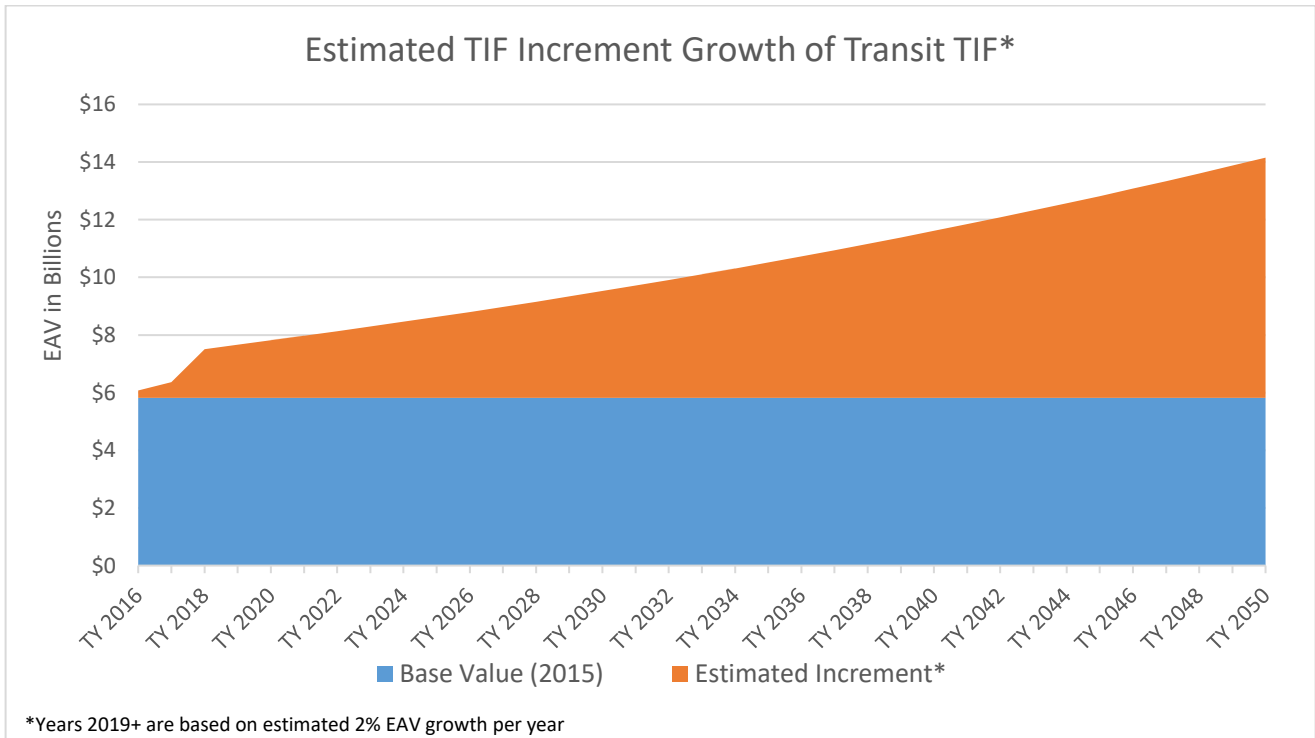

Transit TIF Revenue in 2018

TIF Revenue is calculated by multiplying the Incremental value in the TIF (the current taxable value of the TIF minus the base or “frozen” value of the TIF at the time of its inception) by the composite tax rate of the properties within the TIF.

Total Current Taxable Value in the TIF	7,510,000,000
– Total Original (Frozen) Taxable Value in the TIF	– 5,820,000,000
= Total Incremental Value in the TIF	= 1,690,000,000
x Annual Tax Rate of Properties in the TIF	x 6.8%
= Annual TIF Revenue	= \$115,700,000

The graph below shows an estimate of value growth which could occur within the RPM1 Transit TIF over its 35-year lifespan.

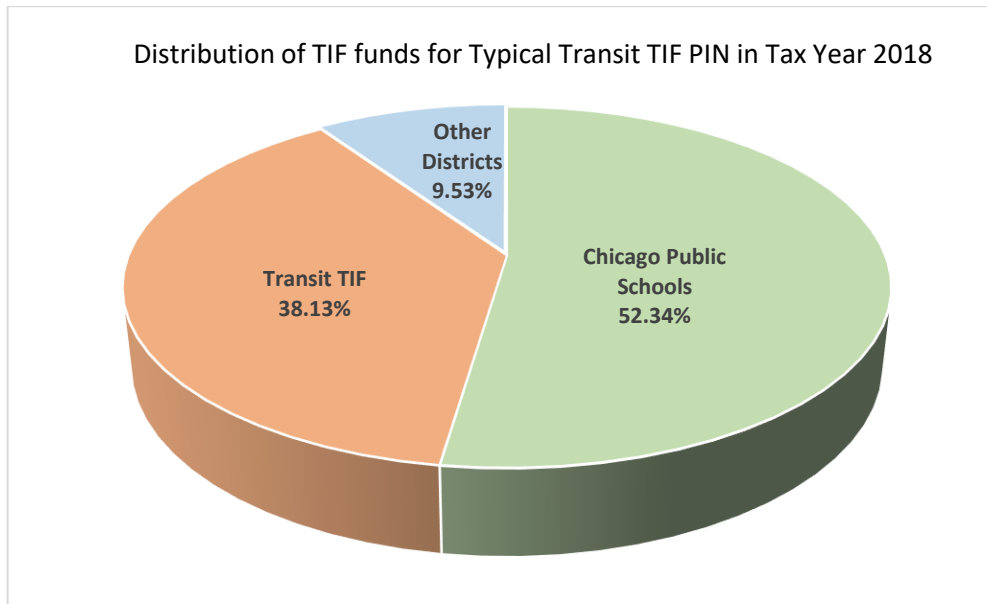

*Years 2019+ are based on estimated 2% value increase per year and estimated 7% annual tax rate
 Total Incremental revenue – includes portion to be distributed to other tax districts

Unique Statutory Rules for Transit TIFs

- May run for 35 years (rather than 23 years for traditional TIFs)
- No “blight” requirement (65 ILCS 5/11-74.4-8)
- A portion of Transit TIF revenues are distributed to other Taxing Districts in addition to annual tax levies:
 1. CPS receives their proportionate share of TIF revenue¹
 2. 80% of non-CPS portion is distributed to Transit TIF
 3. 20% of non-CPS portion is distributed proportionally to other taxing districts

¹ CPS proportionate share of Transit TIF revenue is based on the annual tax rate for CPS compared to the total composite tax rate of all taxing districts servicing Transit TIF properties. (Example: 2018 CPS rate = 3.552% and Chicago General Composite Rate = 6.786% making CPS 52.34% of the overall tax rate.)

Transit TIF Tax Bills

A typical second installment property tax bill shows the breakdown of where your taxes go, including the portion, if any, going to TIF.

TAXING DISTRICT BREAKDOWN					
Taxing Districts	2018 Tax	2018 Rate	2018 %	Pension	2017 Tax
MISCELLANEOUS TAXES					
Metro Water Reclamation Dist of Chicago	100.72	0.396	4.76%	10.86	102.16
Parks-Museum/Aquarium Bond	0.00	0.000	0.00%		1.53

City of Chicago Tax Year 2018 TIF Overview

Chicago TIFs

- There are 138 active TIFs in the City of Chicago, five fewer than last year.
- More than **1 in 4 properties** in City of Chicago lie within TIF districts.

Chicago cancelled seven TIFs in 2018. Four TIFs expired while three TIFs were terminated early.

Terminated Chicago TIFs for Tax Year 2018					
TIF Name		Parcels	Ward(s)	Total TIF Revenue (All Years)	2017 TIF Revenue (Final Year)
TIF City of Chicago - 41 st St/King Dr	Expired	69	3	\$3,354,541.97	\$21,673.10
TIF City of Chicago - Calumet Ave/Cermak Rd	Expired	15	3	\$161,008,789.39	\$13,035,217.01
TIF City of Chicago - Lincoln/Belmont/Ashland	Expired	160	44&47	\$22,993,439.90	\$1,440,372.53
TIF City of Chicago - Read Dunning	Expired	671	38	\$54,715,092.69	\$ 2,958,826.01
TIF City of Chicago - Drexel Blvd	Dissolved Early (after 16 years)	278	3&4	\$4,133,549.73	\$408,004.72
TIF City of Chicago - Ravenswood	Dissolved Early (after 13 years)	596	47	\$12,137,609.07	\$ 1,956,108.26
TIF City of Chicago Weed/Freemont	Dissolved Early (after 10 years)	2	2	\$4,513,437.12	\$ 855,342.62

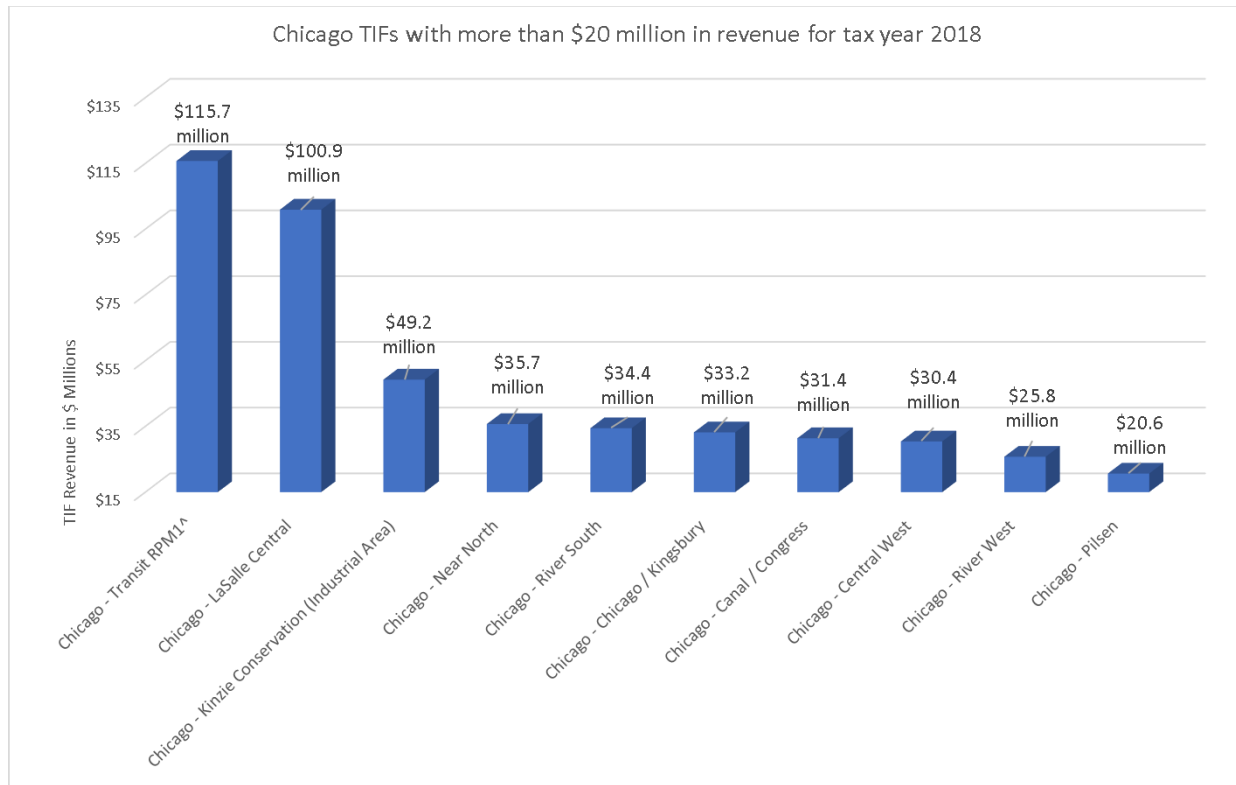

Chicago created two new TIFs in 2018.

New Chicago TIFs for Tax Year 2018				
TIF Name		Parcels	Ward(s)	2018 TIF Revenue (First Year)
Chicago - 116th/Avenue O	New TIF	62	10	\$15,987.59
Chicago - Foster/Edens	New TIF	180	39	\$423,922.72

TIF Revenue in the City of Chicago:

- Chicago TIFs will generate a record \$841 million for tax year 2018, over 13% of total property tax billed in the City of Chicago.
- Chicago TIF revenue increased \$181 million (27.4%) over tax year 2017
- Last year, Chicago TIF revenue increased \$99 million (17.4%) over tax year 2016
- Approximately \$79.1 million of the \$115.7 million generated by Chicago’s RPM1 Transit TIF will be directed to other taxing districts this year ([See Transit TIF fact sheet](#))
- Of the Chicago TIFs that did generate revenue this year, the lowest was the new “116th/Avenue O” TIF with approximately \$16,000 in its first year.

Ten Chicago TIFs generated over \$20 million each in 2018.

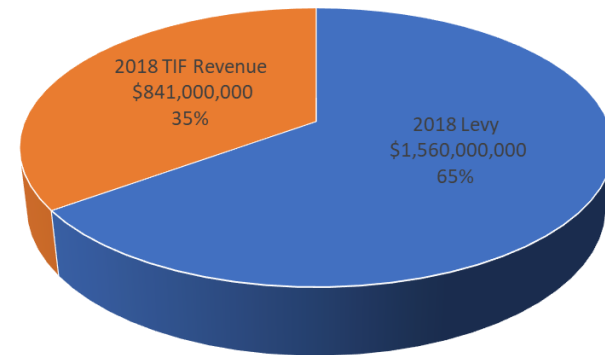

Seven Chicago TIFs generated no revenue this year due to having no overall incremental value growth.

TIFs with no Revenue for Tax Year 2018				
TIF Name	First Year	Ward(s)	Total TIF Revenue (All Years)	Most Recent Revenue
Chicago - 67th / Wentworth	2011	6, 16, 17 & 20	\$0.00	No Revenue generated
Chicago - Harlem Industrial Park	2007	13 & 23	\$940,208.06	2010: \$126,890.90
Chicago - Irving Park / Elston	2009	35, 39 & 45	\$817,802.91	2010: \$291,373.05
Chicago - Little Village East	2009	12, 22 & 24	\$476,381.79	2011: \$14,571.92
Chicago - Little Village Industrial	2007	22	\$1,995,151.53	2010: \$141,485.87
Chicago - South Works	2000	10	\$1,595,477.96	2016: \$58,239.81
Chicago - West Woodlawn	2010	20	\$111,003.91	2010: \$111,003.91

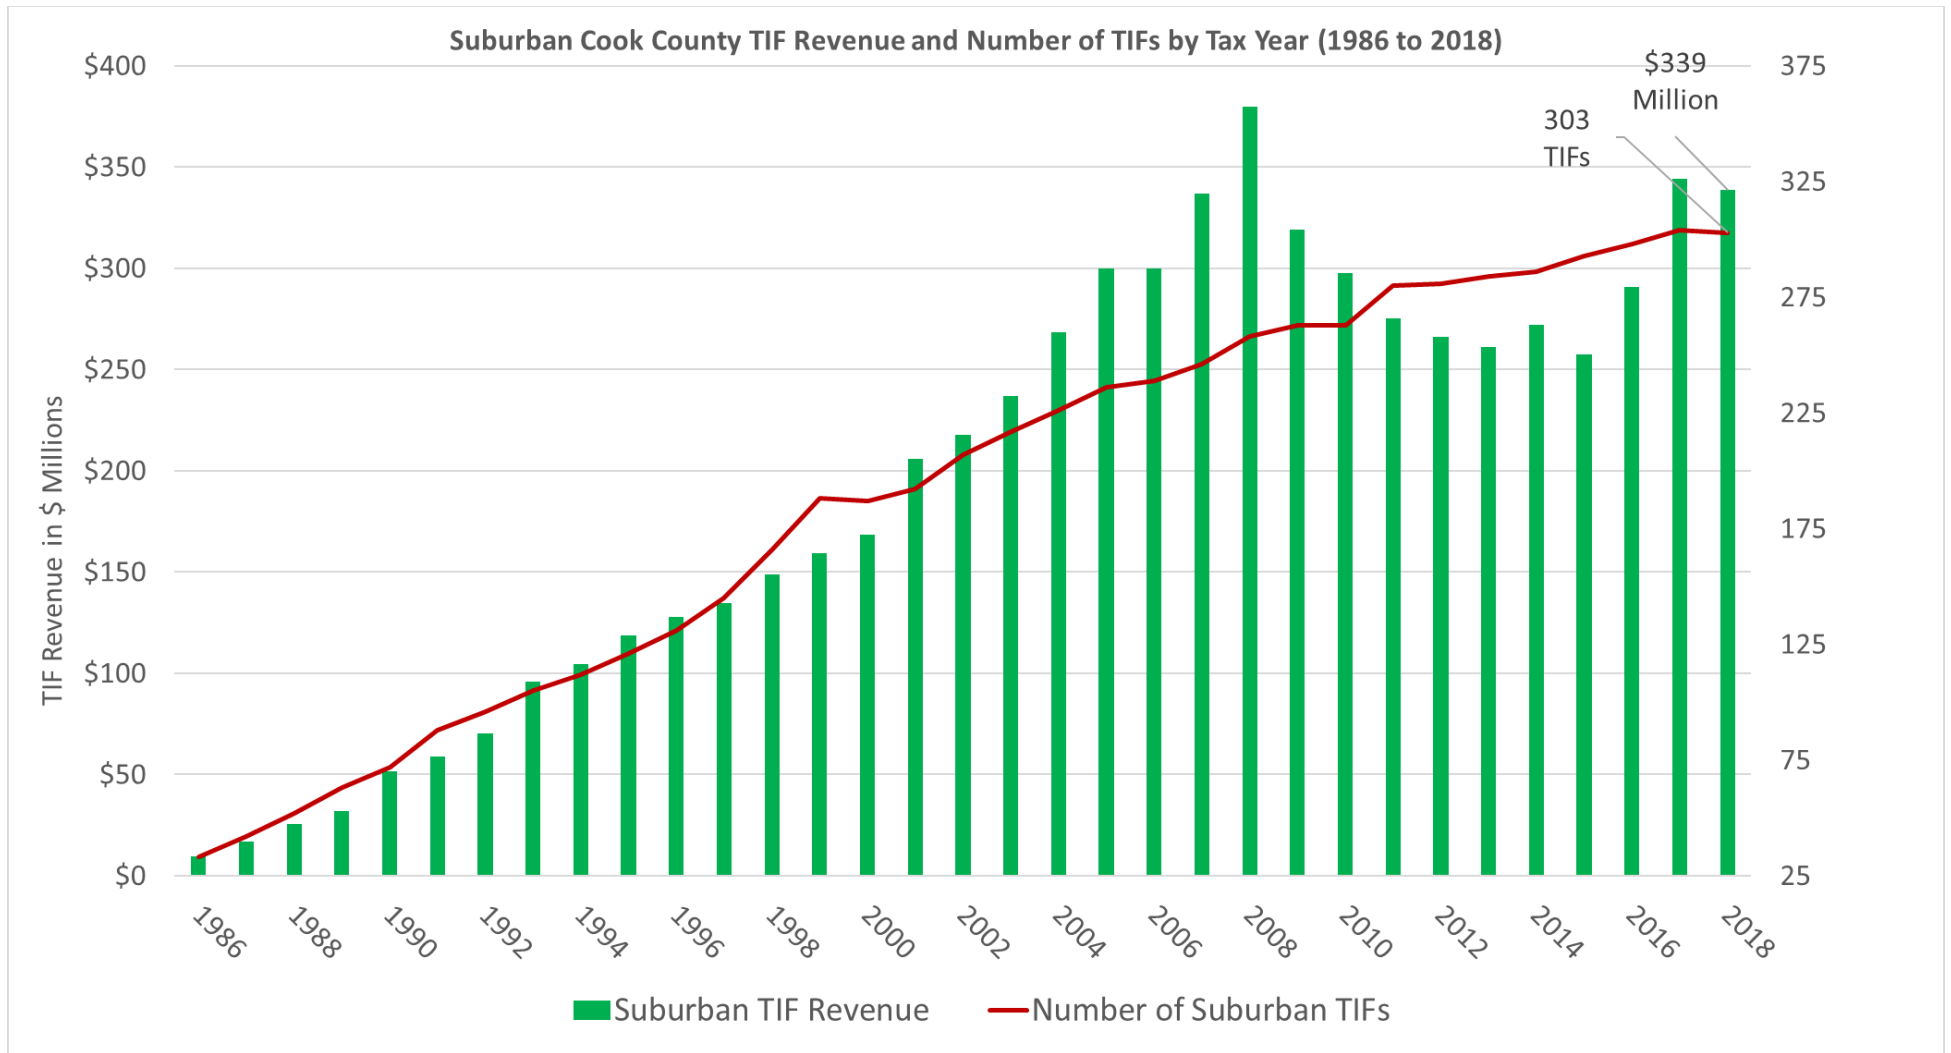

Chicago TIF Revenue compared to Property Tax Levy

The total property tax revenue generated by the City of Chicago's annual property tax levy for tax year 2018 is \$1.56 billion. Property tax revenue generated by Chicago TIFs this year is \$841 million, over 35% of the total property tax revenue generated for the City of Chicago. The charts below illustrate the comparison between the City of Chicago's property tax levy and Chicago TIF revenue.

Overall TIF Revenue increased 27.4% in the City of Chicago but individual TIFs vary. For more information about the revenue generated by individual TIFs in The City of Chicago see the [2018 Chicago TIF Summary Report](#).

Suburban Cook County Tax Year 2018 TIF Overview

Suburban TIFs

- There are 303 active TIFs in Suburban Cook County. There are TIFs in 74% of suburban Cook County municipalities.
- Approximately 1 in 22 properties in Suburban Cook County lie within TIF districts. Countywide, 1 in 7 properties are in TIF districts.

Fourteen new TIFs were created in the Suburbs, and one suburban TIF was expanded.

New Suburban TIFs for Tax Year 2018

Cicero - 54th Ave TIF	Removed land now in 1400 S. Laramie TIF	1	\$517,452.31	\$0.00
Elmwood Park - Grand Ave Corridor TIF	Removed land now in Grand Ave Corridor II TIF	172	\$0.00	\$189,680.90
Lemont - Downtown Canal 1 TIF	Removed land now in Transit TOD TIF	9	\$253,262.27	\$271,588.52
Rosemont - River Road TIF	Removed land now in Balmoral/Pearl 8 TIF	2	\$17,079,928.10	\$17,428,933.90

TIF Revenue in Suburban Cook County

Revenue from suburban TIF districts decreased from \$344 million last year to \$339 million this year. This 1.6% decrease is driven primarily by decreased taxable values (equalized assessed values or EAVs) due to a 2 percent decrease in the state equalizer.

Seven Suburban TIFs generated over \$10 million each

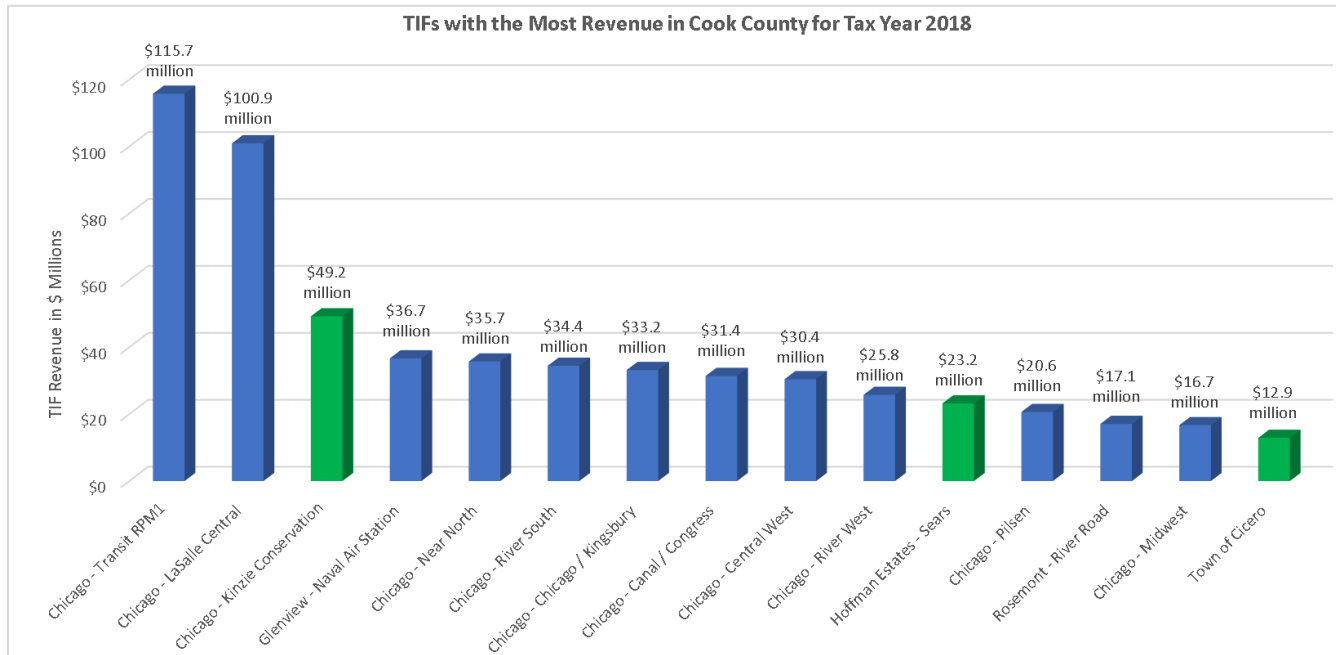

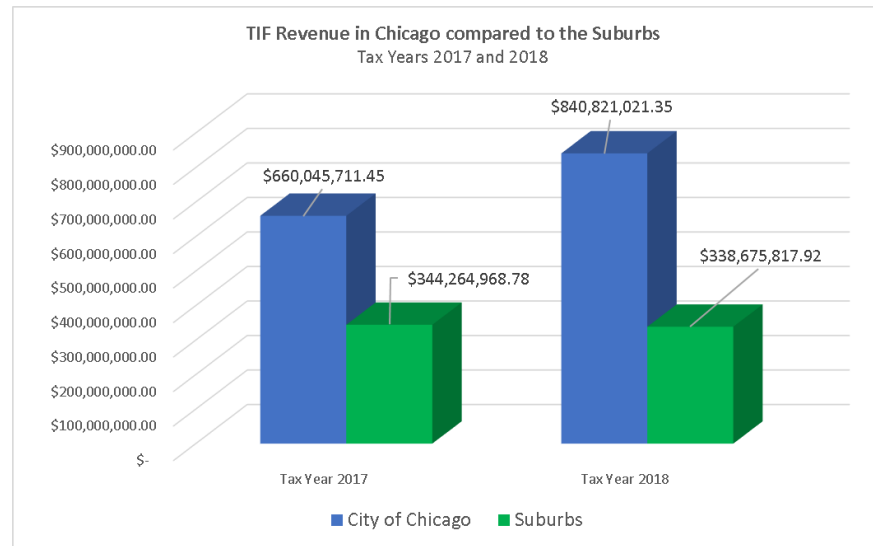

In the suburbs, 18 TIFs, including five new TIFs, have generated no revenue over their lifetimes.

Suburban TIFs with no lifetime revenue			
TIF NAME		First Year	Total TIF Revenue (All Years)
Bridgeview - 78th Ave TIF		2016	\$0.00
Brookfield - Congress Park TIF		2011	\$0.00
East Hazel Crest - Halsted St TIF		2016	\$0.00
Franklin Park - Centrella / Seymour TIF		2011	\$0.00
Glenwood - Town Center TIF		2011	\$0.00
Harvey - Dixie Hwy Corridor TIF		2013	\$0.00
Hodgkins - East Avenue TIF		2011	\$0.00
Homewood - East CBD TIF		2011	\$0.00
Lincolnwood - Lincoln / Touhy TIF		2011	\$0.00
Olympia Fields - Lincoln Hwy / Western Ave TIF		2010	\$0.00
Phoenix - 151st St/Wallace St TIF		2013	\$0.00
Phoenix - Northern Phoenix TIF		2014	\$0.00
Calumet City - River Oaks Mall TIF	<i>New 2018</i>	2018	\$0.00
Cicero - 1400 S. Laramie TIF	<i>New 2018</i>	2018	\$0.00
Niles - Milwaukee/Dempster TIF	<i>New 2018</i>	2018	\$0.00
Niles - Milwaukee/Harlem TIF	<i>New 2018</i>	2018	\$0.00
River Forest - North Ave TIF	<i>New 2018</i>	2018	\$0.00

Suburban TIFs experienced fluctuations this year, primarily due to increases or decreases in taxable value (equalized assessed value or EAV) growth or declines within their boundaries. For more information about individual suburban TIF revenue, see: [2018 Suburban TIF Summary](#).

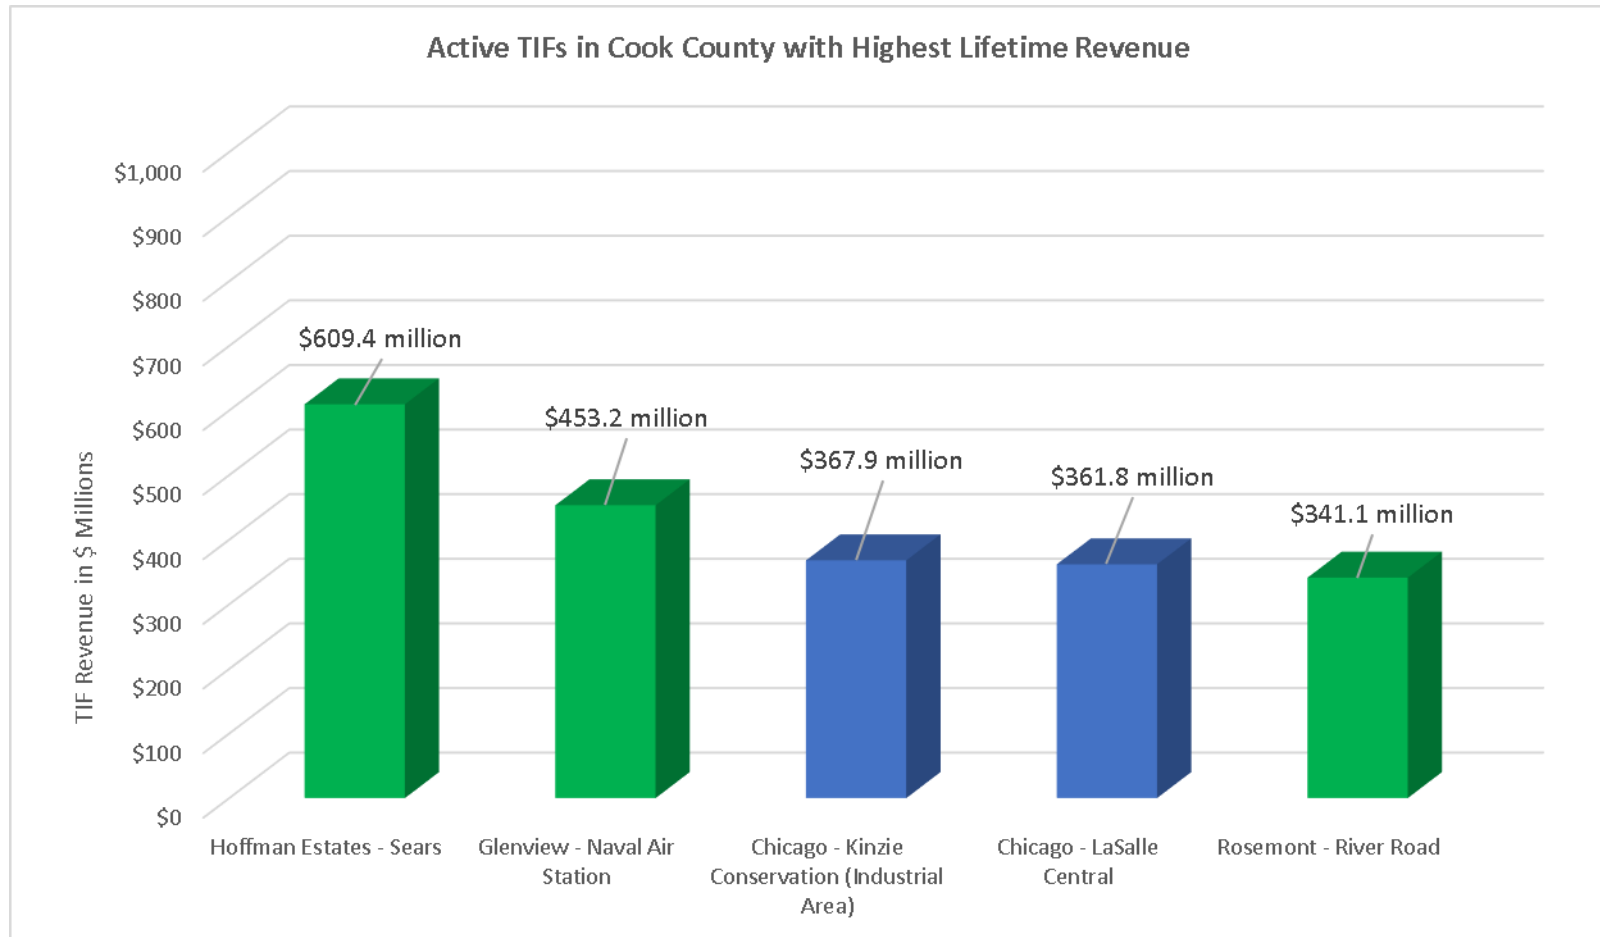

Suburban Cook County TIFs compared to the City of Chicago

TIFs in the City of Chicago generated the most revenue this year, but suburban TIFs account for three of the top 15 grossing TIFs for tax year 2018.

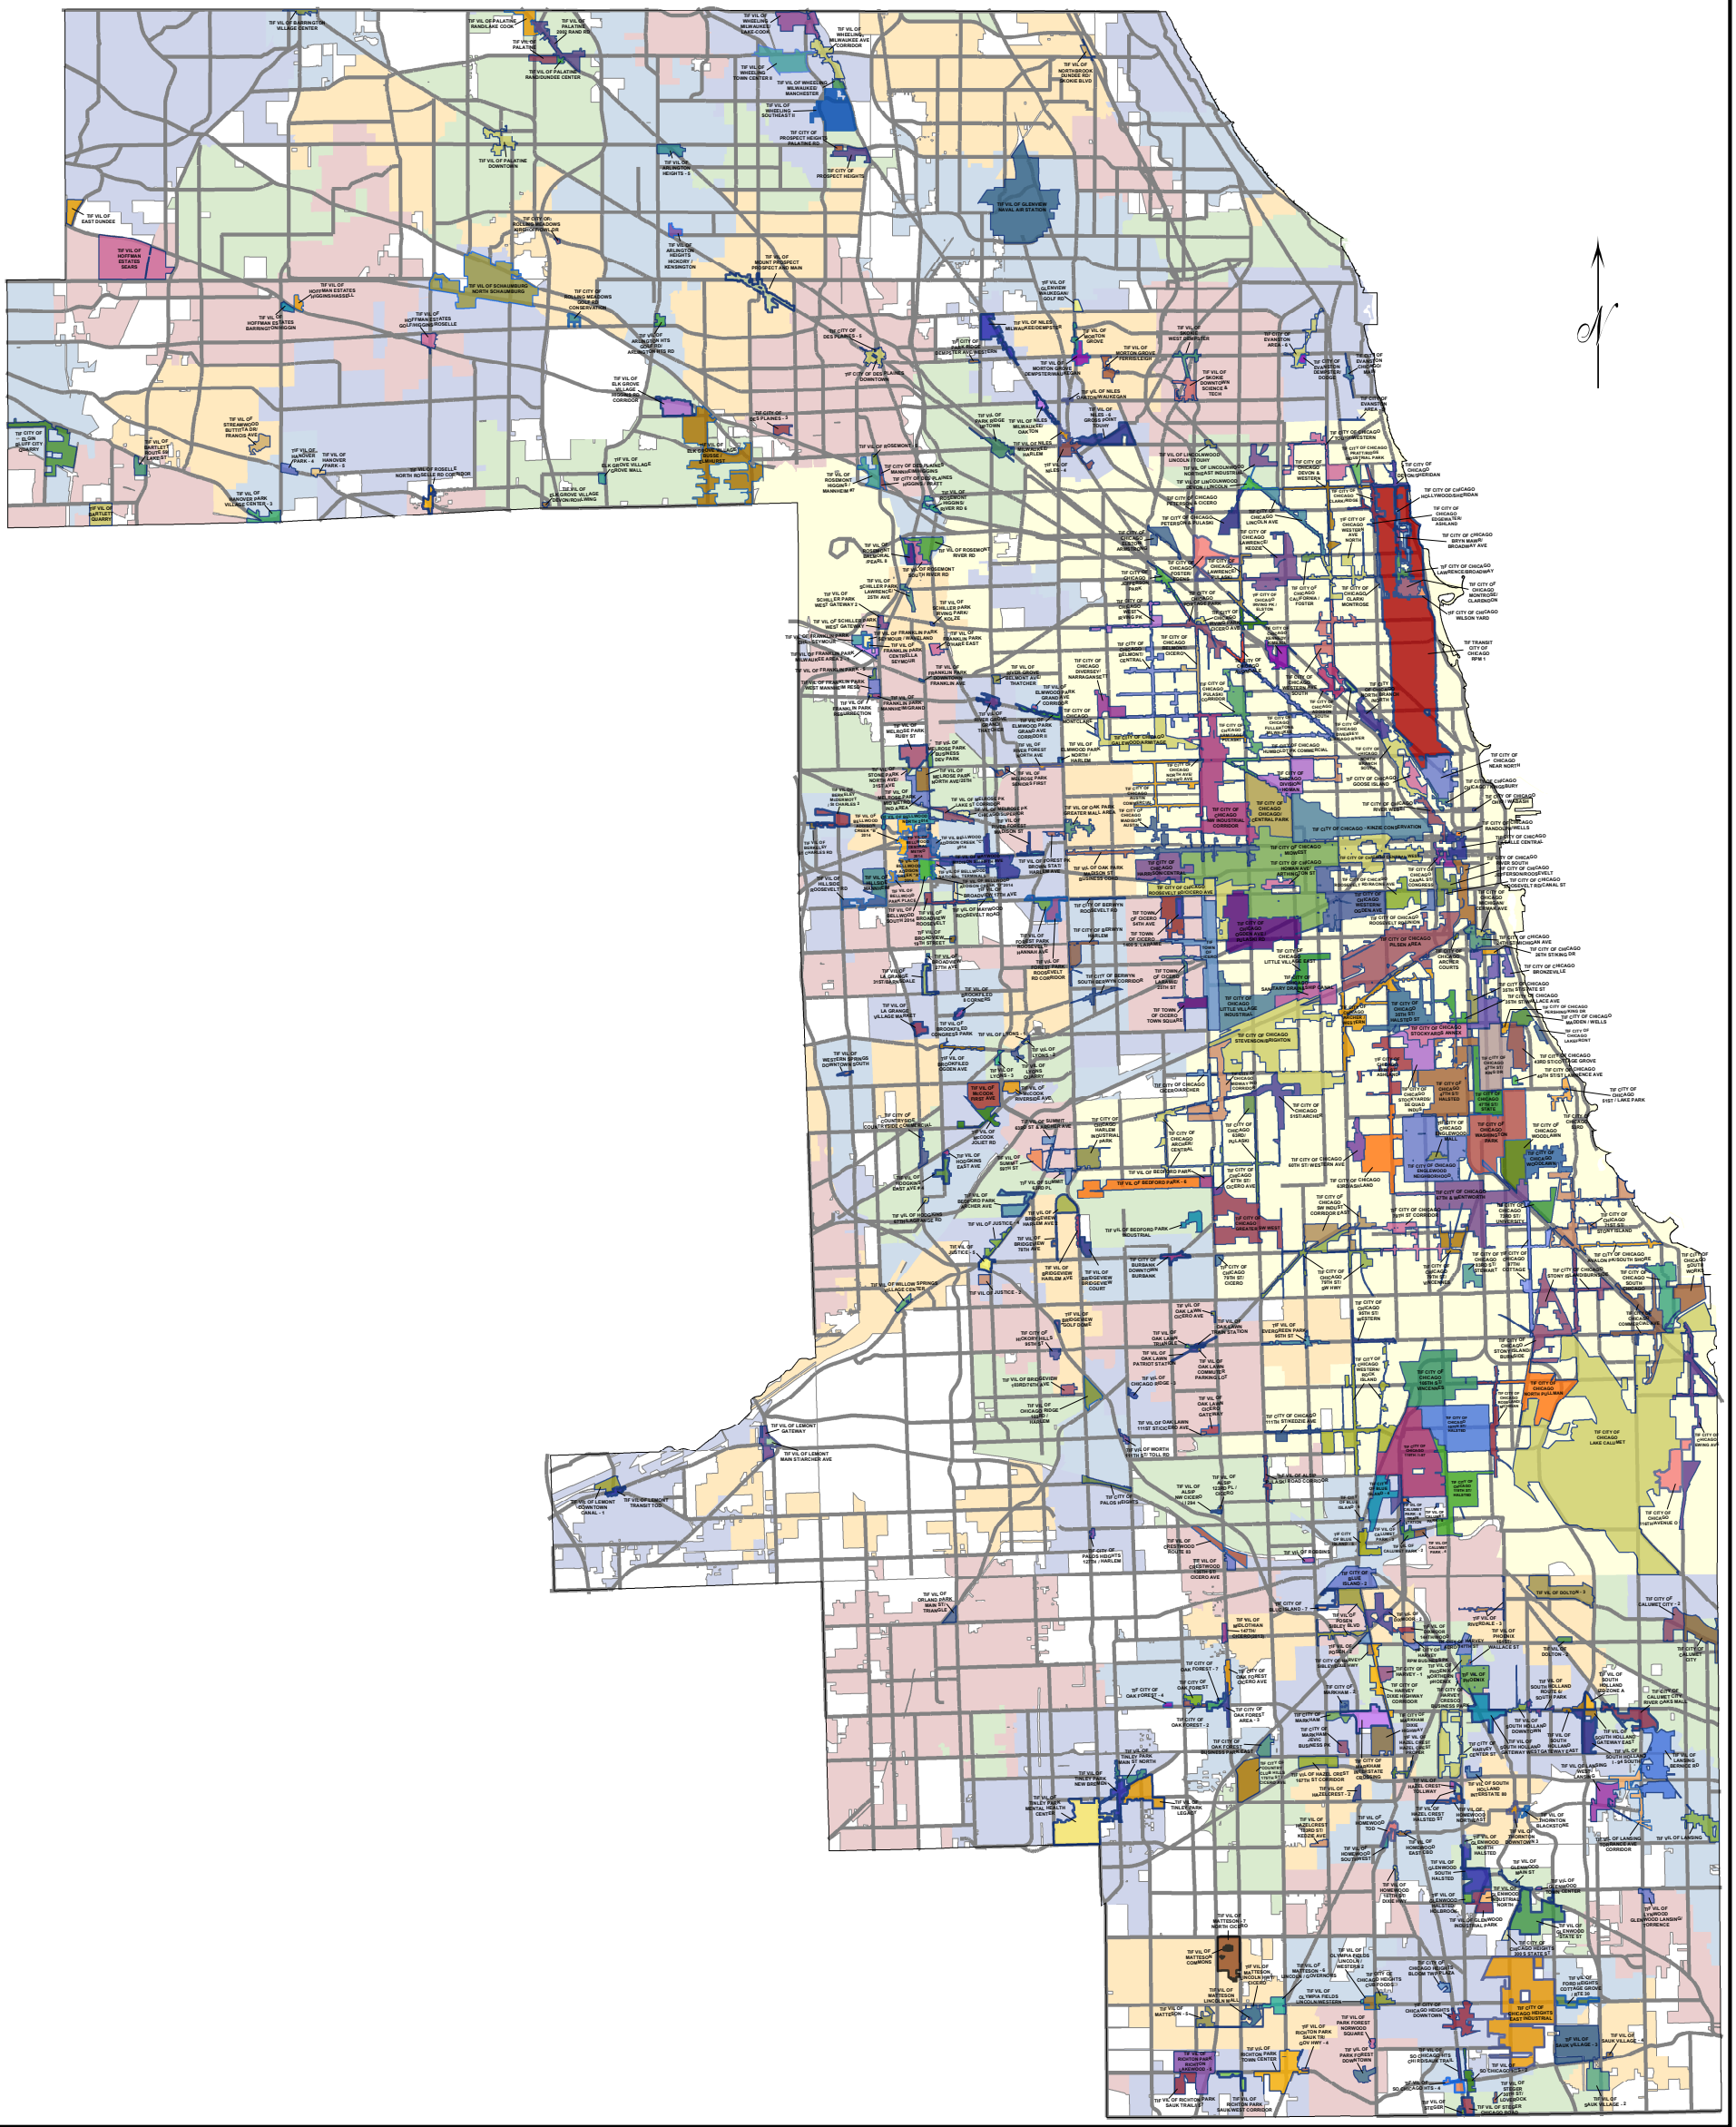

TIFs with the greatest lifetime revenue

Of the active TIFs in Cook County with the highest lifetime revenue, three of the five are in suburban Cook County. Hoffman Estates Sears TIF has generated the most revenue over its life, followed by Glenview Naval Air Station. The Rosemont – River Road is number five, after two Chicago TIFs: Kinzie Conservation and LaSalle Central.
