**For Immediate Release: August 19, 2021**

**2020 Cook County Tax Rates Released**  
*Second Installment Bills will be due October 1, 2021*

The 2020 property tax rates, calculated by the Cook County Clerk for more than 1,400 taxing agencies, were released today.

Cook County Clerk Karen A. Yarbrough said her office has been working with other government stakeholders in recent months to collect data and accurately calculate the 2020 rates included in today's nearly 80-page property tax rate report. The Clerk's Tax Extension Unit is responsible for calculating property tax rates for all local governments in Cook County that authorize the collection of revenue through real estate taxes.

"The work of calculating and publishing these tax rates is a massive effort and we have worked diligently with our government partners to publish these rates in a timely fashion based upon tax levies submitted by the county's taxing districts and the valuation of properties within those districts," said Yarbrough.

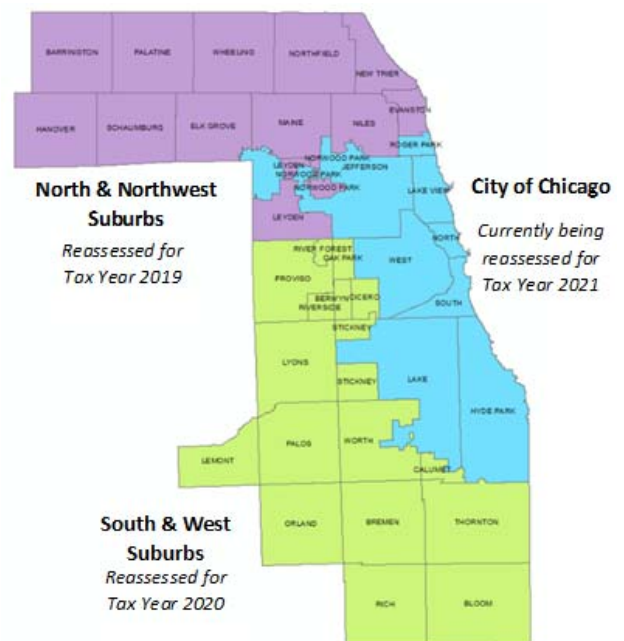

**Total Tax Billed Continues to Increase Year Over Year**

Once again, the total property tax billed for taxing districts in Cook County continues to steadily increase. Last year the total tax billed was \$15.6 billion, this year the total tax billed is over \$16.1 billion. This is a nearly 3.5% increase which is due to several factors such as assessed values, taxing district levies, and the state-issued equalization factor.

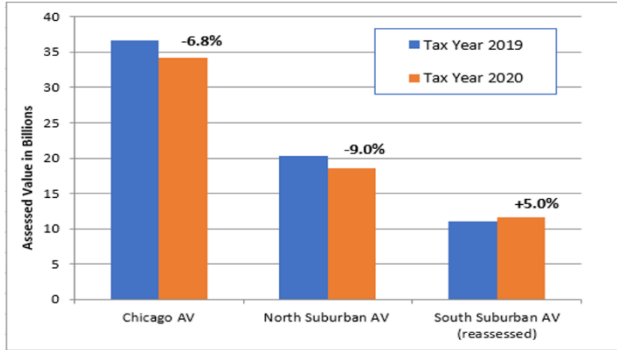

**2020 Re-Assessment & COVID-19 Adjustment**

Each year one-third of the County is fully reassessed by the Cook County Assessor's office. The south and western suburbs were reassessed for tax year 2020, the north and northwestern suburbs were reassessed for tax year 2019 and the City of Chicago is currently being reassessed for tax year 2021.

In addition to this normal reassessment, a COVID-19 adjustment was applied to the entire county this year. The COVID-19 adjustment was established by the Cook County Assessor to reduce the tax burden borne by taxpayers as a result of the pandemic and its economic effect. The extent of the adjustment was dependent upon the usage of the property and locations within Cook County. (For additional information refer to Cook County Assessor's COVID-19 Adjustment Reports: [www.cookcountyassessor.com/covid19](http://www.cookcountyassessor.com/covid19))

### Change in Total Assessed Value (AV) in Cook County by Region

This adjustment resulted in a reduction to the overall assessed value in the north and northwest suburbs and in the City of Chicago. However, the south and western suburbs experienced an overall increase in total assessed value which was tempered by the COVID-19 adjustment to residential and commercial properties.

### Comparative Property Tax Changes

Increases or reductions in assessed values do not necessarily mean increases or reductions in property taxes to individual properties. Changes in property taxes may be analyzed in many ways such as, but not limited to, by median, average, region or municipality.

In order to assess the changes impacting Cook County properties as a whole, the following examples utilize average estimated market values of Single-Family Dwellings and Commercial properties to evaluate possible property tax changes by region. (See page 3 for factors which may impact individual tax increases or decreases.)

**For a more granular examination of changes in median taxes and individual tax bill increases or decreases at local levels by property classification, see the Tax Year 2020 – Property Tax Bill Analysis prepared by the Cook County Treasurer. <https://www.cookcountytreasurer.com/pdfs/taxyear2020taxbillanalysis/taxyear2020analysis.pdf>**

### Property Tax Changes for Average Single-Family Dwellings by Region

South & West Suburbs	250,000	-3.50%	241,250	13.317%	11.822%	-11.23%	\$8,376.49	\$8,011.12	(\$365.37)	-4.36%

1. Percent change in total Assessed Value of residential properties by region; South & West suburbs were reassessed for tax year 2020; a COVID-19 assessment adjustment was applied countywide. Actual assessment increases or decreases will vary.
2. Chicago Average Tax Rate incl. Cook County, Forest Preserve, City of Chicago (incl. Library & Bldg. Funds) Board of Education, City Colleges, Chicago Park District, & Metropolitan Water. Suburban Average Tax rates = Total Tax in Region divided by Total Equalized Assessed Value (EAV) in Region. Actual rates within Regions will vary.
3. Sample Residential Tax Bill calculated as: Assessor-derived Market Value x 10% Assessment Level x Equalization Factor) minus Homeowner Exemption) x Tax Rate

The following table below examines possible property tax changes for sample commercial properties with the same estimated market value from tax year 2019 across three different regions. It illustrates the impact of the reassessment in the south and western suburbs, the countywide COVID-19 adjustment, and overall tax rate changes across each respective region.

### Property Tax Changes for Sample Commercial Property

Possible impact of changing Assessments and Rates on sample commercial properties which had an assessed value of \$500,000 in tax year 2019 in the three regions of Cook County.

	2019 Estimated Market Value (Reflecting Reassessment)	Overall % Change in Assessed Value of Commercial Properties <sup>1</sup>	2020 Estimated Market Value (Reflecting Reassessment & COVID Adjustment)	2019 Average Tax Rate <sup>2</sup>	2020 Average Tax Rate <sup>2</sup>	% Change in Average Tax Rate <sup>2</sup>	2019 Tax Bill of Sample Property <sup>3</sup>	2020 Tax Bill of Sample Property <sup>3</sup>	Tax Bill Change of Sample Property <sup>3</sup>	Tax Bill % Change of Sample Property <sup>3</sup>
City of Chicago	500,000	-6.00%	470,000	6.890%	6.911%	0.30%	\$25,070.13	\$26,175.38	\$1,105.25	4.41%
North & Northwest Suburbs	500,000	-8.70%	456,500	8.922%	9.048%	1.41%	\$32,463.27	\$33,284.93	\$821.66	2.53%
South & West Suburbs	500,000	4.30%	521,500	13.317%	11.822%	-11.23%	\$48,456.13	\$49,682.05	\$1,225.92	2.53%

1. Percent change in total Assessed Value of residential properties by region; South & West suburbs were reassessed for tax year 2020; a COVID-19 assessment adjustment was applied countywide. Actual assessment increases or decreases will vary.
2. Chicago Average Tax Rate incl. Cook County, Forest Preserve, City of Chicago (incl. Library & Bldg. Funds) Board of Education, City Colleges, Chicago Park District, & Metropolitan Water. Suburban Average Tax rates = Total Tax in Region divided by Total Equalized Assessed Value (EAV) in Region. Actual rates within Regions will vary.
3. Sample Commercial Tax Bill calculated as: (Assessor-derived Market Value x 25% Assessment Level x Equalization Factor) x Tax Rate

### Factors that Impact Property Tax Increases or Decreases

The tables above provide examples of average trends within Cook County. The average residential tax bill is likely to increase by less than 3% for tax year 2020 for some properties, while others may experience a larger increase. However, if individual assessed values and tax rates have both decreased, some properties may experience a property tax decrease.

With over 1,400 taxing districts servicing over 1.8 million properties of numerous classifications and values, there is a great deal of variability in individual tax bills and the respective changes taxpayers may experience compared to last year. This variability is based on a number of factors.

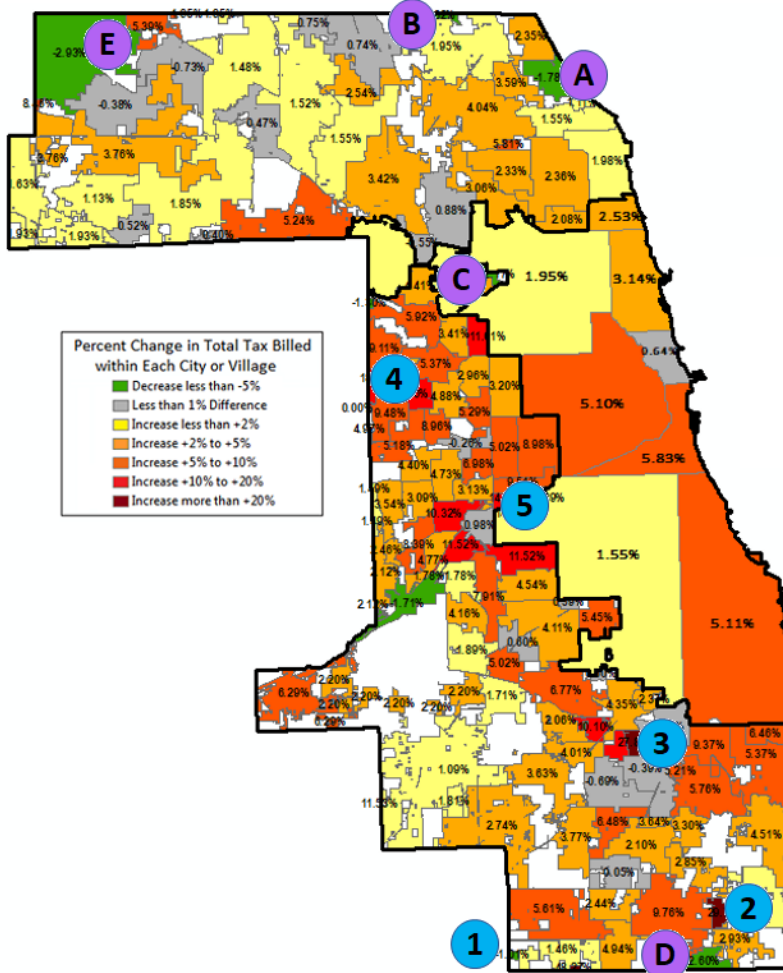

The four most impactful factors which affect whether or not individual property tax bills will increase or decrease are:

- The amount of property tax requested by the taxing districts (property tax levies)
- The change in the value of a property relative to other properties within the same districts (property assessment)
- The 10.5% increase in the state-issued equalization factor compared to the prior year (from 2.9160 for 2019 to 3.2234 for 2020)
- Property tax exemptions. (For example, if a property received a Homeowner Exemption one year, but did not receive it the following year, the final taxable value of that property could be up to 10,000 higher without the exemption.)

### Municipalities with Largest Increases and Decreases in Total Tax Billed

Below is a map of Cook County displaying the percentage increases or decreases in total property tax billed within each City or Village for tax year 2020. The five municipalities with the largest increases and decreases in total tax are listed in the corresponding table which indicates the variation that can occur in tax bills across the County and the City of Chicago.

Percent Change in Total Tax Billed by Municipality & Chicago Townships

	LOCATION	MUNICIPALITY	% Change in Total Tax Billed in 2020
1	FAR SOUTH	UNIVERSITY PARK	48.27%
2	FAR SOUTH	FORD HEIGHTS	29.79%
3	SOUTH	DIXMOOR	27.86%
4	WEST	BERKELEY	18.86%
5	WEST	FORESTVIEW	14.89%
A	NORTH	WINNETKA	-1.78%
B	NORTH	DEERFIELD	-1.82%
C	WEST	HARWOOD HEIGHTS	-2.17%
D	FAR SOUTH	STEGER	-2.60%
E	NORTHWEST	BARRINGTON HILLS	-2.93%

It is important to note that individual properties within each city, village, or township may experience property tax increases or decreases which do not align with the overall tax increase or decrease for that area. For example, not every property in the Village of Ford Heights will experience a property tax bill increase of 30%. In fact, 10% of the properties in Ford Heights have lower tax bills this year compared to last year.

## Equalized Assessed Values

Property assessments in Cook County are set by the Cook County Assessor and finalized by the Cook County Board of Review. These assessments are equalized using the Illinois Department of Revenue’s (IDOR) state equalization factor<sup>1</sup>.

As reported earlier, overall assessed values in the south and western suburbs, which were reassessed this year, increased. Assessed values in the north and northwest suburbs and in the City of Chicago decreased this year, due in part to the COVID-19 assessment adjustment. The countywide assessed value of all properties decreased by nearly 5% in 2020 compared to 2019.

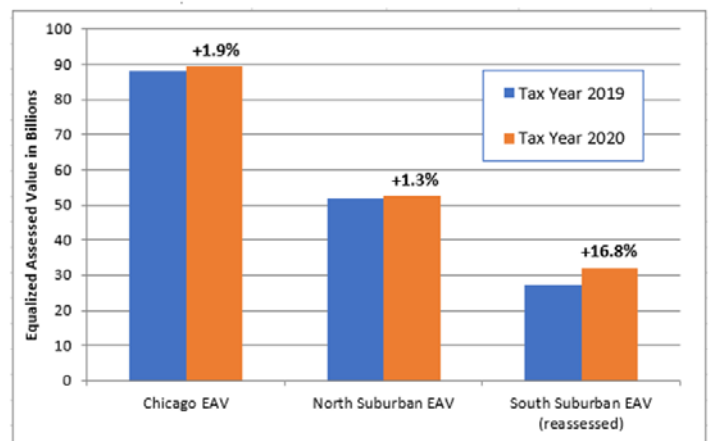

The overall reduction in assessed value in Cook County this year was offset by a 10.5% increase in the equalization factor set by the Illinois Department of Revenue which increased from 2.9160 in 2019 to 3.2234 in 2020. The 2020 equalization factor is the third highest on record and the highest factor since tax year 2010. This in turn impacted the overall taxable value (equalized assessed value or EAV) in Cook County, which increased by 4.16% this year.

The chart to the right reflects changes in equalized assessed values across Cook County. The largest changes this year are in the south and western suburbs which were impacted by the triennial reassessment for tax year 2020.

In the City of Chicago and the north and northwestern suburbs, where assessed values were reduced by the COVID-19 adjustment, the increased equalization factor resulted in moderate EAV growth.

However, EAVs in the south and western suburbs are up 16.8% overall. This increase is a combination of the larger state-issued equalization factor and increases in assessed values from the reassessment.

Change in Equalized Assessed Value (EAV) in Cook County by Region

## Calculation of Tax Rates

Determining property tax rates requires input from multiple county offices and all of the taxing districts in Cook County. A taxing district is a government body such as a school district, library or municipality which is authorized to receive funding from property taxes. Each district in Cook County submits a property tax levy to the County Clerk each year.

The County Clerk is responsible for calculating tax rates by dividing taxing district levies by the total taxable value (EAV) of all property within each district as determined by the Cook County Assessor and Board of Review. The tax rates of all districts that service a particular property are combined to create the composite tax rate for that property.

In simple terms, a tax rate is a taxing district’s property tax levy divided by taxable value within that district.

## Statutory Limits on Tax Increases

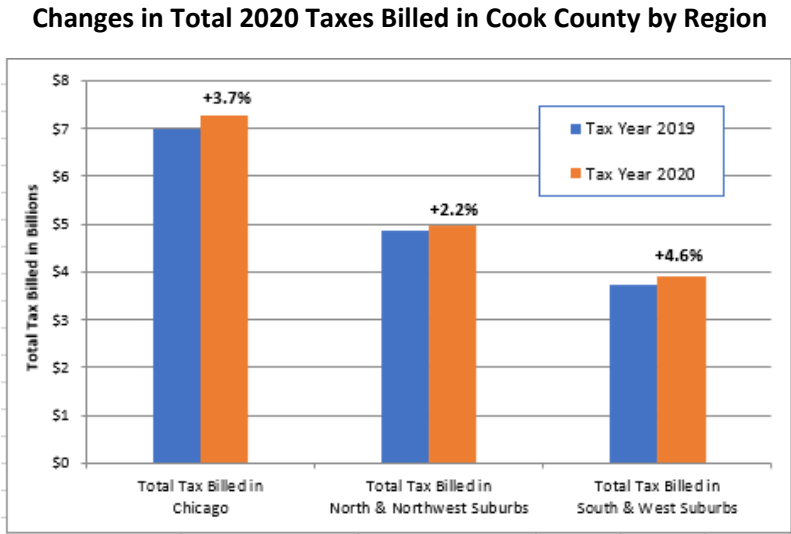

The Illinois Property Tax Extension Limitation Law (PTELL), also known as the “Tax Cap Law,” was put in place in the mid-1990s to prevent districts from increasing their property tax revenues by more than the rate of inflation. This year, districts

<sup>1</sup> To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate.

were limited to an increase of 2.3% (the 2020 Consumer Price Index). However, the Tax Cap Law does not apply to home rule districts, debt obligations, special purpose funds and value derived from new property or terminated Tax Increment Financing Districts (TIFs). Additionally, with voter approval, individual taxing districts may increase their property tax collects beyond what is otherwise allowed by the Tax Cap Law.

**Changes in Total Taxes by Region**

The total taxes billed in Cook County increased nearly 3.5% for tax year 2020 compared to 2019. The chart below reflects a breakdown of tax increases by region.

**Calculation of Tax Bills**

**Individual Residential Tax Bill Calculation**

Estimated Market Value	200,000	Assessed Value (AV)	20,000	Equalized Assessed Value	54,468
x Assessment Level	10%	x Equalization Factor	3.2234	x Tax Rate	6.911%
<hr/>		<hr/>		<hr/>	
Assessed Value (AV)	20,000		64,468	Tax Amount	\$3,764.28
		- Homeowner Exemption	10,000		
		Equalized Assessed Value	54,468		

## Overview of South and West Suburban Cook County

The south and west suburbs (south of North Avenue) were reassessed for tax year 2020. This region of the county has historically had lower property values. The smaller value base in this region results in higher tax rates than both the City of Chicago and the northern suburbs. (See the following pages for more information about these areas.)

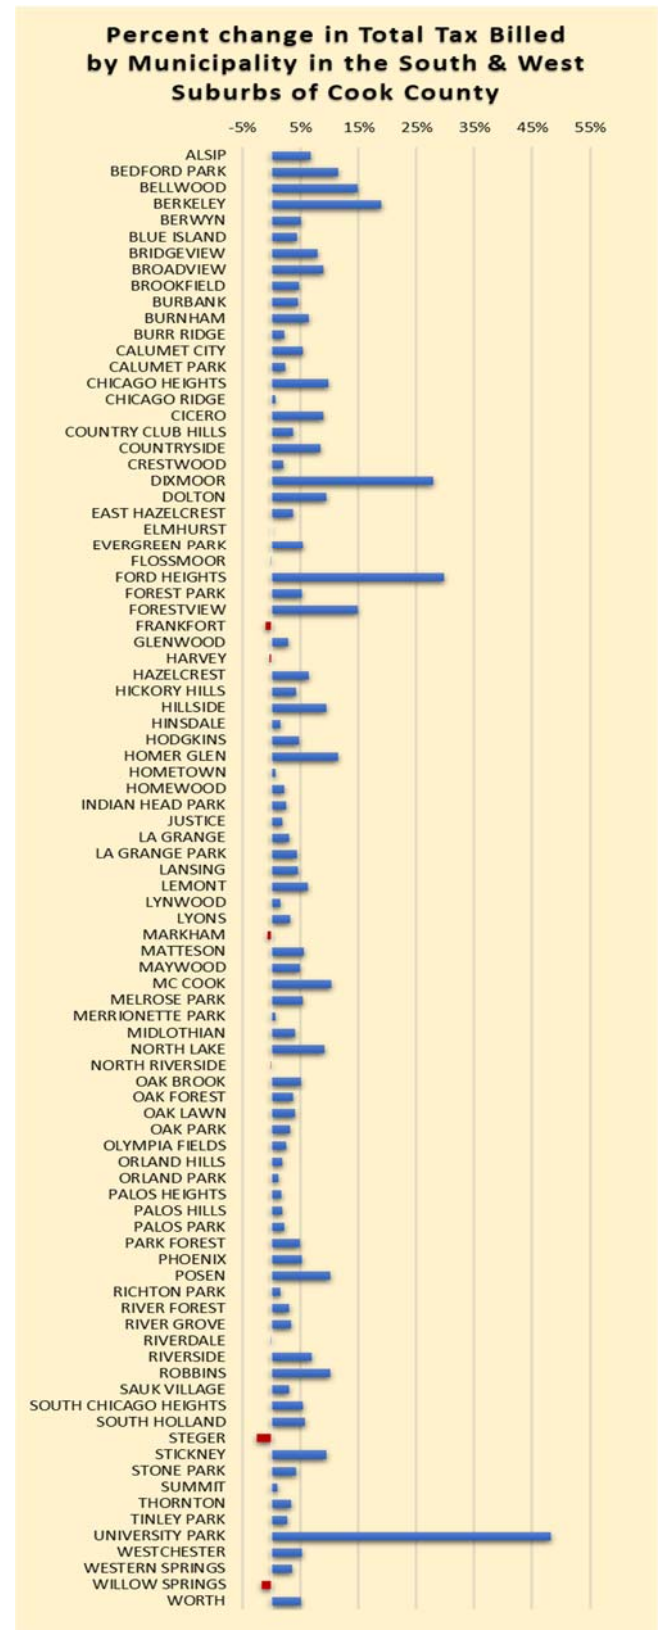

The combination of lower property values and higher tax rates do not necessarily result in higher or lower tax bills. (See FAQs for additional information.)

The total equalized assessed value (EAV) in the south and western suburbs grew nearly 17% this year due to a combination of the 2020 reassessment and a higher state-issued equalization factor. The increase in EAV means that the overall property tax burden in Cook County has shifted towards the south and western suburbs and away from the City of Chicago and the north and northwestern suburbs.

This does not necessarily mean that taxes will increase for individual taxpayers in this region. Typically, when EAVs increase, tax rates decrease, and vice versa. While EAVs have increased in this region, the overall tax rate (total tax divided by total EAV) has decreased by 11.2%. For individual property owners whose assessed values decreased or increased modestly, this could mean a reduction in property taxes this year.

The chart to the right reflects the percent change in total taxes billed in the south and west suburbs<sup>2</sup> which were reassessed for tax year 2020. Some districts experienced significant increases while others had more modest increases or even decreases in the total tax billed.

Where the overall tax rate in the south and west suburbs has decreased by 11.2%, there is a great deal of variability among the many taxing districts located in this region. For example, the tax rate for School District 87 decreased by 0.54% due to a 25.6% increase in the district's total levy. The levy increase is the result of a voter-approved a referendum in March 2020 which allowed the district to take out \$105 million in debt service bonds. These bonds will be paid by taxpayers in Bellwood, Berkeley, Hillside, Melrose Park, Northlake and Stone Park over the course of the next 20 years.

<sup>2</sup>Melrose Park, Northlake, and River Grove cross North Avenue, which is the boundary between the north/northwest assessment area and the south/west assessment area. The portions of these municipalities lying south of North Avenue were reassessed for tax year 2020.

This chart reflects taxing districts in which debt service increases were authorized by the voters.

District Name	Bond Amount Approved by voters	Municipality(s)
Village of Flossmoor	\$10,000,000	Flossmoor
Village of Riverside	\$1,500,000	Riverside
Village of Westchester	\$42,000,000	Westchester
School District 81	\$30,000,000	Franklin Park, Rosemont, Schiller Park
School District 87	\$105,000,000	Bellwood, Berkeley, Hillside, Melrose Park, Northlake, Stone Park
School District 94	\$20,800,000	Broadview, LaGrange Park, North Riverside
High School District 220	\$45,000,000	Bedford Park, Bridgeview, Burbank, Forestview

Additionally, voters in the Yorkfield Fire Protection District (unincorporated Proviso Township) approved a “Limiting Rate Increase” referendum in March 2020. This successful referendum allows the district to receive more property tax revenue than would otherwise have been authorized by the Tax Cap Law.

Through the Property Tax Relief program authorized by the State of Illinois, 21 school districts in the south and western suburbs were eligible to provide property tax relief to their constituents this year through a combination of grants and levy reductions.

SCHOOL DISTRICT NAME	REDUCTION IN TOTAL TAX
SCHOOL DISTRICT 92	\$381,574

<b>TOTAL PROPERTY TAX RELIEF REDUCTION IN SOUTH &amp; WEST SUBURBS</b>	<b>\$28,390,525</b>

## Overview of the City of Chicago

While the City of Chicago was not reassessed for tax year 2020, the Cook County Assessor applied a countywide COVID-19 adjustment for tax year 2020.

The total tax billed by the major taxing districts in the City of Chicago increased 2.25%, which is only slightly higher than the 1.93% increase in the total taxable value in the City of Chicago in 2020 compared to 2019. This results in the general composite tax rate in the City of Chicago remaining nearly flat in 2020 compared to 2019, increasing only 0.3% from 6.890% to 6.911% in 2020.

Individual properties in the City of Chicago with assessed value increases of less than 10.5% will typically experience reduced taxable values and lower tax bills, while those with increases of more than 10.5% will typically experience increased taxable values and higher tax bills.

## Overview of North and Northwestern Suburban Cook County

Like the City of Chicago, the north and northwestern suburbs were not reassessed for tax year 2020, however the Cook County Assessor applied a countywide COVID-19 adjustment for tax year 2020. The increase in the equalization factor offset the COVID-19 adjustment and contributed to a 1.3% increase in the overall taxable value (EAV) of this region. The total tax amount billed in this area increased 2.2%, and the overall tax rate for this region increased approximately 1.4%.

As occurs in the south and western suburbs, tax rates differ in the various southern suburbs due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will experience larger or smaller tax changes depending on the taxing districts associated with those areas. Additionally, taxpayers within the same suburb may pay different rates based on the specific taxing districts which provide their services.

Taxing districts may increase their levies more than would otherwise be allowed by the Tax Cap law by submitting the question to voters through a direct referendum. Below is a chart of taxing districts in which debt service bond increases were authorized by the voters in the north and northwest suburbs.

District Name	Bond Amount Approved by voters	Municipality(s)
School District 34	\$119,000,000	Glenview, Golf, Northfield
School District 78	\$40,000,000	Skokie
Unit School District 220	\$147,000,000	Barrington, Barrington Hills, Deer Park, Hoffman Estates, Inverness, So. Barrington
Unit School District 401	\$55,000,000	Elmwood Park, River Grove

Voters in Morton Grove Park District and the Gail Borden Library District (Bartlett, Elgin, Hoffman Estates, and Streamwood) also approved "Limiting Rate Increase" referenda in March 2020.

Two school districts in the northern suburbs were eligible to provide property tax relief to their constituents through the Property Tax Relief Grant program this year.

SCHOOL DISTRICT NAME	REDUCTION IN TOTAL TAX
SCHOOL DISTRICT 73 1/2	\$807,350
SCHOOL DISTRICT 84	\$1,222,566
<b>TOTAL PROPERTY TAX RELIEF REDUCTION IN NORTH &amp; NORTHWEST SUBURBS</b>	<b>\$2,029,916</b>

## Summation

- This report has presented the general trends occurring in Cook County. Each tax bill will vary depending on specific circumstances including taxing district levies, individual assessments and other factors.
- The total tax amount billed in Cook County has increased by nearly 3.5%, exceeding \$16.1 billion for tax year 2020.
- The overall taxable value (EAV) in Cook County has increased by 4.2% for tax year 2020 compared to 2019.
- A countywide COVID-19 assessment adjustment reduced assessed values (AVs) in Chicago and in the north/northwest suburbs. Overall AVs in the south/western suburbs have increased despite this adjustment due to the triennial reassessment.
- The state-issued Equalization Factor increased by 10.5% from 2.9160 in 2019 to 3.2234 in 2020. This factor is the third highest on record and the highest since tax year 2010. An increased Equalization factor offsets AV reductions and amplifies AV increases.
- Tax rates are generally lower in the south/western suburbs and are mostly flat or up slightly in Chicago and the north/northwestern suburbs.
- Increased EAVs coupled with lower rates will likely result in a 3% increase in average south/western suburban residential property tax bills. Individual tax bill changes will vary.
- The 2020 second installment property tax bills are currently payable online. Tax bills will be mailed later this month and will be due by October 1, 2021.

###

## Definitions of Property Tax Terms

**Assessed Value (AV):** The fair market value, determined by the county assessor, multiplied by the assessment level for a class of property (ie. residential, commercial, industrial, etc).

**Composite Tax Rate:** The sum of the tax rates of all the taxing districts (municipality, school district, park district, etc.) which service an individual property.

**Equalization Factor:** A factor, established by the Illinois Department of Revenue, used to bring the aggregate value of assessments within Cook County to 33 1/3% of the estimated actual fair market value of all real property in Cook County. This factor, also called the "multiplier" or "equalizer," is calculated by the state each year.

**Equalized Assessed Value (EAV):** The assessed valuation of each property multiplied by the equalization factor, less applicable exemptions. This is also known as the Taxable Value.

**Exemptions:** For properties and taxpayers who meet certain criteria, all or a portion of qualifying property values may be excepted from taxation under Illinois law. For residential property, a portion of taxable value will be excepted, such as with the homeowner or senior exemptions, if the taxpayer meets statutory requirements.

**Home Rule:** Home rule units of government are those counties and municipalities which have met statutory requirements to exercise any power and perform any function unless it is specifically prohibited from doing so by state law. Home rule districts are not subject to tax rate limitations of the Property Tax Extension Limitation Law (PTELL).

**Tax Cap Law / Property Tax Extension Limitation Law (PTELL):** A law which allows a taxing district to receive a limited increase in the property tax extension on existing property within that taxing district, plus an additional amount for new construction. It limits increases in property tax revenue by the rate of inflation.

**Tax Extension:** "Tax Extension" refers to both 1) the amount of property tax to be billed for a taxing district and 2) the process of calculating the tax rate required to obtain the billable amount when applied to all taxable value within the district.

**Tax Levy:** A taxing district's request for revenue to be obtained from property taxes for a given tax year.

**Tax Rate:** The tax levy of a district divided by the total equalized assessed value (EAV) of that district, subject to statutory limitations.

**Taxable Value:** See Equalized Assessed Value (EAV).

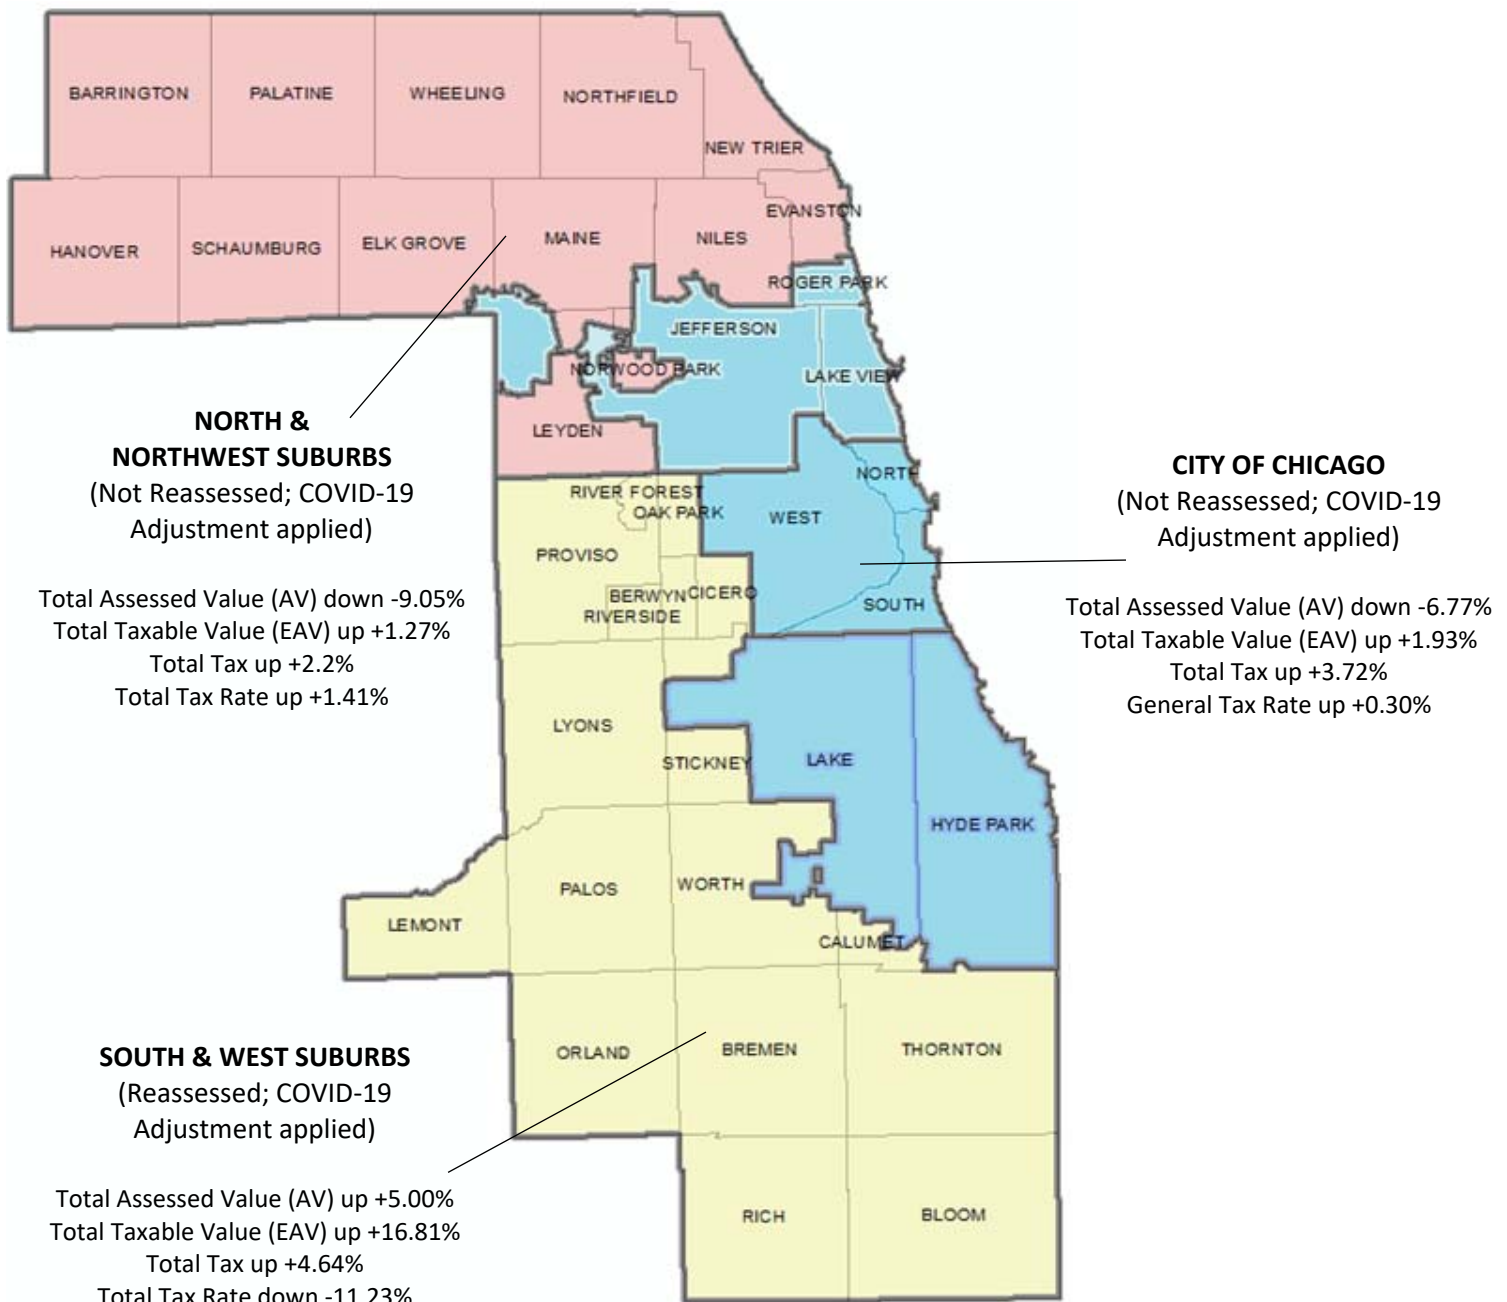

## Understanding the Tax Impact in Your Region

Property tax bills are primarily affected by taxing district levies, equalized assessed values (EAVs), and the state-issued equalization factor. Properties located in different regions of the county saw different tax impacts this year.

A COVID-19 adjustment was applied to properties in all three regions of the county. Additionally, property values in the south and western suburbs were reexamined as part of the triennial assessment (every three years).

The state-issued equalization factor increased 10.5% this year (up from 2.9160 in 2019 to 3.2234 in 2020). This increase in the equalization factor offsets decreases due to the COVID-19 adjustment and the south/western suburban reassessment, and amplifies any increases due to the reassessment.

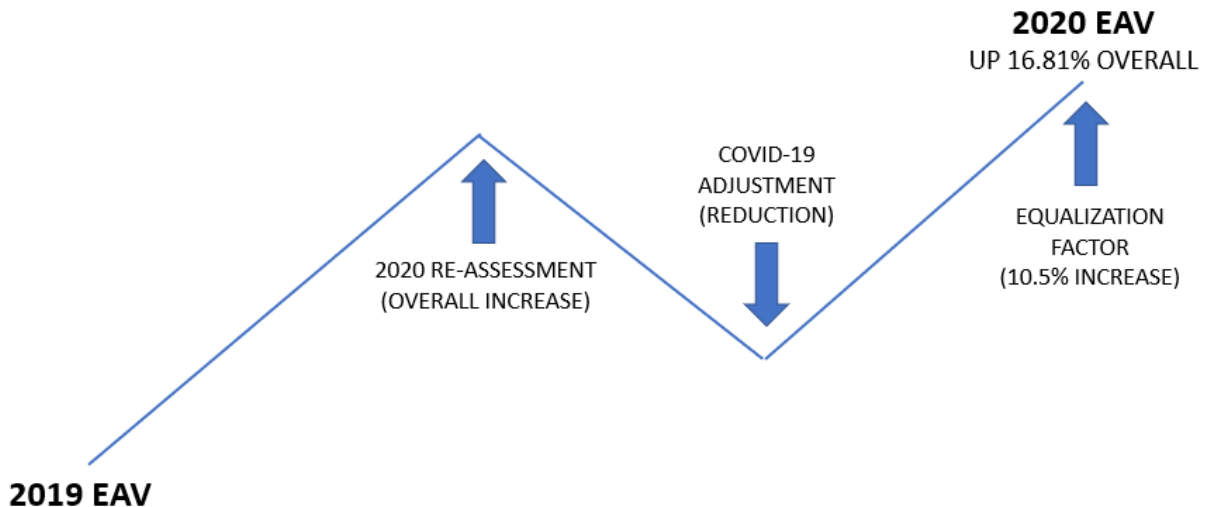

The map below shows the three triennial reassessment areas in Cook County. Increases in assessed values (AVs) equalized assessed values (EAVs), total taxes billed, and total tax rates<sup>1</sup> are displayed.

<sup>1</sup> Total tax rate for each area = total tax billed / total EAV

## The impact in the South and West Suburbs

The south and western suburbs were reassessed for tax year 2020. The combination of the 2020 COVID-19 adjustment which reduced individual assessed values, the reassessment which, for the most part, increased assessed values, and the 10.5% increase in the equalization factor combined for an overall increase in taxable value (EAV) of 16.81%.

Tax rates have an inverse relationship with taxing district equalized assessed values (EAVs). Increased taxable values generally correlate to lower tax rates.

The total tax amount billed in the southern region increased +4.64% in the south and west suburbs.

Tax rates and amounts in the south and west suburbs vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will experience larger or smaller tax increases depending on the taxing districts associated with those areas.

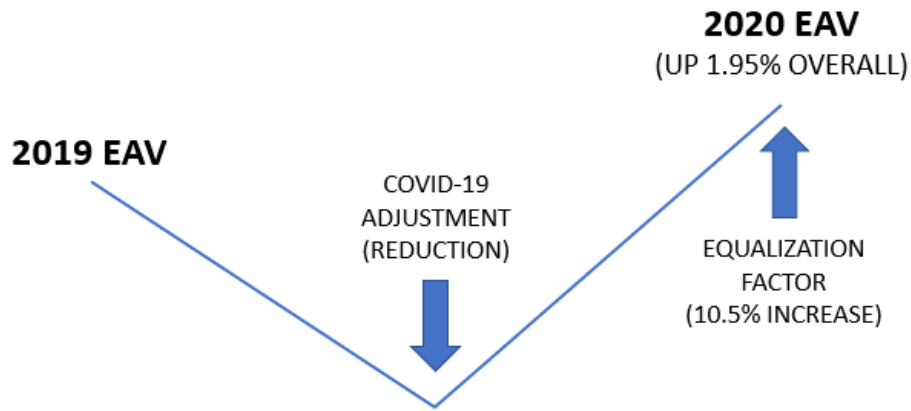

The overall tax rate in the south and western suburbs, the total tax divided by the total taxable value, decreased -11.23% this year.

Because taxable values (EAVs) increased more overall than rates decreased, many south and western suburban taxpayers are likely to experience higher tax bills.

For individual taxpayers whose reassessed value decreased for 2020 compared to tax year 2019, a lower taxable value coupled with lower tax rates could actually mean lower tax bills for those taxpayers.

## The impact in Chicago

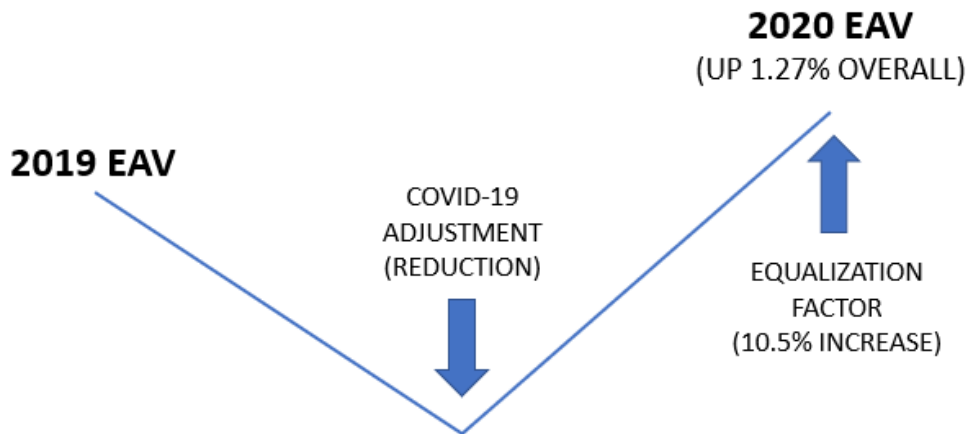

Taxable value in the City of Chicago is up +1.93% overall. This increase is due to a combination of assessed value reductions from the COVID-19 adjustment and the 10.5% increase in the equalization factor.

The general tax rate for most taxpayers in the City of Chicago remained nearly flat, increasing 0.30% from 6.890% in 2019 to 6.911% in 2020. A small increase in taxable value coupled with a flat tax rate, is likely to equate to a small tax increase for some Chicago taxpayers.

### The impact in the North and Northwestern Suburbs

The total taxable value (EAV) in the north and northwestern suburbs of Cook County increased 1.27% for tax year 2020, primarily due to the COVID-19 adjustment and the increase in the equalization factor.

The overall tax rate for in the northern region of Cook County increased 1.41% in 2020. A slight increase in taxable value coupled with a small increase in tax rates is likely to result in small increases in northern tax bills. However, it is important to note that rates in the north and northwestern suburbs, like those in the south and western suburbs, vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services. Specific areas will experience larger or smaller tax increases depending on the taxing districts associated with those areas.

# 2020 Property Tax Frequently Asked Questions

## Are my property taxes increasing?

Overall Cook County property taxes are increasing. However, Individual tax bills may vary since property taxes are impacted by various factors. How much they change is contingent upon how much your individual property value changed compared to prior year and how much the respective district's tax levies increased that service your property.

Below is a quick reference of single-family property changes by Suburbs and the City of Chicago.

### South & West Suburban Cook County (Reassessed)

- **+3.0% increase in property tax for average<sup>1</sup> single-family dwelling**

### City of Chicago

- **+0.7% increase in property tax for average single-family dwelling (North Chicago)**
- **+2.7% increase in property tax for average single-family dwelling (Central Chicago)**
- **+0.2% increase in property tax for average single-family dwelling (South Chicago)**

### North & Northwest Suburban Cook County

- **+0.02% increase in property tax for average single-family dwelling**

The comparative analysis above uses average estimated market values of Single-Family Dwellings and Commercial properties to evaluate possible property tax changes by region.

***For a detailed examination of changes in median and individual tax bill changes at local levels, and for analysis by property classification, see the Tax Year 2020 – Property Tax Bill Analysis prepared by the Cook County Treasurer.***

***<https://www.cookcountytreasurer.com/pdfs/taxyear2020taxbillanalysis/taxyear2020analysis.pdf>***

## How does the triennial assessment of property impact tax bills?

Changes in property values due to reassessment may impact tax rates. However, impact to individual property taxes may vary.

Pursuant to state law, the Assessor reassesses property in one of three geographic regions in the County every three years (triennial assessment). For tax year 2020, the south and west suburbs were reassessed. In 2019, the north and northwestern suburbs were reassessed, and the City of Chicago is scheduled for reassessment for tax year 2021.

***\*Note: When assessed values increase and a levy remains static, the tax rate will decrease. A tax bill is a product of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.***

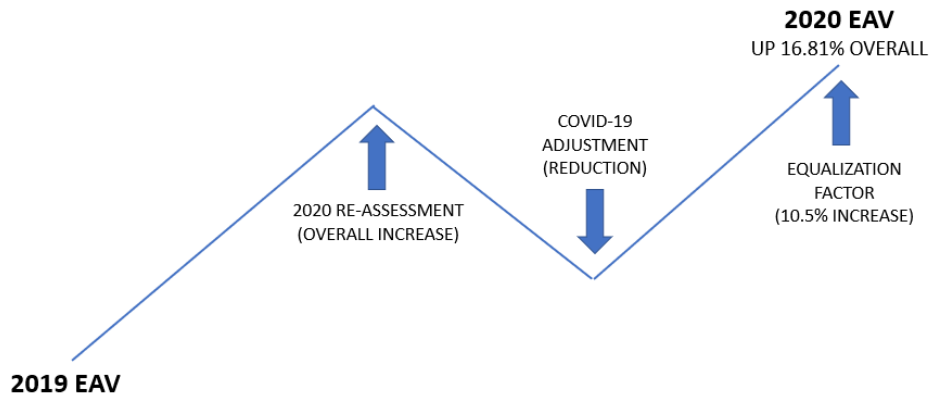

---

<sup>1</sup> Average Estimated Market Value based on Average Assessed Value for single family residences divided by level of assessment.

## How does the COVID-19 adjustment impact taxable values?

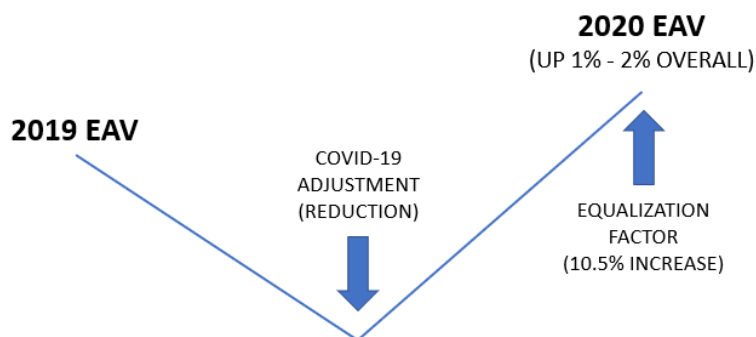

A COVID-19 adjustment was applied to many properties in Cook County for the 2020 tax year. This adjustment reduced the assessable value of properties in all three regions. However, due to the 10.5% increase in the state-issued equalization factor, this does not necessarily equate to a lower taxable value (EAV) for all properties. (For more information on the COVID-19 adjustment visit <https://cookcountyassessor.com>.)

In the south and west suburbs, which were reassessed, the overall taxable value increased by 16.81%.

This results in individual properties with assessed value increases of less than 10.5% experiencing reduced taxable values, while those with increases of more than 10.5% experiencing increased taxable values.

In the City of Chicago, and in the north and northwest suburbs, the overall taxable value increased less than 2%.

## How do Property Tax Exemptions affect my taxes?

Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Exemptions lower tax bills by reducing the equalized assessed value of your property. The three most common exemptions are:

- Homeowner Exemption: An EAV reduction of \$10,000
- Senior Citizen Exemption: An EAV reduction of \$8,000
- Senior Freeze Exemption: EAV “frozen” for homeowners with a maximum income of \$65,000

(For more information on the Property Tax Exemptions visit <https://cookcountyassessor.com>.)

## Where are the highest average tax rates in Cook County?

- Village of Park Forest has the highest average composite rate of 35.469%
- Village of Phoenix has the 2<sup>nd</sup> highest average composite rate of 28.159%
- Village of Ford Heights has the 3<sup>rd</sup> highest average composite rate of 27.943%

## What is the Equalization Factor?

The state-issued equalization factors for Cook County for 2019 and 2020 respectively were 2.9160 and 3.2234.

Other counties in Illinois assess all properties at 33 1/3 percent of fair market value. However, the assessment levels in Cook County are set by ordinance and based upon the property classification (i.e., 10% for residential properties, 25% for commercial properties, etc.). To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the equalization factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate.

This year, the state-issued equalization factor increased by 10.5%. Increases in the equalizer will counterbalance decreases in assessed values and will apply assessed value increases.

## Where are the lowest average tax rates in Cook County?

- Village of Burr Ridge has the lowest average composite rate of 6.545%
- Village of Hinsdale has the 2<sup>nd</sup> lowest average composite rate of 6.755%
- Village of Glenview has the 3<sup>rd</sup> lowest average composite rate of 6.946%

**Note: The City of Chicago’s general tax rate is 6.911% for tax year 2020.**

## Does a high tax rate mean I’ll have a high tax bill?

Not necessarily, although the tax rate matters, there are several factors which impact an individual tax bill.

The tax rate is driven by the overall assessed value in a taxing district, the state-issued equalization factor, and the district’s tax levy request. Individual tax bills are calculated by applying the composite tax rate (the combined rates of all taxing districts servicing that property) to the property’s taxable value (EAV).

Therefore, it is possible that a property with a high tax rate, but a low taxable value may result in a lower bill than a property with a low tax rate but a high taxable value.

Example\*:

<b>Market Value:</b>	<b>\$100,000</b>	<b>Market Value:</b>	<b>\$300,000</b>
2020 EAV:	\$22,234	2020 EAV:	\$86,702
x Tax Rate	20%	x Tax Rate	7%
<b>Tax Amount:</b>	<b>\$4,447</b>	<b>Tax Amount:</b>	<b>\$6,069</b>

***\*Factors to Consider: Residential property is assessed at 10% of Market Value, equalized by a factor of 3.2234 and reduced for a homeowner exemption of \$10,000.***

## How does a Chicago tax bill compare to a suburban tax bill for similar properties?

The City of Chicago, with its large commercial and industrial value base, has a relatively low tax rate compared to other municipalities in Cook County. Some North Suburban and West Suburban municipalities have lower tax rates than the City of Chicago, but the average tax rates in the suburbs are still higher than in Chicago. A city or village with a more modest tax base will tend to have a higher tax rate.

\*Sample 2020 property tax bill for homes with the same market value (\$250,000) in the three areas:

- City of Chicago: \$4,449
- North & Northwest suburbs: \$5,643
- South & West suburbs: \$8,011

***\*Because suburban property values and tax rates vary widely, the tax amounts in these regions also vary. Using this same example comparing it to DuPage County; According to the DuPage County 2020 Property Tax Rate Book, the average tax rate in DuPage County this year is 7.3825%. This rate would generate a tax bill of \$5,709 for a \$250,000 market value home in DuPage County using the assessment, equalization, and exemption methodology applicable in DuPage County.***

## Are my taxes as low as they could be?

As referenced above, Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Taxpayers should review their tax bill and determine whether the appropriate exemptions were applied. If you have questions about property tax exemptions, please contact the Cook County Assessor's Office at [cookcountyassessor.com](http://cookcountyassessor.com) to learn more.

Though the time for filing 2020 assessment appeals has passed, you can find out information about appealing your property's assessment for 2021 at the Cook County Assessor's Office and the Cook County Board of Review at [cookcountyboardofreview.com](http://cookcountyboardofreview.com).

## Property Tax Snap Shot

### Tax Year 2020 Compared to Tax Year 2019

	2020	2019	Difference
<b>Equalization Factor:</b>	3.2234	2.9160	10.54%
<b>Cook County EAV:</b>	\$173,853,469,818	\$166,917,611,547	4.16%

# Distribution of Tax Dollars to Taxing Districts in the City of Chicago

## Where do taxes go in the City of Chicago?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an illustration of how tax dollars were distributed to taxing districts in the City of Chicago last year (Tax Year 2019) compared to this year (Tax Year 2020) for a typical\* Chicago taxpayer. A majority of the typical tax bill goes to the Chicago Board of Education.

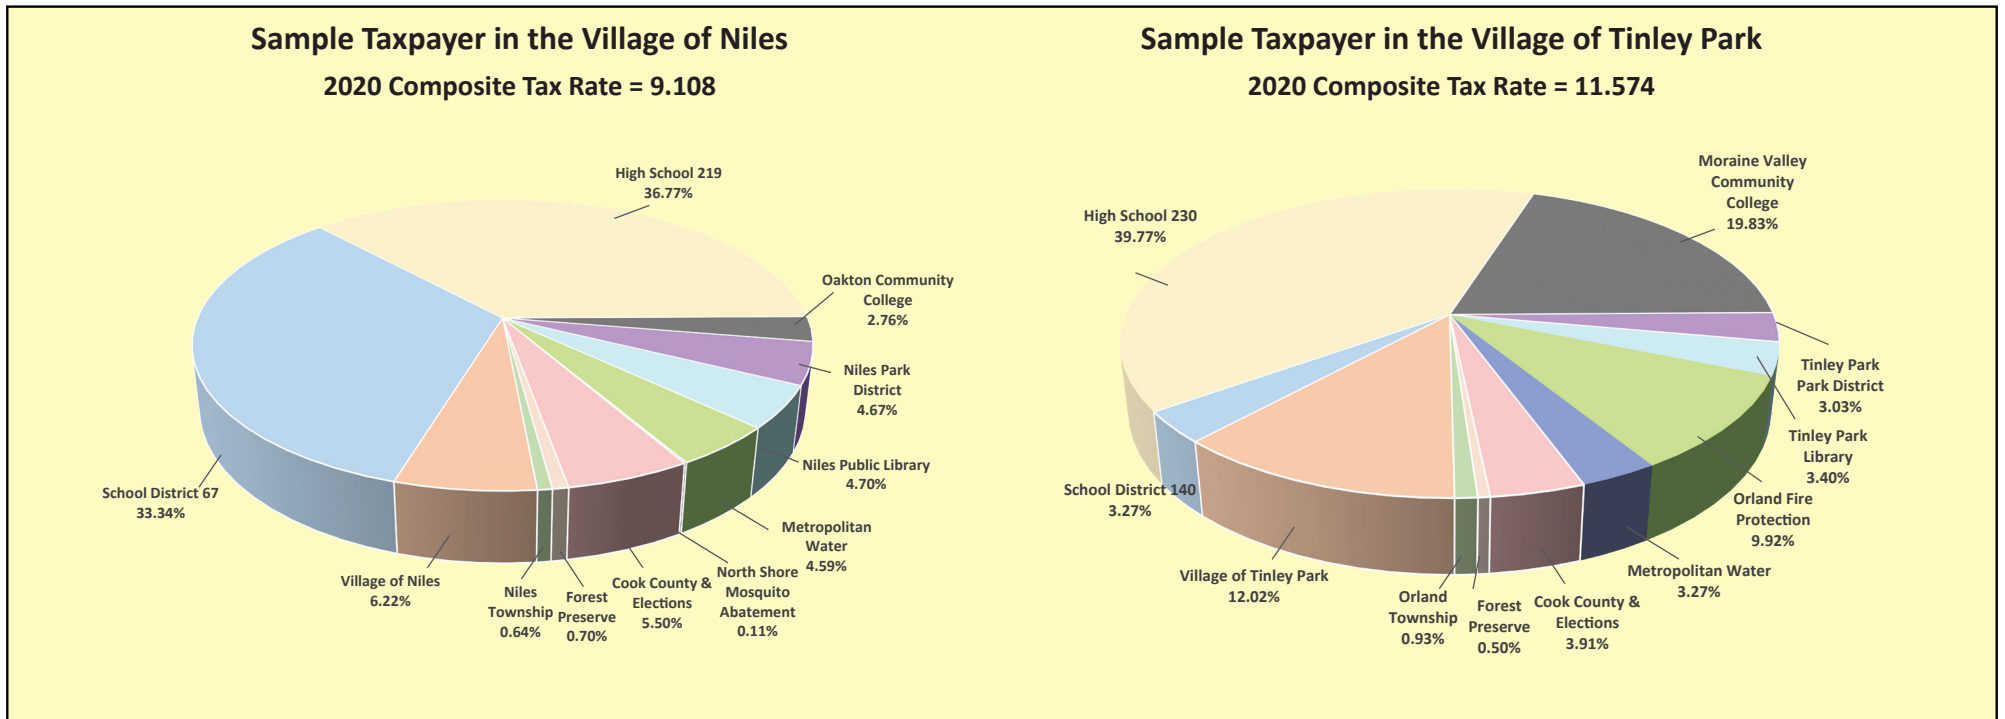

*\*Typical Chicago taxpayers are those who do not pay a portion of their tax bills to special districts which provide services such as mosquito abatement or home equity assurance of other special purposes.*

# Distribution of Tax Dollars to Taxing Districts in Suburban Cook County

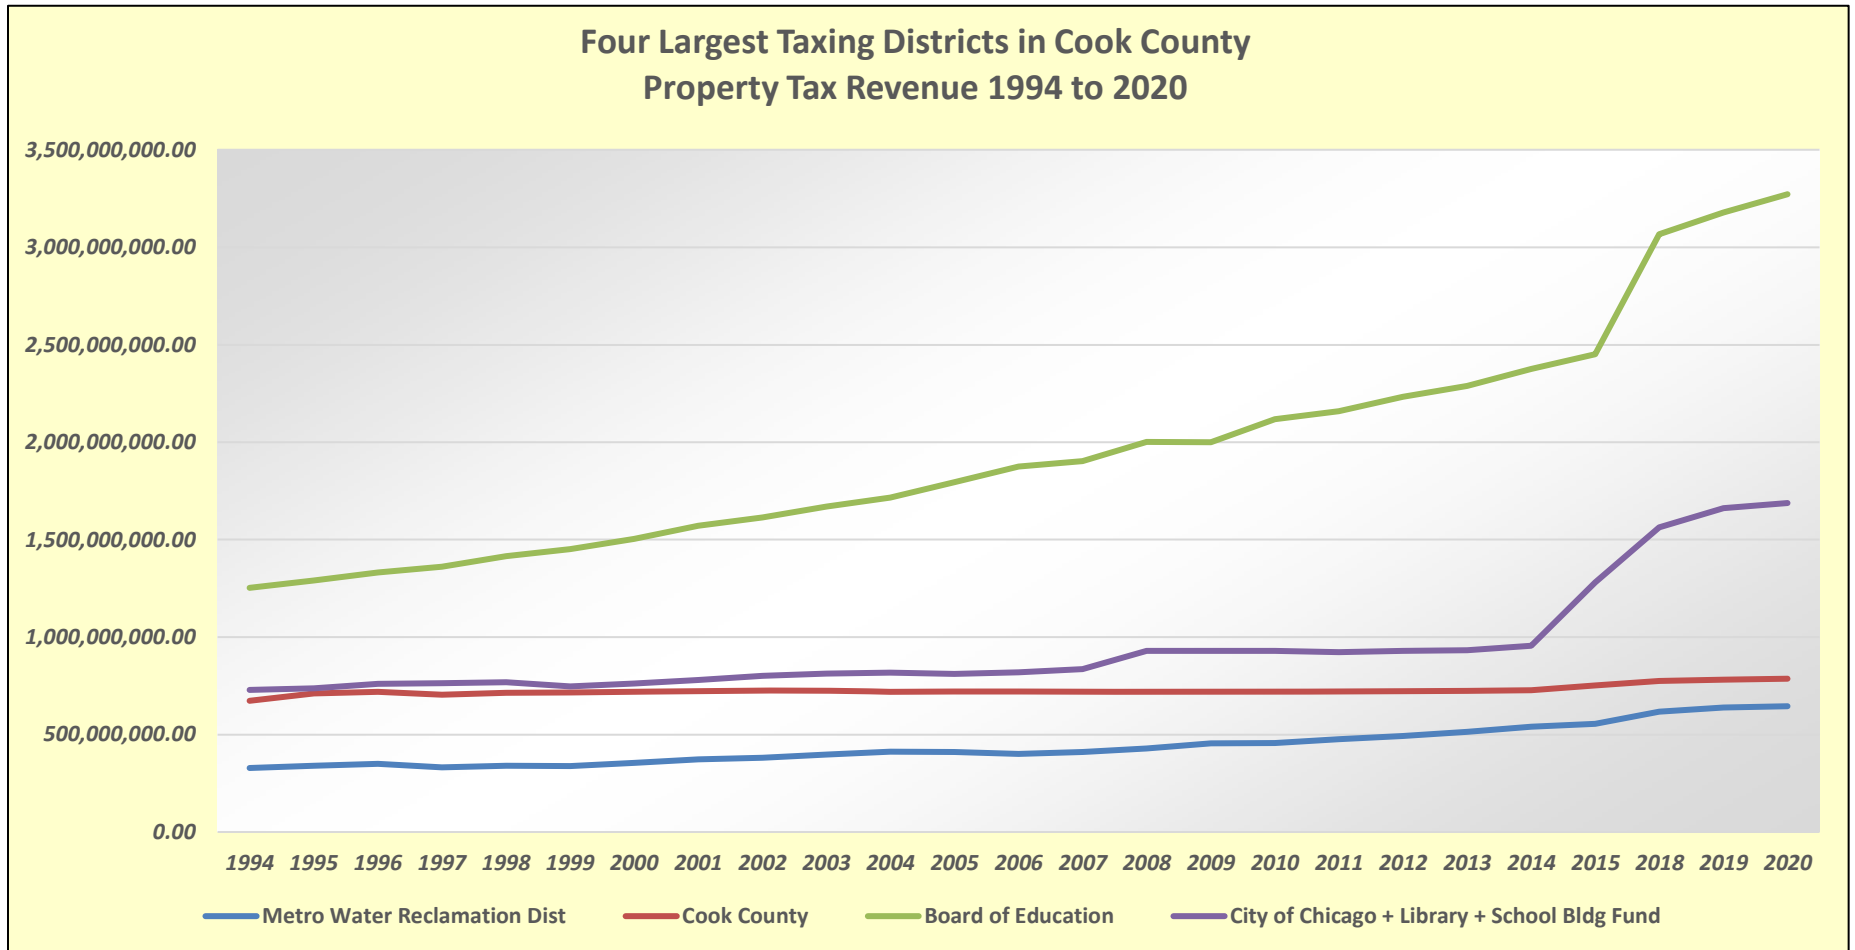

## Where do taxes go in the Suburbs?

Once tax revenue is collected, it is distributed to the taxing districts. Below is an example of how tax dollars may be distributed to taxing districts in one Northern Suburb (the Village of Niles) compared to one Southern Suburb (the Village of Tinley Park) for Tax Year 2020. School districts receive the largest portion of suburban tax bills.

# The Cook County Taxing Districts Which Collect the Most in Property Taxes

Of the \$16.1 billion of property tax billed in Cook County this year, nearly \$6.5 billion will be collected by just four districts as seen in the chart below.

# How Is My Property Tax Bill Calculated?

1. The Tax Rate for each taxing district is calculated:

$$\frac{\text{Taxing District Tax Levy}}{\text{Taxable Value in Taxing District}} = \text{District Tax Rate}$$

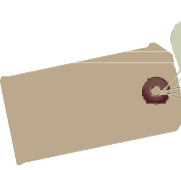

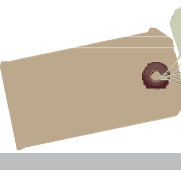

2. The Composite Tax Rate of all taxing districts in your area is calculated:

$$\begin{aligned} & \text{County Rate} \\ & + \text{Township Rate} \\ & + \text{Municipality Rate} \\ & + \text{Grade School Rate} \\ & + \text{High School Rate} \\ & + \text{Community College Rate} \\ & + \text{Park District Rate} \\ & + \text{Library Rate} \\ & + \text{Other District Rates} \\ & \hline & = \text{Composite Tax Rate} \end{aligned}$$

3. Your Individual Tax Bill is calculated:

$$\text{Individual Taxable Value} \times \text{Composite Tax Rate} = \text{Tax Bill Amount}$$

The property assessment process is the basis for generating property tax revenues that pay for a portion of schools, city and county services, roads, fire protection, public safety, water and sanitation, and other local services.

	<b>Assessed Value</b>	10% of a \$200,000 Home: <b>20,000</b>

## SAMPLE REAL ESTATE TAX BILL CALCULATION

The typical homeowner exemption for residential property is \$10,000 (other exemptions may apply). This sample calculation is based on the average assessment increase across all residential property in the northern suburbs and average tax increases in the City of Chicago and the southern suburbs. Individual tax bills will vary based on reassessment values and individual tax rates.
